Saving Lives Livelihoods:

Saving livelihoods saves lives Food and Agriculture Organization of the United Nations, 2018-11-01 A summary of the achievements of FAO's resilience and emergency programmes in 2017 covering over 50 countries While 59% of resources went to preventing famine in Nigeria Somalia South Sudan and Yemen FAO also responded to other major protracted crises

Saving livelihoods saves lives 2018 Food and Agriculture Organization of the United Nations, 2019-05-23 In recent years the number of people experiencing acute hunger has been persistently high And 2018 was no exception Some 113 million people in 53 countries were acutely hungry last year That is 113 million girls boys men and women old and young who were unable to access enough food and required humanitarian assistance to meet their most basic needs For FAO building resilient agriculture based livelihoods and food systems is at the core of efforts to fight acute hunger and avert food crises We know how critical humanitarian assistance is At the same time it is clear that humanitarian assistance on its own is not enough to win the battle against acute hunger That is why FAO's humanitarian work is firmly embedded within a foundation of resilience building And this was really demonstrated in 2018 when the breadth of our work extended from immediate humanitarian response to protect lives and livelihoods in some of the most complex contexts in the world including South Sudan and Yemen to addressing the vulnerability of pastoral populations and facilitating the development of livestock feed balances in the Horn of Africa to supporting disaster risk reduction efforts from Myanmar to Central America Publications such as this offer us an opportunity to reflect on some of our achievements over the past year and identify how we can do better in the next It is not intended as an exhaustive list of the work done under FAO's strategic programme on resilience but rather a snapshot to demonstrate what we can achieve and how much more this to be done **Livelihoods, Natural**

Middle East and Central Asia Dept.,2021-04-08 While the Covid 19 shock temporarily disrupted Pakistan's progress under the program supported by the IMF's Extended Fund Facility EFF the authorities policies have been critical in supporting the economy and saving lives and livelihoods Aside from health related containment measures their response included a temporary fiscal stimulus large expansion of social safety nets monetary policy support and targeted financial initiatives These measures supported by sizable emergency financing from the international community including under an RFI helped contain the first Covid 19 wave of cases and the impact on the economy Growth slowed to 0.4 percent in FY 2020 July-June but is expected to recover to 1.5 percent in FY 2021 The external position improved and inflation continued to decelerate through early 2021 despite supply driven spikes in food prices However a second Covid 19 wave is unfolding triggering exceptionally high uncertainty and downside risks

Anti-Leftist Politics in Modern World History Philip B. Minehan, 2021-11-04 Systemic and political hostility against the left real and contrived has been a key yet under recognized aspect of the history of the modern world for the past two hundred years By the 1820s the new exploitative and destabilizing character of capitalist industrial production and its accompanying market liberalizations began creating necessities among the working classes and their allies for the new self protective politics of socialism But it is evident that for the new economic system to sustain itself such oppositional politics that it necessitated had to be undermined if not destroyed by whatever means necessary Through the imperialism of the later 19th century and with significant variations this complex and often highly destructive dialectical syndrome expanded worldwide Liberals conservatives extreme nationalists fascists racists and others have all repeatedly come aggressively and violently into play against socialist oppositions In this book Philip Minehan traces the patterns of such hostility and presents numerous crucial examples of it from Britain France Germany and the United States the British in India European fascism the United States and Britain as they operated in China and Indochina from Kenya Algeria and Iran and from Central and South America during the Cold War In the final chapters Minehan addresses the post Cold War US led triumphalist wars in the Middle East the ensuing refugee crises neo fascism and anti environmentalist politics to show the ways that the syndrome within which anti leftist antagonism emerges in its neoliberal phase since the 1970s remains as self destructive and dangerous as ever
