

HIV/AIDS 10 messages for children to learn & share

1. Our body is amazing. We have an immune system and this protects us from germs that cause disease.

2. Human Immunodeficiency Virus (HIV) is a virus that weakens our immune system and stops our bodies protecting us well from everyday germs. If HIV is not treated, it can lead to AIDS (Acquired Immune Deficiency Syndrome).

5. Children with HIV need strong support from their family, friends and teachers and encouragement to keep going with their medication to stay healthy.

3. HIV lives in the blood and other body fluids and is invisible to the eye. It can be passed on (1) through sex, (2) from HIV positive mother to their babies during pregnancy, delivery or breastfeeding, (3) in needles or syringes, and (4) through blood transfusions.

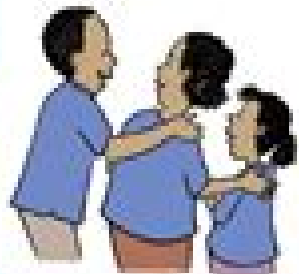

4. Medicines called antiretrovirals (ARV) keep HIV levels low so a person can live a long time. ARV prevent the spread of the virus to others.

= LONG LIFE

6. People with HIV can stay strong, eat food and drink, hold hands, kiss and hug other people. People do not pass on HIV this way.

7. A medicine called PEP (Pre-Exposure Prophylaxis) helps protect people who are at risk of getting HIV.

8. People protect themselves from getting HIV from sex by (1) having sex using condoms (protected sex) and (2) being in a sexual relationship where both partners are HIV negative and do not have sex with others (2) taking Pre-Exposure Prophylaxis (PrEP).

9. To help themselves and others, adults who think they may have HIV can do a simple test at a health clinic or with a self test at home.

10. Pregnant women should be tested for HIV at the antenatal clinic. If positive, they should get treatment to keep them healthy and stop HIV passing to their baby during pregnancy, delivery and breastfeeding.

Birth in the Age of AIDS Cecilia Van

Hollen, 2013-04-03 Birth in the Age of AIDS is a vivid and poignant portrayal of the experiences of HIV positive women in India during pregnancy birth and motherhood at the beginning of the 21st century The government of India together with global health organizations established an important public health initiative to prevent HIV transmission from mother to child While this program which targets poor women attending public maternity hospitals has improved health outcomes for infants it has resulted in sometimes devastatingly negative consequences for poor young mothers because these women are being tested for HIV in far greater numbers than their male spouses and are often blamed for bringing this highly stigmatized disease into the family Based on research conducted by the author in India this book chronicles the experiences of women from the point of their decisions about whether to accept HIV testing through their decisions about whether or not to continue with the birth if they test HIV positive their birthing experiences in hospitals decisions and practices surrounding breast feeding vs bottle feeding and their hopes and fears for the future of their children

Breaking the Silence Ellen Grünkemeier, 2013 South Africa is one of the countries in the world most affected by HIV AIDS and yet until recently the epidemic was barely visible in South African literature Much can be gained from approaching the South African epidemic through creative texts such as novels photographs films cartoons and murals because they produce and circulate meanings of HIV AIDS and its various facets such as its origin transmission routes

and physical manifestations Other aspects explored are the denial of HIV AIDS its stigmatisation discriminatory practices modes of disclosure access to anti retroviral medication as well as the role of alternative treatment Creative texts which are open to different and possibly contradictory readings can serve as a starting point to increase the cultural visibility of the virus and to challenge dominant ideas about the epidemic The cultural constructions of HIV AIDS should be carefully examined because the meanings are pervasive and have very real consequences they play a powerful role both in determining which issues receive attention and in shaping public understanding of the virus The Mother's Magazine ,1919 **God's Masterpiece** Cynthia Braboy,2007-06 **The Cosmopolitan** ,1921 **African American Women and HIV/AIDS** Dorie J. Cheyeka,Alawia Ibrahim Farag,2015-10-13 This volume is the result of academic cooperation between scholars in Norway Sudan Zambia and South Africa linked to a master s program in international education and development It draws upon studies carried out in Sudan Zambia Namibia and South Africa Most of the
