Benay, 2017-07-05 Taking the Noli me tangere and Doubting Thomas episodes as a focal point this study examines how visual representations of two of the most compelling and related Christian stories engaged with changing devotional and cultural ideals in Renaissance and Baroque Italy This book reconsiders depictions of the ambiguous

encounter of Mary Magdalene and Christ in the garden John 20 11 19 known as the Noli me tangere and that of Christ's post Resurrection appearance to Thomas John 20 24 29 the Doubting Thomas as manifestations of complex theological and art theoretical milieus By focusing on key artistic monuments of the Italian Renaissance and Baroque periods the authors demonstrate a relationship between the rise of skeptical philosophy and empirical science and the efficacy of the senses in the construction of belief Further the authors elucidate the differing representational strategies employed by artists to depict touch and the ways in which these strategies were shaped by gender social class and educational level Indeed over time St Thomas became an increasingly public and therefore masculine symbol of devotional verification juridical inquiry and empirical investigation while St Mary Magdalene provided a more private model for pious women celebrating mostly behind closed doors the privileged and active participation of women in the faith The authors rely on primary source material paintings sculptures religious tracts hagiography popular sermons and new documentary evidence By reuniting their visual examples with important often little known textual sources the authors reveal a complex relationship between visual imagery the senses contemporary attitudes toward gender and the shaping of belief Further they add greater nuance to our understanding of the relationship between popular piety and the visual culture of the period

The Word made Visible in the Painted Image Stephen Miller, 2015-11-25 This book explores the areas of perspective proportion witness and theological threshold in the devotional art of the Italian Renaissance with particular reference to the painted image of Christ While the Incarnation in a very real way legitimised the idea of the portrayal of God in human form as Jesus Christ problems remained as to how this might be achieved and whether it should be restricted to the second person of the Holy Trinity This book looks at the creation of pictorial space and the presentation of the image paying special attention to schemes of perspective as a way to better describe reality as well as to considerations of proportion through such geometric methodology as the Golden Section and dynamic root rectangles based on certain perfect or divine ratios to balance and harmonise form The Word Made Visible in the Painted Image also explores the theological theme of threshold and liminal space describes how themes such as the Incarnation and Revelation were represented and looks at the symbolism employed in so doing It shows how such themes were captured set in space and communicated in the painted image This study is necessarily interdisciplinary combining the subject areas of art history and theory theology biblical study philosophy aesthetics physics metaphysics mathematics geometry optics physiology psychology and sociology in greater and lesser degrees Few books take such an interdisciplinary stance on art theology science and related disciplines to this extent

Pontormo and the Art of Devotion in Renaissance Italy Jessica A. Maratsos, 2021 Both lauded and criticized for his pictorial eclecticism the Florentine artist Jacopo Carrucci known as Pontormo created some of the most visually striking religious images of the Renaissance These paintings which challenged prevailing illusionistic conventions mark a unique contribution into the complex relationship between artistic innovation and Christian traditions in the first half of the

sixteenth century Pontormo's sacred works are generally interpreted as objects that reflect either pure aesthetic experimentation or personal and cultural anxiety. Jessica Maratsos however argues that Pontormo employed stylistic change deliberately for novel devotional purposes. As a painter he was interested in the various modes of expression and communication: direct address, tactile evocation, affective incitement as deployed in a wide spectrum of devotional culture from sacri monti to Michelangelo's marble sculptures to evangelical lectures delivered at the Accademia Fiorentina. Maratsos shows how Pontormo translated these modes in ways that prompt a critical rethinking of Renaissance devotional art.

Visions of Holiness Andrew Ladis, Georgia Museum of Art, 2001 The Central Italian Painters of the Renaissance

Bernard Berenson, 1897 Dosso's Fate Dosso Dossi, 1998 Dosso Dossi has long been considered one of Renaissance Italy's most intriguing artists. Although a wealth of documents chronicles his life, he remains in many ways an enigma, and his art continues to be as elusive as it is compelling. In *Dosso's Fate*, leading scholars from a wide range of disciplines examine the social, intellectual, and historical contexts of his art, focusing on the development of new genres of painting, questions of style and chronology, the influence of courtly culture, and the work of his collaborators as well as his visual and literary sources and his painting technique. The result is an important and original contribution not only to literature on Dosso Dossi but also to the study of cultural history in early modern Italy. Early Italian Painting Joseph Archer Crowe, Giovanni Battista

Cavalcaselle, 2011-01-01 Introduces the artistic movement that led to the Renaissance and features such artists as Ugo di Nerio, Giotto di Bondone, and Andrea Orcagna. **The Arts of the Italian Renaissance: Painting, Sculpture,**

Architecture Walter Paatz, 1974 The historical and philosophical background of Renaissance Italy shows how certain groups in society controlled and guided the activities of artists. The patronage of the Catholic Church, the nobility, and the great banking and merchant families elevated the artist from the position of humble craftsman to that of admired and rewarded genius. The stylistic and technical elements that define Italian Renaissance art are described and clarified with examples.

A History of Italian Renaissance Art Frederick Hartt, 1984 Madonnas and Miracles Maya Corry, Deborah

Howard, 2017-04-30 *Madonnas and Miracles* exposes a hidden world of religious devotion in the Italian Renaissance home. Challenging the idea of the Renaissance as an age of increasing worldliness, it shows how religion remained a powerful force that coloured every aspect of daily life. Across the length and breadth of Italy, houses were filled with decorative objects and works of art with spiritual significance designed to aid members of the family in their devotional lives. A wide range of religious activities, from routine prayers to extraordinary experiences such as miracles and exorcisms, took place within the home where they were adapted to key moments in the life cycle, including birth, marriage, sickness, and death. This illustrated publication explores a variety of devotional objects and images, from luxury items to everyday household goods. Bringing together jewellery and ceramics, manuscripts and printed books, sculpture and paintings, the book offers a vivid encounter with Renaissance spirituality and domesticity. The result is a new vision of a period in which the material world was charged
