Renaissance Notion Of Woman:

The Renaissance Notion of Woman Ian Maclean,1980 This monograph dealing with the intellectual notions held during the Renaissance of what woman is surveys the ideas of the nature of woman sex difference and sex discrimination and the emergence of a feminist movement in the first half of the 17th century **The Renaissance Notion in Woman** ,1980

The Female Body in Medicine and Literature Andrew Mangham,Greta Depledge,2013-08-15 Drawing on a range of texts from the seventeenth century to the present *The Female Body in Medicine and Literature* explores accounts of motherhood fertility and clinical procedures for what they have to tell us about the development of women s medicine The essays here offer nuanced historical analyses of subjects that have received little critical attention including the relationship between gynecology and psychology and the influence of popular art forms on so called women s science prior to the twenty first century Taken together these essays offer a wealth of insight into the medical treatment of women and will appeal to scholars in gender studies literature and the history of medicine **Declamation on the Nobility and Preeminence of the**

Female Sex Henricus Cornelius Agrippa,2007-11-01 Originally published in 1529 the *Declamation on the Preeminence and Nobility of the Female Sex* argues that women are more than equal to men in all things that really matter including the public spheres from which they had long been excluded Rather than directly refuting prevailing wisdom Agrippa uses women s superiority as a rhetorical device and overturns the misogynistic interpretations of the female body in Greek medicine in the Bible in Roman and canon law in theology and moral philosophy and in politics He raised the question of why women were excluded and provided answers based not on sex but on social conditioning education and the prejudices of their more powerful oppressors His declamation disseminated through the printing press illustrated the power of that new medium soon to be used to generate a larger reformation of religion *Textuality and Sexuality* Judith Still,Michael Worton,1993

Constructions of Female Homoeroticism in Early Modern Drama D. Walen,2005-09-16 This book explores representations of love and desire between female characters in nearly seventy plays written between 1580 and 1660 The work argues that playwrights of late sixteenth and early seventeenth century England recognized and constructed richly diverse tropes of female homoerotic desire Writers place female characters in erotic situations with other female characters in playful scenarios of mistaken identity in anxious moments of amorous intrigue in predatory situations and in enthusiastic utopian representations of romantic love These plays indicate an awareness of female homoeroticism in early modern England and belie statements that literary evidence of homosexuality was concerned primarily with men *Selected Writings of an Eighteenth-Century Venetian Woman of Letters* Elisabetta Caminer Turra,2007-11-01 Elisabetta Caminer Turra 1751 96 was one of the most prominent women in eighteenth century Italy and a central figure in the international Republic of Letters A journalist and publisher Caminer participated in important debates on capital punishment freedom of the press and the abuse of clerical power She also helped spread Enlightenment ideas into Italy by promoting and publishing

Voltaire's latest works and translating new European plays plays she herself directed to great applause on Venetian stages Bringing together Caminer's letters poems and journalistic writings nearly all published for the first time here *Selected Writings* offers readers an intellectual biography of this remarkable figure as well as a glimpse into her intimate correspondence with the most prominent thinkers of her day But more important *Selected Writings* provides insight into the passion that animated Caminer's fervent reflections on the complex and shifting condition of women in her society the same passion that pushed her to succeed in the male dominated literary professions *Shakespeare's Sonnets and Narrative Poems* A. D. Cousins, 2014-07-21 Alongside Spenser Sidney and the early Donne Shakespeare is the major poet of the 16th century largely because of the status of his remarkable sequence of sonnets Professor Cousins new book is the first comprehensive study of the Sonnets and narrative poems for over a decade He focuses in particular on their exploration of self knowledge sexuality and death as well as on their ambiguous figuring of gender Throughout he provides a comparative context looking at the work of Shakespeare's contemporaries The relation between Shakespeare's non dramatic verse and his plays is also explored *Gender and the Sacred Self in John Donne* Elizabeth M. A. Hodgson, 1999 This first book length feminist study of Donne argues that his sacred subject position is ambivalently and illustratively invested in cultural archetypes of mothers daughters and brides The chapters focus on baptism marriage and death as key moments in Donne's and his culture's construction of the gendered soul *Women and Literature in Britain, 1500-1700* Helen Wilcox, 1996-11-13 First comprehensive introduction to women's role in and access to literary culture in early modern Britain
