Police and protestors clashed in Armenia's capital Yerevan on March 1 2008 bringing to a head the country's latest electoral dispute over the results of a presidential poll in February 2008 On that day in episodes at different city center locations police variously set upon protestors without warning or resistance negotiated withdrew returned to the offensive and finally fought a pitched battle with a small group of protestors At least ten people died eight protestors and two police officers and scores were injured The Armenian authorities response to the March 1 events has been one sided While they have convicted dozens of opposition members sometimes in flawed and politically motivated trials for organizing the demonstration and participating in violent disorder they have not prosecuted any law enforcement official for excessive use of force The authorities have also dismissed as unfounded all allegations of ill treatment and torture in detention Cover p 4 *The Politics of Force* Regina G. Lawrence, 2023 Published over twenty years ago Regina G Lawrence's *The Politics of Force* was the first scholarly book to look at the way in which media coverage of unexpected dramatic events shaped public consciousness about important social and political problems At a time when police brutality was rarely discussed in the news Lawrence examined police use of force in over 500 incidents with an in depth look at the Rodney King case In doing so she showed that when incidents of police brutality became news they offered one of the few real opportunities for marginalized voices and activists to find a public platform and take on the powerful In the intervening years the empirical and theoretical contributions of *The Politics of Force* have become more significant not only because police brutality is back in the news but because the media system itself has changed In this updated edition Lawrence contextualizes and extends these contributions while including a closer look at race and racial justice in incidents of police use of force Reflecting on the context in which the book was written a time when race and policing received limited coverage in the news and in the field of political communication Lawrence considers what has changed in media studies since the year 2000 what things haven't changed and why Moreover Lawrence examines coverage of more recent incidents of police violence and the ways in which the voices of citizen activists are treated in the news today In turn she addresses the important question of how defining political problems through such events might or might not produce more lasting policy change Expanding on her landmark publication Lawrence provides an accessible update on news production dynamics and police use of force for a new generation of scholars students and activists *K.I.*
