Never Vote For The Incumbent:

The New Prince Dick Morris, 2007-04-01 An update of Machiavelli's *The Prince* written by New York Times bestselling author and political thinker Dick Morris. Niccolò Machiavelli's *The Prince* has been one of the most widely read and quoted books about politics during the past five centuries. But in the democracies of the information age, new ideas are needed to make government prosper through the next century. Now Dick Morris, who contributed significantly to President Clinton's reelection in 1996 and during the previous two decades helped many public officials, Democrats and Republicans alike, gain office, takes a hard look at our times and writes a how-to book for office seekers, special interest groups, and students of politics. In *The New Prince*, Morris advises candidates to adopt idealism as a strategy, not because of misguided altruism, but because it works. He tells politicians, advocacy groups, business leaders, and citizens how to promote their causes and get their jobs done effectively. And he offers insights into the character of the most remarkable political figures of our time and outlines what he believes will be the political agenda for the next century. **Democracy, Accountability, and**

Representation Adam Przeworski, Susan C. Stokes, Bernard Manin, 1999-09-13 6 Party Government and Responsiveness James A. Stimson [Congress and the Politics of Problem Solving](#) E. Scott Adler, John D. Wilkerson, 2013-01-14 How do issues end up on the agenda? Why do lawmakers routinely invest in program oversight and broad policy development? What considerations drive legislative policy change? For many, Congress is an institution consumed by partisan bickering and gridlock. Yet the institution's long history of addressing significant societal problems, even in recent years, seems to contradict this view. *Congress and the Politics of Problem Solving* argues that the willingness of many voters to hold elected officials accountable for societal conditions is central to appreciating why Congress responds to problems despite the many reasons mustered for why it cannot. The authors show that across decades of policy making, problem-solving motivations explain why bipartisanship is a common pattern of congressional behavior and offer the best explanation for legislative issue attention and policy change. **Yardstick Competition among Governments**

Pierre Salmon, 2019-05-10 Measuring government effectiveness is essential to ensuring accountability, as is an informed public that is willing and able to hold elected officials and policy makers accountable. There are various forms of measurement, including against prior experience or compared to some ideal. In *Yardstick Competition among Governments*, Pierre Salmon argues that a more effective and insightful approach is to use common measures across a variety of countries, state or other relevant political and economic districts. This facilitates and enables citizens comparing policy outputs in their own jurisdictions with those of others. An advantage of this approach is that it reduces information asymmetries between citizens and public officials, decreasing the costs of monitoring by the former of the latter along the lines of principal agent theory. These comparisons can have an effect on citizens' support to incumbents and, as a consequence, also on governments' decisions. By increasing transparency, comparisons by common yardsticks can decrease the influence of interest groups and increase the focus on broader concerns, whether economic

growth or others Salmon takes up complicating factors such as federalism and other forms of multi level governance where responsibility can become difficult to disentangle and accountability a challenge Salmon also highlights the importance of publics with heterogeneous preferences including variations in how voters interpret their roles functions or tasks This results in the coexistence within the same electorate of different types of voting behavior not all of them forward looking In turn when incumbents face such heterogeneity they can treat the response to their decisions as an aggregate non strategic relation between comparative performance and expected electoral support Combining theoretical methodological and empirical research Salmon demonstrates how yardstick competition among governments a consequence of the possibility that citizens look across borders is a very significant systemic dimension of governance both at the local and at the national levels

Nathalie Giger,2011-03-07 The Risk of Social Policy uses a comparative perspective to systematically analyse the effects of social policy reforms and welfare state retrenchment on voting choice for the government It re examines twenty elections in OECD countries to show if and how social policy issues drive elections This book contributes to the existing literature by providing an empirical analysis of the electoral implications of social policy Giger asks the basic research question What are the electoral consequences of social policy performance and retrenchment More specifically the following questions are addressed in order to provide a systematic test of the topic Is retrenchment indeed completely unpopular Do people punish the government for bad performance in the field of social policy And what are the political implications of such a punishment reaction does it affect the government composition It shows empirically that the risks of welfare state retrenchment to incumbent governments may be lower than previously thought and presents a theoretical framework for re examining the impact of retrenchment initiatives on election outcome Making an important contribution to studies in political economy and welfare by questioning the assumption that social policy is an inherently controversial policy field in times of elections The Risk of Social Policy will be of interest to scholars and students concerned with the interplay between government and citizens social policy and voting behaviour and the political economy of welfare **Story of the Session of the California Legislature of 1911** Franklin Hichborn,1911 Patronage Driven Democracy Wawan Sobari.,2017-01-01 This work builds on the research for my PhD in the Department of Politics and Public Policy the Flinders University of South Australia Many people and institutions have contributed to complete my study I cannot mention all of them here but I have to mention a few Associate Professor Janet McIntyre the principal supervisor and academic adviser during my research higher degree study She encouraged me to better understanding human value rationality contexts and pragmatism in the issues of power and democracy Dr Craig Matheson has expanded my understanding of rational irrationality in voting that shaped my work at the early stage Prof Dr Yogi Sugito the former Rector of Universitas Brawijaya and Prof Dr Darsono Wisadirana Dean of Faculty of Social and Political Sciences Universitas Brawijaya who strongly encouraged me to study abroad Prof Ifar Subagio PhD and his staffs at the International Office of Universitas Brawijaya had given me administrative and financial supports My colleagues at the Political Science Department Universitas Brawijaya particularly to Dr Sholih Muadi Wawan E Kuswandro M Si and M Faishal Aminuddin M Si who voluntarily assisted me with logistic and data supports during the fieldwork Also to Dwi Budi Santosa PhD for his permit to use local budget APBD data collected in the project of East Java Public Expenditure Analysis **Classified Index of National Labor Relations Board Decisions and Related Court Decisions** ,1980 **House documents** ,1877 Making Government Work Tex Lezar,1994-11-01 The ideas and new vision contained in
