Birnes, Joel Martin, 2011-09-13 In this sequel to *The Haunting of America* national bestselling authors Joel Martin and William J. Birnes bring up to the present the story of how paranormal events influenced and sometimes even drove political events. In unearthing the roots of America's fascination with the ghosts, goblins and demons that possess our imaginations and nightmares, Martin and Birnes show how the paranormal has driven America's political, public and military policies. The authors examine the social history of the United States through the lens of the paranormal and investigate the spiritual events that inspired momentous national decisions: UFOs that frightened the nation's military into launching nuclear bomber squadrons toward the Soviet Union; out of body experiences used to gather sensitive intelligence on other countries; and even spirits summoned to communicate with living politicians. *The Haunting of Twentieth Century America* is a thrilling, evidence-based exploration of the often unexpected influences of the paranormal on science, medicine, law, the government, the military, psychology, theology, death and dying, spirituality and pop culture. In a narrative retelling of American history that begins with the Salem Witch Trials of the seventeenth century, Martin and Birnes unearth the roots of America's fascination with the ghosts, goblins and demons that possess our imaginations and nightmares. The authors examine the political history of the United States through the lens of the paranormal and investigate the spiritual events that inspired public policy, channelers and mediums who have advised presidents. UFOs that frightened the nation's military into launching nuclear bomber squadrons toward the Soviet Union; out of body experiencers deployed to gather sensitive intelligence on other countries; and even spirits summoned to communicate with living politicians. *The Haunting of America* is a thrilling exploration of the often unexpected influences of the paranormal on science, medicine, law, government, the military, psychology, theology, death and dying, spirituality and pop culture.
