his works Sigurdson argues that both implicit and explicit political reflections and theories are recognisable *Bulletin*, 1965 **The Greatest Works** Friedrich Nietzsche, 2022-11-13 In individuals insanity is rare but in groups parties nations and epochs it is the rule Friedrich Nietzsche 1844 1900 was a German philosopher poet and Latin and Greek scholar whose work has exerted a profound influence on Western philosophy and modern intellectual history Because of Nietzsche's evocative style and provocative ideas his philosophy generates passionate reactions His works remain controversial due to varying interpretations and misinterpretations of his work In the Western philosophy tradition Nietzsche's writings have been described as the unique case of free revolutionary thought that is revolutionary in its structure and problems although not tied to any revolutionary project Some prominent elements of his philosophy include his genealogical critique of religion and Christian morality the related theory of master slave morality the characterization of the human subject as the expression of competing wills collectively understood as the will to power and influential concepts such as the *Übermensch* and the doctrine of eternal return Content Beyond Good and Evil The Genealogy of Morals The Birth of Tragedy or Hellenism And Pessimism The Antichrist Thus Spake Zarathustra A Book for All and None The Case of Wagner The Twilight of the Idols The Will to Power Vol 1 2 The Gay Science or The Joyful Wisdom We Philologists Ecce Homo How One Becomes What One Is The Greek State The Greek Woman On Music and Words Homer's Contest The Relation of Schopenhauer's Philosophy to a German Culture Philosophy During the Tragic Age of the Greeks On Truth and Falsity in Their Ultramoral Sense Selected Personal Letters *Main Currents of Western Thought* Franklin Le Van Baumer, 1978-01-01 Baumer's collection maps better than any other with which we are familiar the seminal and distinguishing ideological climates in western civilization Seventeenth Century News Many disciplines create books of readings by the dozens it is a rare event when a reader helps to create a discipline On its initial publication in 1952 Main Currents of Western Thought did just that In the years since its first appearance Main Currents has remained unquestionably the leading reader in its field The illuminating short essays that introduce sections and subsections are well known but the continuing usefulness of any reader depends upon the quality of its selections Franklin Le Van Baumer has sought out passages that best represent and illuminate the ideas and preoccupations of each age He has found them in the works of the great including Augustine Aquinas Dante Luther Newton Voltaire Darwin Whitehead and Freud But he has also discovered telling statements in writings less widely known Ramon Llull on chivalry 13th century Henry Peacham on the complete gentleman and Leonard Busher on religious liberty both 17th century Louis Ren de la Chalotais on education 18th century Samuel Smiles on self help 19th century and Virgil Gheorgiu on mechanization 20th century **Ordering America** William H.
