The Penguin Companion to Literature Anthony Thorlby, 1969 **A Reference Guide for English Studies** Michael J. Marcuse, 2023-11-15 **The Penguin Companion to Literature** PENGUIN COMPANION., **Penguin Companion to Literature. Vol. 2** A. Thorlby, 1969 **Rewriting the Dream**, 2022-07-18 Costerus is a longstanding book series for state of the art research in the field of English language literature s Besides the more classical research in English American and Irish literature we offer a platform for new directions in literary studies in relation to translation studies minority literatures ecology medical humanities hemispheric studies transatlantic studies network studies and social sciences as well as reflections on studies in English literature as a discipline **From Dreams to Despair** J.K.L. Scott, 2023-12-18 This book is a study of the novels of Boris Vian the artist writer jazz musician and occasional pornographer Primarily known for his classic novel of doomed young love *L'Écume des jours* and the pseudonymously written erotic roman noir *J'irai cracher sur vos tombes* his work displays a bewildering variety of styles genres and narrative voices The purpose of this book is to show that Vian s novels in fact display an overall thematic coherence dramatizing the growth of the individual from childhood to adolescent idealism and ultimate adult disillusion Vian is a highly popular author in France this book seeks to prove that he is also a serious literary artist The wordplay pastiche and parody which fill his texts should not blind the reader to the deeper themes and issues which lie behind them just as the protean character of his style should not be allowed to conceal the single integrated narrative which runs throughout his novels **Classicism** Dominique Secretan, 2017-07-06 First published in 1972 this book provides an overview of Classicism in literature After an informative introduction to the term it explores some of the periods and places in which Classicism has been prominent the Italian Renaissance England before and during the Restoration Renaissance France and eighteenth century Germany In avoiding a rigid definition of Classicism this book demonstrates its multiplicity and changeability across time periods as well as its limits *The Publishers Weekly*, 1921

France in the Age of Louis XIII and Richelieu Victor Lucien Tapié, 1975 When Cardinal Richelieu became Louis XIII s chief minister in 1624 France was in danger of becoming a vassal state By strengthening the power of the state and pressing the whole nation into its service Louis and Richelieu helped to liberate France from its medieval shackles and opened wider horizons for every Frenchman Richelieu is generally regarded as the architect of French unity who perceived better than any of his contemporaries the historical trend toward the modern nation state In this book Victor L Tapié refutes those who have attempted to detach Richelieu from the age in which he lived Richelieu from the age in which he lived Richelieu s greatness he argues resided precisely in his being a man of his time who in all his work never lost sight of realities but sought to merge them with France s needs and aspirations Yet however responsible Richelieu was for the achievements of his ere it would be unjust to discount the contribution of Louis XIII Inspired by a sense of his mission as ruler the King was capable of speaking and acting in ways that compelled obedience and lent authority to the cardinal s domestic and foreign policies The imposing

administrative structure that the two men erected though incomplete and precarious provided the foundation for the glorious years of Louis XIV. This important work by an eminent French historian develops these themes as it traces the reign of Louis XIII from its ominous beginning in 1610 to its profoundly moving close thirty three years later. Although Louis and Richelieu are the main protagonists of his stirring account, Professor Tapie never loses sight of the French people. This wise and compassionate book brings to life the entire society that inspired Alexandre Dumas's classic *The Three Musketeers*. **The European Union and Health Policy** Ed Randall, 2000-11-27. The European Union is becoming increasingly involved in health policy. The Treaties of Maastricht and Amsterdam require the EU to consider health issues in all that it does. Even though the Union has no direct involvement in the delivery of health services, its range of responsibilities including the ramifications for health of the Single European Market make it a key player. This is the first major academic book solely devoted to EU health and health related policy. *Modigliani* Jeffrey Meyers, 2014-08-19. A biographer explores the artist's tragic life and transcendent work in early twentieth century Paris, a vibrant portrait of a deeply unhappy man. Publishers Weekly In 1920 at the age of thirty five Amedeo Modigliani died in poverty and neglect in Paris much like a figure out of *La Bohème*. His life had been as dramatic as his death. An Italian Jew from a bourgeois family, Modi had a weakness for drink, hashish, and the many women including the Russian poet Anna Akhmatova who were drawn to his good looks. His painting thrived on chaos but his bohemian lifestyle combined with a youthful case of tuberculosis eventually took a fatal toll. His friends included Picasso, Utrillo, Soutine, and other important artists of his day yet his own work stood apart, generating little interest while he lived. Today's art world however acknowledges him as a master whose limited oeuvre, sculptures, portraits, and some of the most appealing nudes in the whole of modern art cannot satisfy collectors' demand. With a lively but judicious hand, biographer Jeffrey Meyers sketches Modigliani and the art he produced, illuminating not only this little known figure but also the painters, writers, lovers, and others who inhabited early twentieth century Paris with him. **Mothers and Daughters in Post-revolutionary Mexican Literature** Teresa M. Hurley, 2003. The antithesis of the *madre abnegada* is the *mujer mala*, the whore, a notion the author also questions by revealing the complexity of the mother-daughter relationship through which women may perpetuate their own oppression. Jacket. A Theology for Europe James Barnett, 2005. This volume is about the partnership of the Christian churches in their dialogue with the European Institutions. In a context of plurality, the discourse between religion, society, and political institutions requires a descriptive and reflective theology that is both informed by the received tradition and provisional enough to share the universal quest for truth and justice. Contributors represent many aspects of European culture, history, and recent political development. The book confronts European history, the contribution of civil society in gaining freedom from political oppression, and the experience of the churches in victory and defeat. In treating discourse between and among people of political conviction and religious faith, it adopts an accessible method and addresses politicians, religious leaders, and thinkers in a common framework and language. The Political
