[The Foreign Policy of George W. Bush](#) Alexander Moens,2017-03-02 Few presidents in modern times have seen their words and actions subject to such intense critical scrutiny as George W Bush His critics label him the Pariah President personally inarticulate and at times politically incoherent his supporters portray him as gifted and skilled one of the most decisive successful and popular leaders of our time But if the person is now the policy at the White House and that person happens to be both activist and moralist what kind of presidency and foreign policy flows from such a leader How has Bush changed American politics and the role of the United States in the world Alexander Moens offers the first systematic explanation of Bush s foreign policy by describing the complexities of the man and how his particular personality and style so heavily influence the final policy outcomes Frank engaging and insightful it offers an original and carefully documented account of Bush s personality his presidential style and his decision making process and how these three core ingredients in turn provide the key to understanding Bush s overall strategy and policy The Foreign Policy of George W Bush is an ideal reference for contemporary US foreign policy

Bush's War Jim A. Kuypers, 2006-10-10

Immediately after the attacks of September 11 2001 Americans looked to President Bush for words of leadership In his most formal reply of the day he said Today our fellow citizens our way of life our very freedom came under attack in a series of deliberate and deadly terrorist acts The victims were in airplanes or in their offices secretaries businessmen and women military and federal workers moms and dads friends and neighbors Thousands of lives were suddenly ended by evil despicable acts of terror The stark tone of Bush's speech suggested the promise of more words to come from the president and it is these words that Bush's War addresses While many books have offered a take on the attacks of 9 11 and their impact upon American society one area has been comparatively ignored presidential justifications for war in the age of terrorism Specifically what did President Bush say to justify American military actions in the post-9 11 world And how did the public hear what he said especially as it was filtered through the news media The eloquent and thoughtful Bush's War shows how public perception of what the president says is shaped by media bias Jim A Kuypers compares Bush's statements with press coverage arguing that the nature of American public knowledge concerning our role in the world has been changed not by 9 11 but by the subsequent argumentative back and forth between Bush and the press
