The Macregol Gospels or The Rushworth Gospels Kenichi Tamoto,2013-05-29 This work is composed of two parts The first or introductory part contains a palaeographical discussion about Bodleian Library MS Auctarium D 2 19 that is to say the MacRegol Gospels or the Rushworth Gospels edited by Kenichi Tamoto and which forms the second and main part of this book The provenience of the MS the Latin text the use of the MS and the Old English gloss are discussed in detail in the introductory part The chief aim that the author set himself is firstly to survey preceding printed versions of the MS such as Stevenson Waring 1856 65 and W W Skeat 1871 87 and secondly to publish the complete edition of the MS with the whole Latin text interlineally glossed in Old English This work will stimulate further research into the MS in particular the comparative study of Old English glosses such as those of the Lindisfarne Gospels **Introduction to Scholarly Editing** George Thomas Tanselle,1998 **Literacy and the Politics of Writing** Albertine Gaur,2000 With the growth of modern information technology it is time to re examine the concept and purpose of writing and question the long cherished idea that the alphabet stands at the apex of a hierarchy towards which all proper forms of writing must necessarily progress This beautifully illustrated book shows that the primary purpose of writing is the ability to store and transmit information information essential to the social economical and political survival of a particular group Writing in whatever form allows the individual the interact with the group to acquire an amount of knowledge that far outweighs the scope of memory oral traditions and to be free to manipulate this knowledge and arrive at new conclusion Providing a quick and easy entrance to information related to the subject the volume contains a network of references leading the reader towards further information and most entries are listed with bibliographical notes *The State of Freedom* Patrick Joyce,2013-04-04 What is the state The State of Freedom offers an important new take on this classic question by exploring what exactly the state did and how it worked Patrick Joyce asks us to re examine the ordinary things of the British state from dusty government files and post offices to well thumbed primers in ancient Greek and Latin and the classrooms and dormitories of public schools and Oxbridge colleges This is also a history of the who and the where of the state of the people who ran the state the government offices they sat in and the college halls they dined in Patrick Joyce argues that only by considering these things people and places can we really understand the nature of the modern state This is both a pioneering new approach to political history in which social and material factors are centre stage and a highly original history of modern Britain
