Rendezvous Mit Dem Weltgeist Heidelberger Reminiszenzen 19451951:

History in the Plural Niklas Olsen, 2012 Reinhart Koselleck 1923 2006 was one of most imposing and influential European intellectual historians in the twentieth century Constantly probing and transgressing the boundaries of mainstream historical writing he created numerous highly innovative approaches absorbing influences from other academic disciplines as represented in the work of philosophers and political thinkers like Hans Georg Gadamer and Carl Schmitt and that of internationally renowned scholars such as Hayden White Michel Foucault and Quentin Skinner An advocate of grand theory Koselleck was an inspiration to many scholars and helped move the discipline into new directions such as conceptual history theories of historical times and memory and across disciplinary and national boundaries He thus achieved a degree of international fame that was unusual for a German historian after 1945 This book not only presents the life and work of a great thinker and European intellectual it also contributes to our understanding of complex theoretical and methodological issues in the cultural sciences and to our knowledge of the history of political historical and cultural thought in Germany from the 1950s to the present

The Holocaust and the West German Historians Nicolas Berg, 2015-01-13 This landmark book Nicholas Berg addresses the work of German and German Jewish historians in the first three decades of post World War II Germany He examines how they perceived and failed to perceive the Holocaust and how they interpreted and misinterpreted that historical fact using an arsenal of terms and concepts arguments and explanations

Rage and Time Peter Sloterdijk, 2010 While ancient civilizations worshipped strong active emotions modern societies have favored more peaceful attitudes especially within the democratic process We have largely forgotten the struggle to make use of thymos the part of the soul that following Plato contains spirit pride and indignation Rather Christianity and psychoanalysis have promoted mutual understanding to overcome conflict Through unique examples Peter Sloterdijk the preeminent posthumanist argues exactly the opposite showing how the history of Western civilization can be read as a suppression and return of rage By way of reinterpreting the Iliad Alexandre Dumas's Count of Monte Cristo and recent Islamic political riots in Paris Sloterdijk proves the fallacy that rage is an emotion capable of control Global terrorism and economic frustrations have rendered strong emotions visibly resurgent and the consequences of violent outbursts will determine international relations for decades to come To better respond to rage and its complexity Sloterdijk daringly breaks with entrenched dogma and constructs a new theory for confronting conflict His approach acknowledges and respects the proper place of rage and channels it into productive political struggle

Crisis and Renewal in the History of European Political Thought, 2021-08-30 Listen to the podcast here Read Crisis as a trigger for new ways of thinking about politics here This volume explores the complex theme of crisis in European political thought from antiquity to the twenty first century It investigates the innovations in political thought that sprang from crisis as well as the conceptual challenges thinkers faced when dealing with the devastation wrought by spiritual economic and political crises In so doing Crisis and Renewal also examines the

ways in which crisis often became the site of renewal As an object of theoretical reflection and as a pivotal element of our vocabulary the notion of crisis is often applied indiscriminately and without clarity to a huge variety of domains This volume provides a historically informed analysis of what it means to reflect on and theorise about crisis Contributors are Erica Benner Niall Bond Nathaniel Boyd Andrea Catanzaro Patricia Chiantera Stutte Alberto Clerici Cesare Cuttica Annalisa Furia George Gallwey Kai Gr f Ferenc H rcher Paschalis M Kitromilides L szl Kontler Adriana Luna Fabritius Clara Maier Janine Murphy Adrian O Connor and Mark Somos *Time, History, and Political Thought* John Robertson, 2023-06-22 Between the clich that a week is a long time in politics and the aspiration of many political philosophers to give their ideas universal timeless validity lies a gulf which the history of political thought is uniquely qualified to bridge For that history shows that no conception of politics has dispensed altogether with time and many have explicitly sought legitimacy in association with forms of history Ranging from Justinian s law codes to rival Protestant and Catholic visions of political community after the Fall from Hobbes and Spinoza to the Scottish Enlightenment and from Kant and Savigny to the legacy of German Historicism and the Algerian Revolution this volume explores multiple ways in which different conceptions of time and history have been used to understand politics since late antiquity Bringing together leading contemporary historians of political thought *Time History and Political Thought* demonstrates just how much both time and history have enriched the political imagination

Power and Time Dan Edelstein, Stefanos Geroulanos, Natasha Wheatley, 2021-01-01 Time is the backdrop of historical inquiry yet it is much more than a featureless setting for events Different temporalities interact dynamically sometimes they coexist tensely sometimes they clash violently In this innovative volume editors Dan Edelstein Stefanos Geroulanos and Natasha Wheatley challenge how we interpret history by focusing on the nexus of two concepts power and time as they manifest in a wide variety of case studies Analyzing history culture politics technology law art and science this engaging book shows how power is constituted through the shaping of temporal regimes in historically specific ways *Power and Time* includes seventeen essays on human rights sovereignty Islamic European Chinese and Indian history slavery capitalism revolution the Supreme Court the Anthropocene and even the Manson Family *Power and Time* will be an agenda setting volume highlighting the work of some of the world s most respected and original contemporary historians and posing fundamental questions for the craft of history

Helmut Kohl's Quest for Normality Christian Wicke, 2015-02-01 During his political career Helmut Kohl used his own life story to promote a normalization of German nationalism and to overcome the stigma of the Nazi period In the context of the cold war and the memory of the fascist past he was able to exploit the combination of his religious generational regional and educational he has a PhD in History experiences by connecting nationalist ideas to particular biographical narratives Kohl presented himself as the embodiment of normality a de radicalized German nationalism which was intended to eclipse any anti Western and post national peculiarities This book takes a biographical approach to the study of nationalism by examining its manifestation in Helmut Kohl and the way he historicized
