Fried,2004-06-30 Lisbeth S Fried's insightful study investigates the impact of Achaemenid rule on the political power of local priesthods during the 6th-4th centuries B.C.E. Scholars typically assume that as long as tribute was sent to Susa the capital of the Achaemenid Empire subject peoples remained autonomous. Fried's work challenges this assumption. She examines the inscriptions, coins, temple archives and literary texts from Babylon, Egypt, Asia Minor and Judah and concludes that there was no local autonomy. The only people with power in the Empire were Persians and their appointees. This was true for Judah as well. The High Priest had no real power; there was no theocracy. The wars that periodically engulfed the Levant in the fourth century temporarily pulled the ruling governors and satraps away from Judah and during these times the Judean priesthood may have capitalized on the brief absence of Persian officials to mint coins but they achieved their longed-for independence only much later under the Maccabees. Liz added this explanatory note in an e-mail to the Biblical Studies e-mail list on December 2, 2005. There's a confusion in reader's minds about my methodology which I'd like to set straight if I may. The book is a rewrite of my dissertation. My dissertation was entitled *The Rise to Power of the Judean Priesthood: The Impact of the Achaemenid Empire*. I assumed at the outset that because the Achaemenid Empire was non-directive and cared only that tribute would be sent regularly, the priesthood was able to fill the resulting power vacuum and achieve secular power. My goal was to chronicle the process. In addition, I thought to look at Eisenstadt's model which predicted the opposite result: that local elites like priests could not rise to power in an imperial system. Since there was no real data from Judah, I looked at temple-palace relations in Babylon, Egypt and Asia Minor as well as Judah. It was only during my research that I came to the conclusion that local priesthods did not achieve secular power anywhere in the Achaemenid Empire and certainly not in Judah. In fact, their power diminished during those 200 years. I also concluded not that Eisenstadt was correct but only that my data were insufficient to reject his model. However, my data were sufficient to reject the model of an Achaemenid Empire that was non-directive as well as the model of Persian authorization of local norms. Frei and Koch

**Excavations at the Seila Pyramid and Fag el-Gamous Cemetery** Kerry Muhlestein, Bethany Jensen, Krystal V.L. Pierce, 2019-12-02. In *Excavations at the Seila Pyramid and Fag el-Gamous Cemetery*, the excavation team provides crucial information about the Old Kingdom and Graeco-Roman Egypt. While both periods have been heavily studied, Kerry Muhlestein and his contributors provide new archaeological information that will help shape thinking about these eras. The construction and ritual features of the early Fourth Dynasty Seila Pyramid represent innovations that would influence royal funerary cult for hundreds of years. Similarly, as one of the largest excavated cemeteries of Egypt, Fag el-Gamous helps paint a picture of multi-cultural life in the Fayoum of Egypt during the Ptolemaic and Roman periods. Excavations there provide a statistically impactful understanding of funerary customs under the influence of new cultures and religion.

tradition in a variety of settings and media The volume will be foundational for future scholarly studies on the sources presented and for studies in Manichaeism and late antique religions in general      **Securing Eternity** Reg Clark,2019-04-30 The ancient Egyptian tomb evolved rapidly over a period of about 2 500 years from a simple backfilled pit to an enormous stone pyramid with complex security arrangements Much of this development was arguably driven by the ever present threat of tomb robbery which compelled tomb builders to introduce special architectural measures to prevent it However until now most scholarly Egyptological discussions of tomb security have tended to be brief and usually included only as part of a larger work the topic instead being the subject of lurid speculation and fantasy in novels the popular press and cinema In **Securing Eternity** Reg Clark traces in detail the development of the Egyptian royal and private tombs from the Predynastic Period to the early Fourth Dynasty In doing so he demonstrates that many of the familiar architectural elements of the Egyptian tomb that we take for granted today in fact originated from security features to protect the tomb rather than from monumental or religious considerations Richly illustrated with more than 150 photographs and tomb plans this unique study will be of interest to students specialists and general readers alike      The New Moody Atlas of the Bible Barry Beitzel,2009-09-23 The Moody Atlas of Bible Lands integrates the geography of Bible lands with the teachings of the Bible Its one hundred thousand words provide useful commentary for more than ninety detailed maps of Palestine the Mediterranean the Near East the Sinai and Turkey Learn of God s protection and guidance by following Israel s forty year sojourn in the wilderness Appreciate the results of the Great Commission to teach all nations by seeing the scope of Paul s three missionary journeys Dr Barry Beitzel has blended the topographical and historical in multi colored maps that accurately reflect evangelical Christianity Pages of timeless information aid in sermon preparation and in personal Bible study The Moody Atlas of Bible Lands is an invaluable asset to Sunday school teachers and to seminary and Bible college students Text and unique maps make this one of the most useful and accurate atlases available today      The Mystery of the Copper Scroll of Qumran Robert Feather,2003-06-23 Introduces a radical new perspective on the historical foundations of monotheism based on the enigma of the Copper Scroll of the Essenes Confirms the link between ancient Judaism and the pharaoh Akhenaten Decodes the system of measurements encrypted on the Copper Scroll that has confounded scholars for over 50 years leading to the identification of fabulous lost treasures Points to a radical new understanding of the origins of monotheism The famous Dead Sea Scrolls comprise the oldest collection of Biblical documents ever discovered Of the Dead Sea Scrolls none has baffled experts more than the 2 000 year old Copper Scroll discovered in 1952 by a team of Bedouin led by Henri de Contenson of the Ecole Biblique in East Jerusalem Appearing to be a list of buried treasure engraved on copper pieces the Copper Scroll is considered to be the work of a secretive Jewish sect of devout Essenes who lived by the Dead Sea around the time of Jesus No one has been able to explain its meaning or discover any of the 64 locations where the Biblical treasures it lists were buried Robert Feather combining his background as a metallurgist with his journalistic expertise has unraveled the enigma

of the Copper Scroll in a fascinating study that takes the reader on a journey from ancient Mesopotamia through Canaan into Egypt and back to the shores of the Dead Sea His exploration links the scroll to the ancient Egyptian king Akhenaten confirming a long suspected influence of this pharaoh's religious beliefs on those of the Hebrews The author's findings not only reveal the locations of most of the treasures listed on the Copper Scroll but they also point to a radical new understanding of the origins of monotheism the basis of the three great religions of Judaism Islam and Christianity
