Renaissance Antichrist Luca Signorelli's Orvieto Frescoes:

The Renaissance Antichrist Jonathan B. Riess, Luca Signorelli, 1995 A major monument Luca Signorelli's Orvieto Cathedral frescoes rendered with vigor and invective the most ambitious consideration of the Apocalypse and the Last Judgment in Italian Renaissance art In a fresh interpretation of these frescoes Jonathan Riess explores the intriguing violent style and complex iconography and places the works in their richly faceted historical setting Begun by Fra Angelico in 1447 and completed by Signorelli at the turn of the century the frescoes reflect the turmoil within the Papal States the suffering brought on by a surge of natural disasters the fear of the Turks and the anti Judaic campaigns of the day The book centers on the mural depicting the Rule of Antichrist the single monumental portrayal of the subject during the Renaissance and a revealing indicator of widespread apocalyptic obsessions Drawing on historical theological literary and artistic sources Riess examines the reasons behind the commissioning of the murals and considers the broad meaning of the program The Rule of Antichrist for example is seen as a summa of the doom laden worlds of Rome and Orvieto and as a blistering condemnation of the political realm Signorelli's references to Dante Virgil and Cicero and to contemporary theology and dramatic performances come into play as Riess interprets the monument as a representation of the struggle between a penitential Christianity and the forces of heresy and tyranny

MacMichael, 2004 Historians some specializing in the Middle Ages some in religion and some in a particular European country describe the major areas scholars are working in with regard to the friars preaching to and writing about the Jews from the early days of the mendicant order about the turn of the 13th century to the 16th century Their topics include the

Bramante's Tempietto, the Roman Renaissance, and the Spanish Crown Jack Freiberg, 2014-11-10 The Tempietto the embodiment of the Renaissance mastery of classical architecture and its Christian reinvention was also the pre eminent commission of the Catholic kings Ferdinand of Aragon and Isabel of Castile in papal Rome This groundbreaking book situates Bramante's time honored memorial dedicated to Saint Peter and the origins of the Roman Catholic Church at the center of a coordinated program of the arts exalting Spain's leadership in the quest for Christian hegemony The innovations in form and iconography that made the Tempietto an authoritative model for Western architecture were fortified in legacy monuments created by the popes in Rome and the kings in Spain from the later Renaissance to the present day New photographs expressly taken for this study capture comprehensive views and focused details of this exemplar of Renaissance art and statecraft

Divine and Demonic Imagery at Tor de'Specchi, 1400-1500 Suzanne Scanlan, 2025-10-01 In the fifteenth century the Oblates of Santa Francesca Romana a fledgling community of religious women in Rome commissioned an impressive array of artwork for their newly acquired living quarters the Tor de Specchi The imagery focused overwhelmingly on the sensual corporeal nature of contemporary spirituality populating the walls of the monastery with a highly naturalistic assortment of earthly divine and demonic figures This book draws on art history anthropology and gender

studies to explore the disciplinary and didactic role of the images as well as their relationship to important papal projects at the Vatican

Renaissance Self-portraiture Joanna Woods-Marsden, 1998-01-01 An exploration of the genesis and early development of the genre of self portraiture in Italy in the 15th and 16th centuries The author examines a series of self portraits in Renaissance Italy arguing that they represented the aspirations of their creators to change their social standing

Senses of Touch: Human Dignity and Deformity from Michelangelo to Calvin Marjorie O'Rourke Boyle, 2021-10-11 Senses of Touch anatomizes the uniquely human hand as a rhetorical figure for dignity and deformity in early modern culture It concerns a valuational shift from the contemplative ideal as signified by the sense of sight to an active reality as signified by the sense of touch From posture to piety from manicure to magic the book discovers touch in a critical period of its historical development in anatomy and society It features new interpretations of two landmarks of western civilization Michelangelo's fresco of the Creation of Adam and Calvin's doctrine of election It also accords special attention to the typing of women as sensual creatures by using their hands as a heuristic Its alternative interpretations explore in theory and in practice the sensuality the creativity and the plain utility of hands thus integrating biology and culture

On Dangerous Ground Diane O'Donoghue, 2018-10-18 Winner of the 2019 Robert S Liebert Award established jointly by the Association for Psychoanalytic Medicine and the Columbia University Center for Psychoanalytic Training and Research In the final years of the 19th century Sigmund Freud began to construct evidence for the workings of an unconscious On Dangerous Ground offers an innovative assessment of the complex role that his encounters with visual cultures architecture objects from earlier cultural epochs antiquities paintings and illustrated books played in that process Diane O Donoghue introduces often using unpublished archival sources the ways in which material phenomena profoundly informed Freud's decisions about what would and would not constitute the workings of an inner life By returning to view content that Freud treated as forgettable as distinct from repressed O Donoghue shows us a realm of experiences that Freud wished to remove from psychical meaning These erasures form an amnesic core within Freud's psychoanalytic project an absence that includes difficult aspects of his life narrative beginning with the dislocations of his early childhood that he declared not worth remembering What is made visible here is far from the inconsequential

surface of experience rather we are shown a dangerous ground that exceeds the limits of what Freud wished to include within his early model of mind In Freud s relation to visual cultures we find clues to what he attempted in crafting his unconscious to remove from sight The Sistine Chapel Ulrich Pfisterer,2018 The art of the Sistine Chapel decorated by artists who competed with one another and commissioned by popes who were equally competitive is a complex fabric of thematic chronological and artistic references Four main campaigns were undertaken to decorate the chapel between 1481 and 1541 and with each new addition fundamental themes found increasingly concrete expression One overarching theme plays a central role in the chapel the legitimization of papal authority as symbolized by two keys one silver one gold to the kingdom of heaven The Sistine Chapel Paradise in Rome is a concise informative account of the Sistine Chapel In unpacking this complex history Ulrich Pfisterer reveals the remarkable unity of the images in relation to theology politics and the intentions of the artists themselves who included such household names as Botticelli Michelangelo and Raphael Through a study of the main campaigns to adorn the Sistine Chapel Pfisterer argues that the art transformed the chapel into a pathway to the kingdom of God legitimizing the absolute authority of the popes First published in German the prose comes to life in English in the deft hands of translator David Dollenmayer
