A Philosophy of Gardens David E. Cooper, 2006-02-02 Why do gardens matter so much and mean so much to people That is the intriguing question to which David Cooper seeks an answer in this book Given the enthusiasm for gardens in human civilization ancient and modern Eastern and Western it is surprising that the question has been so long neglected by modern philosophy Now at last there is a philosophy of gardens Not only is this a fascinating subject in its own right it also provides a reminder that the subject matter of aesthetics is broader than the fine arts that ethics is not just about moral issues but about the good life and that environmental philosophy should not focus only on wilderness to the exclusion of the humanly shaped environment David Cooper identifies garden appreciation as a special human phenomenon distinct from both from the appreciation of art and the appreciation of nature He explores the importance of various garden practices and shows how not only gardening itself but activities to which the garden especially lends itself including social and meditative activities contribute to the good life And he distinguishes the many kinds of meanings that gardens may have from representation of nature to emotional expression from historical significance to symbolization of a spiritual relationship to the world Building on the familiar observation that among human beings creations the garden is peculiarly dependent on the co operation of nature Cooper argues that the garden matters as an epiphany of an intimate co dependence between human creative activity in the world and the mystery that allows there to be a world for them at all A Philosophy of Gardens will open up this subject to students and scholars of aesthetics ethics and cultural and environmental studies and to anyone with a reflective interest in things horticultural

The Garden, 1997 *The Terrestrial Biosphere* S.T. Trudgill, 2014-09-25 *Terrestrial Biosphere* tries to pose the questions which underlie the many sided debate of how to respond to and influence change How should we view nature What do we do for the best how should we act what are we trying to achieve and what should we be guided by In doing so the book introduces and attempts to analyse not only scientific aspects of the debate but also cultural attitudes and values the notions of ecosystem stability are now challenged and it is also clear that ecosystems are renewable but not repeatable It finds that prescriptive solutions based on current constructs may not be adequate Feeling that analysis should lead to advocacy the author believes that if we can't improve predictability we have to increase adaptability which means that ecological and social capacity building should be advocated This is seen in terms of concepts institutions attitudes and values which allow for a plurality of meanings and which can cope with surprise and unforeseen change and which also facilitates responses to change

Writing Sri Lanka Minoli Salgado, 2007-01-24 Focusing on ways in which cultural nationalism has influenced both the production and critical reception of texts Salgado presents a detailed analysis of eight leading Sri Lankan writers Michael Ondaatje Romesh Gunasekera Shyam Selvadurai A Sivanandan Jean Arasanayagam Carl Muller James Goonewardene and Punyakante Wijenaike to rigorously challenge the theoretical cultural and political assumptions that pit insider against outsider resident against migrant and the authentic against the alien By interrogating the discourses of territoriality and boundary marking that have come into prominence since the start of the civil war Salgado works to define a more nuanced and sensitive critical framework that actively reclaims marginalized voices and draws upon recent studies in migration and the diaspora to reconfigure the Sri Lankan critical terrain

Hedge Britannia Hugh Barker, 2012-05-10 This is the story of how British hedgerows contribute to our national identity and our wildlife Over the centuries we have proved ourselves to be a nation of hedge growers marking boundaries or trimming them into fantastical creations From formal garden features to emphatically rustic barriers Hugh explores our hedges in all their

diversity Hedge Britannia offers a witty insight into the history of hedges and the way they relate to our culture as well as our landscape Hugh travels the breadth of Britain meeting fellow enthusiasts who range from horticultural experts to the Brixton man who lovingly cultivated a whale shaped hedge and ran into trouble with the local council As well as two full colour plate sections there are case studies about hedges of particular note like the towering Meikleour beech hedge the castellated hedge and spectacular topiary at Levens Hall and the bamboozling hedge maze at Chatsworth where Hugh got predictably and happily lost Both pithy and informative this is The Cloudspotter's Guide meets Flora Britannica *Topographies of Caribbean Writing, Race, and the British Countryside* Joanna Johnson, 2019-01-04 How do Caribbean writers see the British countryside Do they feel included ignored marginalised In *Topographies of Caribbean Writing Race and the British Countryside* Joanna Johnson shows how writers like Derek Walcott V S Naipaul Jean Rhys Grace Nichols Andrea Levy and Caryl Phillips have very different and unexpected responses to this rural space Johnson demonstrates how Caribbean writing shows greater complexity and wider significance than accounts and understandings of the British countryside have traditionally admitted at the same time close examination of these works illustrates that complexity and ambiguity remain an essential part of these authors relationships with the British countryside of their colonial or postcolonial imaginations This study examines accepted norms and raises questions about urgent issues of belonging Britishness and Commonwealth identity

The Palgrave Encyclopedia of Victorian Women's Writing Lesa Scholl, Emily Morris, 2022-12-15 Since the late twentieth century there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature However with the increased understanding of the importance of interdisciplinarity in the twenty first century there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement *Men Writing the Feminine* Thais E. Ethics of Alaska Travel Writing since 1959 Benjamin Ferguson, 2025-08-28 This book digs into environmental themes in Alaska travel writing since U S statehood in 1959 drawing on the works of six authors including

Barry Lopez Jonathan Raban Tom Lowenstein and others Each work though disparate in style advocates for the empowerment of the Alaska Native people by connecting not only with diverse perspectives but with the lived realities in the geographical spaces that have formed them In analyzing how these authors have succeeded in depicting the realities of alterities and where they have perhaps fallen short by more recent standards we may begin to carve out a system of ethics This is important as fresh waves of travel writers search for their own place in the environmental conversations surrounding the ever evolving 21st century Arctic and its place on the front lines of a changing climate

Gothic writing 1750-1820 Robert Miles, 2017-06-01 Now available again in paperback this provocative study by Robert Miles uses the tools of modern literary theory and criticism to analyse this very distinctive body of texts Miles introduces the reader to contexts of Gothic in the eighteenth century including its historical development and its placement within the period s concerns with discourse and gender By using texts ranging from sensational novels such as *The Monk* and *The Mysteries of Udolpho* poetic variations on Gothic by Coleridge Shelley and Keats to satirical works on the theme by Jane Austen Miles presents an intriguing overview of Gothic literature By drawing extensively on the ideas of Michel Foucault to establish a genealogy he brings Gothic writing in from the margins of popular fiction resituating it at the centre of debate about Romanticism
