Renaissance Minds and Their Fictions Ronald Levao, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985

Philip Sidney and the Poetics of Renaissance Cosmopolitanism Robert E. Stillman, 2016-04-22 Celebrations of literary fictions as autonomous worlds appeared first in the Renaissance and were occasioned paradoxically by their power to remedy the ills of history Robert E Stillman explores this paradox in relation to Philip Sidney's *Defence of Poesy* the first Renaissance text to argue for the preeminence of poetry as an autonomous form of knowledge in the public domain Offering a fresh interpretation of Sidney's celebration of fiction making Stillman locates the origins of his poetics inside a neglected historical community the intellectual elite associated with Philip Melanchthon leader of the German Reformation after Luther the so called Philippists As a challenge to traditional Anglo centric scholarship his study demonstrates how Sidney's education by Continental Philippists enabled him to dignify fiction making as a compelling form of public discourse compelling because of its promotion of powerful new concepts about reading and writing its ecumenical piety and its political ambition to secure through natural law from universal Ideas freedom from the tyranny of confessional warfare Intellectually ambitious and wide ranging this study draws together various elements of contemporary scholarship in literary religious and political history in order to afford a broader understanding of the *Defence* and the cultural context inside which Sidney produced both his poetry and his poetics

Renaissance Fantasies Maria Teresa Micaela Prendergast, 1999 Explores why some early modern writers put their masculine literary authority at risk by writing from the perspective of femininity and effeminacy The text argues that such work promoted alternatives to the dominant patriarchal aesthetics by celebrating unruly female and effeminate male bodies

Renaissance Romance Dr Nandini Das, 2013-05-28 Romance was criticized for its perceived immorality throughout the Renaissance and even enthusiasts were often forced to acknowledge the shortcomings of its dated narrative conventions Yet despite that general condemnation the striking growth in English fiction in the late sixteenth and early seventeenth centuries is marked by writers who persisted in using this much maligned narrative form In Renaissance Romance Nandini Das examines why the fears and expectations surrounding the old genre of romance resonated with successive new generations at this particular historical juncture Across a range of texts in which romance was adopted by the court by popular print and by women Das shows how the process of realignment and transformation through which the new prose fiction took shape was driven by a generational consciousness that was always inherent in romance In the fiction produced by writers such as Sir Philip Sidney Robert Greene and Lady Mary Wroth the transformative interaction of romance with other emergent forms from the court masque to cartography was determined by specific configurations of social groups

drawn along the lines of generational difference What emerged as a result of that interaction radically changed the possibilities of fiction in the period *Shakespeare and Senecan Tragedy* Curtis Perry, 2021 Perry reveals Shakespeare derived modes of tragic characterization previously seen as presciently modern via engagement with Rome and Senecan tragedy **Five Words** Roland Greene, 2013-06-10 *Blood Invention Language Resistance World* Five ordinary words that do a great deal of conceptual work in everyday life and literature In this original experiment in critical semantics Roland Greene considers how these words changed over the course of the sixteenth century and what their changes indicate about broader forces in science politics and other disciplines Rather than analyzing works careers or histories Greene discusses a broad swath of Renaissance and transatlantic literature including Shakespeare Cervantes Cam es and Milton in terms of the development of these five words Aiming to shift the conversation around Renaissance literature from current approaches to riskier enterprises Greene also proposes new methods that take advantage of digital resources like full text databases but still depend on the interpreter to fashion ideas out of ordinary language *Five Words* is an innovative and accessible book that points the field of literary studies in an exciting new direction *The Visionary Realism of German Economics* Erik S. Reinert, 2019-02-15 *The Visionary Realism of German Economics* forms a collection of Erik S Reinert s essays bringing the more realistic German economic tradition into focus as an alternative to Anglo Saxon neoclassical mainstream economics Together the essays form a holistic theory explaining why economic development by its very nature is a very uneven process Herein lie the important policy implications of the volume *The Protean Ass* Robert H. F. Carver, 2007-12-06 A full account of the reception of the second century prose fiction *The Golden Ass* or *Metamorphoses* of Apuleius which has intrigued readers as diverse as St Augustine Petrarch Boccaccio Sidney Spenser Shakespeare and Milton Robert H F Carver traces readers responses to the novel from the third to the seventeenth centuries *Intricate Movements* Bradley Tuggle, 2019-03-07 Renaissance humanism takes as one of its subjects for inquiry the category of the human itself As *Intricate Movements* *Experimental Thinking and Human Analogies* in Sidney and Spenser shows late sixteenth century English poets found some remarkably radical ways to interrogate and redefine the status of humans The recent vogue for posthumanist theory encourages a view of non human objects and animals in Renaissance literature as pathways to essentially anti humanist thought On the contrary this book argues that Sidney Spenser and their contemporaries employ animals earth buildings and fictions as analogies employed toward a better understanding of what makes humans a special category both ontologically and ethically Horses and riders are studied by Sidney as a way to understand readers and writers the 1580 Dover Straits Earthquake provides Spenser and Gabriel Harvey an opportunity to explore human emotion liturgical spaces are represented by Sidney and Spenser in order to reassess human community and fictional persons are interrogated by Spenser as models for human interpersonal epistemology This volume seeks to return critical assessments of the period s engagement with the non human back to human concerns Focusing on several early modern analogies between human and

non human entities Intricate Movements argues Sidney s and Spenser s thinking about the human is both radically experimental and ultimately humane **Divine and Poetic Freedom in the Renaissance** Ullrich Langer,2014-07-14 The closely related problems of creativity and freedom have long been seen as emblematic of the Renaissance Ullrich Langer however argues that French and Italian Renaissance literature can be profitably reconceived in terms of the way these problems are treated in late medieval scholasticism in general and nominalist theology in particular Looking at a subject that is relatively unexplored by literary critics Langer introduces the reader to some basic features of nominalist theology and uses these to focus on what we find to be modern in French and Italian literature of the fifteenth and sixteenth centuries Langer demonstrates that this literature often in its most interesting moments represents freedom from constraint in the figures of the poet and the reader and in the fictional world itself In Langer s view nominalist theology provides a set of concepts that helps us understand the intellectual context of that freedom God the secular sovereign and the poet are similarly absolved of external necessity in their relationships to their worlds Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
