## **Penal Systems A Comparative Approach:**

Penal Systems Michael Cavadino, James Dignan, 2005-10-26 Cavadino and Dignan's *Penal Systems A Comparative Approach* looks across national boundaries to see how penal systems differ and why. It is hands down the most comprehensive and up to date book on the subject and should become a staple textbook for use in law and social science courses on comparative penal policy and practice. Michael H Tonry, University of Minnesota. This book is an important addition to the literature on punishment. It is a highly readable and very well researched overview of some of the major differences in punitiveness between neo liberal corporatist and social democratic countries. This is a major contribution to comparative penology by two of the leading authors in this field. Alison Liebling, Director of the Prisons Research Centre, UK. A major and seminal work. David Downes, Professor Emeritus at the London School of Economics. *Penal Systems A Comparative Approach* is a comprehensive and original introduction to the comparative study of punishment. Analysing twelve countries, Cavadino and Dignan offer an integrated and theoretically rigorous approach to comparative penology. They draw upon material provided by a team of eminent penologists to produce an important and highly readable contribution to scholarship in this area. Early chapters introduce the reader to comparative penology, set out the theoretical framework and consider whether there is currently a global penal crisis. Each country is then discussed in turn. Chapters on comparative youth justice and the privatization of prisons follow. Comparisons between countries are drawn within each chapter, giving the reader a synoptic and truly comparative vision of penality in different jurisdictions. **A Guide to Prisons and Penal Policy** Rachel Vipond, 2023-04-25 This concise and accessible guide offers a critical overview of the prison system in England and Wales for students and practitioners. Penal Exceptionalism? Thomas Ugelvik, Jane Dullum, 2011-07-29 In the growing field of comparative criminal justice, the Nordic countries are regularly used as exceptions to the global move towards growing rates of imprisonment and tougher, less welfare oriented crime control policies. Why are the Nordic penal institutions viewed as so different from a non Nordic vantage point? Are Nordic prisons and penal policies in fact positive exceptions to the general rule? If they are, what exactly are the exceptional qualities and why are the Nordic societies lucky enough to have them? Are there important overlooked examples of Nordic bad practice in the penal area? Could there be a specifically Nordic way of doing prison research contributing to the gap between internal and external perspectives? In considering, among others, the above questions, this book explores and discusses the Nordic jurisdictions as contexts for the specific penal policies and practices that may or may not be described as exceptional. Written by leading prison scholars from the Nordic countries as well as selected researchers from the English speaking world, looking in this book will be particularly useful for students of criminology and practitioners across the Nordic countries but also of relevance in a wider geographical context. Contrasts in Punishment John Pratt, Anna Eriksson, 2014-06-03 Why do some modern societies punish their offenders differently to others Why are some more punitive and others more tolerant in their approach to offending and how can these differences be explained Based on extensive historical analysis and fieldwork in the penal systems of England Australia and New Zealand on the one hand and Finland Norway and Sweden on the other this book seeks to answer these questions The book argues that the penal differences that currently exist between these two clusters of societies emanate from their early nineteenth century social arrangements when the Anglophone societies were dominated by exclusionary value systems that contrasted with the more inclusionary values of the Nordic countries The development of their penal programmes over this two hundred year period including the much earlier demise of the death penalty in the Nordic countries and significant differences between the respective prison rates and prison conditions of the two clusters reflects the continuing influence of these values Indeed in the early 21st century these differences have become even more pronounced John Pratt and Anna Eriksson offer a unique contribution to this topic of growing importance comparative research in the history and sociology of punishment This book will be of interest to those studying criminology sociology punishment prison and penal policy as well as professionals working in prisons or in the area of penal policy across the six societies that feature in the book
