Remnants Of Meaning:

Remnants of Meaning Stephen R. Schiffer, 1987 In this foundational work on the theory of linguistic and mental representation Stephen Schiffer surveys all the leading theories of meaning and content in the philosophy of language and finds them lacking He concludes that there can be no correct positive philosophical theory or linguistic or mental representation and accordingly advocates the deflationary no theory theory of meaning and content Along the way he takes up functionalism the nature of propositions and their suitability as contents the language of thought and other sententialist theories of belief intention based semantics and related issues in ontology Stephen Schiffer is Professor of Philosophy at the City University of New York Graduate Center A Bradford Book

Symposium on Remnants of Meaning by Stephen Schiffer, 1988

Meanings and Other Things Gary Ostertag, 2016 In *Meanings and Other Things* fourteen leading philosophers explore central themes in the writings of Stephen Schiffer a leading figure in philosophy since the 1970s Topics range from theories of meaning to moral cognitivism the nature of paradox and the problem of vagueness Schiffer's responses set out his current thinking

Introduction to Social Solipsism Jack Dunietz, 2011-01-22 Diary dated June 12 Prologue through July 1 Epilogue whose academic text the thesis is embodied in the footnotes

A Rhetoric of Remnants Zosha Stuckey, 2014-10-08 Examines the rhetoric in and around the New York State Asylum for Idiots in Syracuse from 1854 to 1884 In the nineteenth century language rather than biology created what we think of as disability Much of the rhetorical nature of idiocy and even intelligence itself can be traced to the period when the New York State Asylum for Idiots in Syracuse first opened in 1854 memorialized today as the first public school for people considered feeble minded or idiotic The asylum school pupil is a monumental example of how education attempts to mold and rehabilitate one's being Zosha Stuckey demonstrates how all education is in some way complicit in the urge to normalize The broad unstable and cross cultural category of people with disabilities endures an interesting relationship with rhetoric education speaking and writing Stuckey demystifies some of that relationship which requires new modes of inquiry and new ways of thinking and she calls into question many of the assumptions about embodied differences as they relate to pedagogy history and public participation There is no other single work quite like this one Stuckey makes an original contribution to rhetorical studies to disability history and to a history of special education Cynthia Lewiecki Wilson coeditor of *Disability and Mothering Liminal Spaces of Embodied Knowledge*

Memory Traces Silke Arnold-de Simine, 2005 This essay collection examines the dynamics of memory organization and the way it varies among different media and modes of discourse in post unification Germany German unification has put the post war period into a historical perspective Such a rupture raises questions concerning the appropriate commemoration preservation and reinterpretation of the past The processes of reorientation after unification influenced the self perception of literary authors as well as the social role position and status of German literature They also affected the way writers viewed the competition in which they found themselves pitted against visual and

electronic media as rival windows on the past In the context of several debates on German literature during the 1990s the discussion revolved not only around the adequate aesthetic representation of the historical and cultural heritage but even more so around the role of literature itself in that process The contributions look at different discourses that were and still are concerned with reinterpreting and creating new collective symbols and narrative patterns in relation to Germany's past The volume focuses on the effects of the characteristic discourses of the press literature and its different genres film the internet and memorials on the depiction and performance of memories

Québec Studies in the Philosophy of Science

Mathieu Marion, Robert S. Cohen, 2012-12-06 By North American standards philosophy is not new in Quebec the first mention of philosophy lectures given by a Jesuit in the College de Quebec founded 1635 dates from 1665 and the oldest logic manuscript dates from 1679 In English speaking universities such as McGill founded 1829 philosophy began to be taught later during the second half of the 19th century The major influence on English speaking philosophers was at least initially that of Scottish Empiricism On the other hand the strong influence of the Catholic Church on French Canadian society meant that the staff of the faculties of the French speaking universities consisted until recently almost entirely of Thomist philosophers There was accordingly little or no work in modern Formal Logic and Philosophy of Science and precious few contacts between the philosophical communities In the late forties Hugues Leblanc was a young student wanting to learn Formal Logic He could not find anyone in Quebec to teach him and he went to study at Harvard University under the supervision of W V Quine His best friend Maurice L Abbe had left a year earlier for Princeton to study with Alonzo Church After receiving his Ph D from Harvard in 1948 Leblanc started his professional career at Bryn Mawr College where he stayed until 1967 He then went to Temple University where he taught until his retirement in 1992 serving as Chair of the Department of Philosophy from 1973 until 1979

The Salvation of the Remnant in Isaiah 11 Gerald Emem Umoren, 2007-10

As a response to this situation this dissertation which scored a summa grade on presentation to the Biblical section of the Faculty of Theology of the Pontifical University of St Thomas Rome is basically an exegetico theological inquiry into the meaning and possible implication of Is 11 11 12 which proposes the salvation of the remnant

The Remains of Being

Santiago Zabala, 2009-09-22 In Basic Concepts Heidegger claims that Being is the most worn out and yet also that Being remains constantly available Santiago Zabala radicalizes the consequences of these little known but significant affirmations Revisiting the work of Jacques Derrida Reiner Sch rmann Jean Luc Nancy Hans Georg Gadamer Ernst Tugendhat and Gianni Vattimo he finds these remains of Being within which ontological thought can still operate Being is an event Zabala argues a kind of generosity and gift that generates astonishment in those who experience it This sense of wonder has fueled questions of meaning for centuries from Plato to the present day Postmetaphysical accounts of Being as exemplified by the thinkers of Zabala's analysis as well as by Nietzsche Dewey and others he encounters don't abandon Being Rather they reject rigid determined modes of essentialist thought in favor of more fluid malleable and adaptable conceptions redefining the pursuit
