Penguin Reading Lab Longman, 1999-05-22 *Lab Lit* Ace G. Pilkington, Olga Pilkington, 2019-10-10 *Lab Lit Exploring Literary and Cultural Representations of Science* is the first formal systematic scholarly investigation of laboratory literature from the perspective of literary studies *Lab Lit* as a new genre has received a lot of public and media attention due to its compelling presentation of science practitioners and the relatable explanations of the scientific advancements that have shaped modern society and will continue to do so However the genre has been largely overlooked by scholars This book is an introduction to the world of science for those who up till now have been immersed primarily in the world of literature The anthology contains essays that discuss *Lab Lit* novels using a variety of analytical approaches It also features theoretical essays that explore the social and literary backgrounds of *Lab Lit* and help the reader position the critical pieces within appropriate contexts **The Palestine Laboratory** Antony Loewenstein, 2024-10-01 How Israel makes a killing from the occupation of Palestine WINNER OF THE 2023 WALKLEY NON FICTION JOURNALISM PRIZE Finalist for the 2023 Moore Prize for Human Rights Writing Israel's military industrial complex uses the occupied Palestinian territories as a testing ground for weaponry and surveillance technology that they then export around the world to despots and democracies For more than 50 years occupation of the West Bank and Gaza has given the Israeli state invaluable experience in controlling an enemy population the Palestinians It's here that they have perfected the architecture of control Best selling journalist Antony Loewenstein author of *Disaster Capitalism* uncovers this largely hidden world in a global investigation with secret documents revealing interviews and on the ground reporting This book shows in depth for the first time how Palestine has become the perfect laboratory for the Israeli military techno complex surveillance home demolitions indefinite incarceration and brutality to the hi tech tools that drive the Start up Nation From the Pegasus software that hacked Jeff Bezos and Jamal Khashoggi's phones the weapons sold to the Myanmar army that has murdered thousands of Rohingyas and drones used by the European Union to monitor refugees in the Mediterranean who are left to drown Israel has become a global leader in spying technology and defence hardware that fuels the globe's most brutal conflicts As ethno nationalism grows in the 21st century Israel has built the ultimate model *The Global Lab* Adam Fejerskov, 2022-06-16 *The Global Lab* tells the story of a group of organizations and corporations using low income countries as a laboratory It reveals experiments with untested technologies biometric humanitarian solutions and radical methodologies for social change The book maps out the political institutional and ethical coordinates of emergent transnational practices of experimentation asking where and how this movement works while unfolding the human philosophical and political consequences of its ideas and interventions The book takes the reader through Silicon Valley Africa and Asia to understand the tangible and transformative implications of contemporary human experimentation It follows a set of main protagonists from the Bill and Melinda Gates Foundation to experimental economists known as the randomistas to humanitarian organizations and pharmaceutical companies These actors form a movement

inspired by the logic of Silicon Valley about the need for fast paced radical change and societal disruption technological innovation as progress and the privatization and commercialization of the human mind and body Ultimately the book examines the inequality of experimentation that is found in the erection of walls between us and them and the imagined universal and often unquestioned value of scientific and technological progress **London's Arts Labs and the 60s**

Avant-Garde David Curtis,2020-11-24 This is the story of two short lived artist run spaces that are associated with some of the most innovative developments in the arts in Britain in the late 1960s The Drury Lane Arts Lab 1967 69 was home to the first UK screenings of Andy Warhol s twin screen 3 hour film Chelsea Girls challenging exhibitions John and Yoko John Latham Takis Roelof Louw poetry and music first UK performance of Erik Satie s 24 hour Vexations and fringe theatre People Show Freehold Jane Arden s Vagina Rex and the Gas Oven Will Spoor Mime Theatre The Robert Street New Arts Lab 1969 71 housed Britain s first video workshop TVX the London Filmmakers Co op s first workshop and a 5 days a week cinema devoted to showing new work by moving image artists David Larcher Malcolm Le Grice Sally Potter Carolee Schneemann Peter Gidal It staged J G Ballard s infamous Crashed Cars exhibition and John Dianne Lifton s pioneering computer aided dance mime performances The impact of London s Labs led to an explosion of new artist led spaces across Britain This book relates the struggles of FACOP Friends of the Arts Council Operative to make the case for these new kinds of space and these new art forms and the Arts Council s hesitant response in the context of a popular press already hostile to youth culture experimental art and the underground With a Foreword by Andrew Wilson Curator Modern Contemporary British Art and Archives Tate Gallery **Visualization in the Age of Computerization** Annamaria Carusi,Aud Sissel Hoel,Timothy Webmoor,Steve Woolgar,2014-08-21

Digitalization and computerization are now pervasive in science This has deep consequences for our understanding of scientific knowledge and of the scientific process and challenges longstanding assumptions and traditional frameworks of thinking of scientific knowledge Digital media and computational processes challenge our conception of the way in which perception and cognition work in science of the objectivity of science and the nature of scientific objects They bring about new relationships between science art and other visual media and new ways of practicing science and organizing scientific work especially as new visual media are being adopted by science studies scholars in their own practice This volume reflects on how scientists use images in the computerization age and how digital technologies are affecting the study of science The Kitchen as Laboratory César Vega,Job Ubbink,Erik van der

Linden,2012-01-31 Provides good perspective on the scientific approach to cooking while reflecting the interests and passions of each essay s author Peter Barham author of The Science of Cooking In this global collaboration of essays chefs and scientists advance culinary knowledge by testing hypotheses rooted in the physical and chemical properties of food Using traditional and cutting edge tools ingredients and techniques these pioneers create and sometimes revamp dishes that respond to specific desires and serve up an original encounter with gastronomic practice From the seemingly mundane to the

food fantastic from grilled cheese sandwiches pizzas and soft boiled eggs to Turkish ice cream sugar glasses and jellified beads the essays in *The Kitchen as Laboratory* cover a range of creations and their history and culture This collection will delight experts and amateurs alike especially as restaurants rely more on science based cooking and recreational cooks increasingly explore the physics and chemistry behind their art Contributors end each essay with their personal thoughts on food cooking and science offering rare insight into a professional's passion for playing with food Where else can one have fun pondering the acoustics of crunchy foods or the texture of an ice cream that stretches like a rubber band Robert Wolke author of *What Einstein Told His Cook* *Kitchen Science Explained* Not only an in depth study of many areas of food science but also an entertaining read For someone like me who relishes understanding more about cooking from the inside out it's heartening to see this area of literature expanded Chef Wylie Dufresne wd 50 Laboratory Lifestyles Sandra Kaji-O'Grady, Chris L.
