particular this volume highlights materials that receive little academic attention such as works on Southeast Asian migrants mixed race cultural production and Asian American pornography As an interdisciplinary anthology this collection weaves together various forms of knowledge _autobiographical accounts humanistic research community based work and artistic expression Responsive to the imbrication of knowledge and power the authors aspire to present a diverse sample of discourses that construct Asian American bodies They maintain that the body serves as the primary interface between the individual and the social yet as Elizabeth Grosz noted over a decade ago feminist theory and gender and sexuality studies more generally has tended with some notable exceptions to remain uninterested in or unconvinced about the relevance of refocusing on bodies in accounts of subjectivity This volume attempts to address this concern

Christopher Marlowe Richard Wilson, 2014-07-15 Christopher Marlowe has provoked some of the most radical criticism of recent years There is an elective affinity it seems between this pre modern dramatist and the post modern critics whose best work has been inspired by his plays The reason suggested by this collection of essays is that Marlowe shares the post modern preoccupation with the language of power and the power of language itself As Richard Wilson shows in his introduction it is no accident that the founding essays of New Historicism were on Marlowe nor that current Queer Theorists focus so much on his images of gender and homosexuality Marlowe staged both the birth of the modern author and the origin of modern sexual desire and it is this unique conjunction that makes his drama a key to contemporary debates about the state and the self from pornography to gays in the military Gay Studies Cultural Materialism New Historicism and Reader Response Criticism are all represented in this selection which the introduction places in the light not only of theorists like Althusser Bataille and Bakhtin but also of artists and writers such as Jean Genet and Robert Mapplethorpe Many of the essays take off from Marlowe s extreme dramatisations of arson cruelty and aggression suggesting why it is that the thinker who has been most convincingly applied to his theatre is the philosopher of punishment and pain Michel Foucault Others explore the exclusiveness of this all male universe and reveal why it remains so offensive and impenetrable to feminism For what they all

make disturbingly clear is Marlowe's violent untamed difference from the clichés and correctness of normative society

Handbook of Medieval Sexuality Vern L. Bullough, James Brundage, 2013-01-11 Like specialists in other fields in humanities and social sciences medievalists have begun to investigate and write about sex and related topics such as courtship concubinage divorce marriage prostitution and child rearing The scholarship in this significant volume asserts that sexual conduct formed a crucial role in the lives thoughts hopes and fears both of individuals and of the institutions that they created in the middle ages The absorbing subject of sexuality in the Middle Ages is examined in 19 original articles written specifically for this Handbook by the major authorities in their scholarly specialties The study of medieval sexuality poses problems for the researcher indices in standard sources rarely refer to sexual topics and standard secondary sources often ignore the material or say little about it Yet a vast amount of research is available and the information is accessible to the student who knows where to look and what to look for This volume is a valuable guide to the material and an indicator of what subjects are likely to yield fresh scholarly rewards

Old Stories, New Readings Miriam López-Rodríguez, Alfonso Ceballos Muñoz, Inmaculada Pineda-Hernández, 2015-02-27 Whether imaginary or based on real events stories are at the core of any culture Regardless of their length their rhetoric strategies or their style humans tell stories to each other to express their innermost fears and needs to establish a point within an argument or to engage their listeners in a fabricated composition Stories can also serve other purposes such as being used for entertainment for education or for the preservation of certain cultural traits Storytelling is at the heart of human interaction and as such can foster a dialogic narrative between the person creating the story and their audience In literature this dialogue has been traditionally associated with narrative in general and with the novel in particular However other genres also make use of storytelling including drama This volume explores the ways in which American theatre from all eras deals with this how stories are told onstage what kinds of stories are recorded in dramatic texts and how previously neglected realities have gained attention through the American playwright's telling or retelling of an event or action The stories unfolded in American drama follow recent narratology theories particularly in the sense that there is a greater preference for those so called small stories over big stories Despite the increase in the production of this type of texts and the growing interest in them in the field of narratology small stories are literary episodes that have been granted less critical attention particularly in the
