Pension Systems Birgit Mattil,2006-01-11 Recently policy debate and comparative research on old age pensions have focused on the financial sustainability of pension systems in the face of demographic change This study however also takes into account distributional effects involved in pension system structures Theoretical institutional and empirical analyses are combined to form a comprehensive framework for evaluating financial sustainability and distributional effects of the pension systems implemented in Germany and the United Kingdom Along with projections of demographic trends and future public pension expenditure the empirical results on old age incomes and their distribution allow for identifying a number of reform options for each pension system to improve their financial or distributional results

Handbook of the Economics of Population Aging John Piggott,Alan Woodland,2016-12-01 Handbook of the Economics of Population Aging Volume 1B provides the economic literature on aging and associated subjects presenting comprehensive portraits of both social and theoretical issues As the second of two volumes in this series on the economics of population aging it continues the discussion delving deeper into topics such as the labor market and human resource issues gerontology history and the sociological and political ramifications of this fascinating topic whose inception dates back to the late 1970 s This volume includes literature that has appeared in general economics journals in various field journals in economics especially but not exclusively those covering labor market and human resource issues information from interdisciplinary social science and life science journals and data presented in papers by economists published in journals associated with gerontology history sociology political science and demography amongst others Presents comprehensive portraits of social and theoretical issues that can be used by both policymakers and scholars Readers receive diverse

perspectives on subjects that can be closely associated with national and regional concerns Chapters offer comprehensive critical reviews and expositions on the essential aspects of the economics of population aging *Population Aging and Pension Systems* F. Desmond McCarthy, Kangbin Zheng, 1996

Financial Market Trends Ageing and Pension System Reform: Implications for Financial Markets and Economic Policies OECD, 2005-11-16 This OECD 2005 report prepared at the request of Deputies of the G10 reviews economic consequences of ageing populations for financial markets and recommends that governments help facilitate development of financial instruments to support retirement savings and pensions

The Development of Security and Whole Care System for the Aged in China Yanzhong Wang, 2017-10-25 This book examines the process of population aging in China and its unique features considers the social progress implied in China becoming a society with an aging population and assesses the tremendous risks and challenges involved Based on the development of pension security systems around the world the book studies the status quo and future requirements of the Chinese pension security system from the perspectives of capital service and spirit and puts forwards a three pillar pension security system that is in conformity with China's current situation and reflects the developmental trend that in future social security will likely transform from material security into comprehensive security In addition the book analyzes the Chinese pension security system While integrating international perspectives its main focus is on statistical analysis combining theory with practice and qualitative with quantitative analysis As such the book not only offers a window for the world on the status and evolution of China's pension security system but also an opportunity for international academic dialogues

The Taxation of Pensions Robert Holzmann, John Piggott, 2018-08-07 Theoretical and policy perspectives on the taxation of pension viewed in an international context Policy makers and academic researchers have been preoccupied in recent decades with the design of pension schemes and effective pension system reform Relatively little attention has been given to the taxation of pensions and more broadly the provision of retirement income In this book experts from a range of countries explore the interconnection Their contributions are especially timely given recent demographic and political developments including population aging that lengthens the time between contribution payment and benefit receipt the mobility of capital and labor brought about by globalization and the complexity of pension taxation within and between countries In shedding light on these issues the chapters document the various forms of taxation of pension systems use economic theory to explain both qualitative and quantitative observations and consider whether the observed interaction of taxation and pensions is efficient Theoretical overviews are followed by rigorous analyses of pension taxation in specific countries including Denmark Sweden Portugal Australia Germany the United Kingdom and the United States Contributors Torben M Andersen Spencer Bastani Hazel Bateman S ren Blomquist Axel B rsch Supan Jorge Miguel Bravo Gary Burtless Rafal Chomik Helmuth Cremer Carl Emmerson Csaba Feher Bernd Genser Robert Holzmann Paul Johnson Alain Jousten Christian Keuschnigg Eric Koepcke George Kudrna Jukka Lassila Luca Micheletto Pierre Pestieau John Piggott Christopher Quinn Tarmo Valkonen Alan

Woodland **Social Security Programs and Retirement around the World** Jonathan Gruber, David A. Wise, 2009-02-15

Social Security Programs and Retirement around the World represents the second stage of an ongoing research project studying the relationship between social security and labor. In the first volume Jonathan Gruber and David A. Wise revealed enormous disincentives to continued work at older ages in developed countries. Provisions of many social security programs typically encourage retirement by reducing pay for work, inducing older employees to leave the labor force early and magnifying the financial burden caused by an aging population. At a certain age there is simply no financial benefit to continuing to work. In this volume the authors turn to a country-by-country analysis of retirement behavior based on micro data. The result of research compiled by teams in twelve countries, the volume shows an almost uniform correlation between levels of social security incentives and retirement behavior in each country. The estimates also show that the effect is strikingly uniform in countries with very different cultural histories, labor market institutions, and other social characteristics.

Federal Program Evaluations, 1973. Contains an inventory of evaluation reports produced by and for selected Federal agencies, including GAO evaluation reports that relate to the programs of those agencies. *Implementing an Inclusive and Equitable Pension Reform* Cheolsu Kim, 2012. India is ageing. One response of Indian policy makers has been introduction of the New Pension Scheme (NPS), a defined contribution pension scheme which is mandatory for civil servants and voluntary for the rest of the population. Given the size of the target population, even if take-up is modest, NPS savings may soon provide huge amounts of capital to India's economy. However, challenges are abound. What governance structure will best achieve the ultimate policy goal of serving the needs of savers? What business processes and information technology design will serve members best? How effectively will the NPS attack the problem of old-age poverty? In this book, a multi-disciplinary international team comprising of economists, lawyers, pension management experts, and capital market experts explore these and other questions. The book proposes significant legal, regulatory, and governance reforms for the NPS and other existing pension schemes as well. It finds that current NPS business practices cannot keep pace with potential growth of the system and makes suggestions on how to take better advantage of information technology. Based on review of experience elsewhere and state-of-the-art economic-demographic modelling, it warns that the NPS in its current form does not address the retirement income needs of the lifelong very poor, suggesting that it is only one in a range of responses needed to cope with the challenges of population ageing in India. Pension Security in the 21st Century Gordon L. Clark, Noel

Whiteside, 2003-11-20. Future pension provision is highly controversial; it juxtaposes the challenges of old-age security with the exigencies of global finance. Clearly, demography, finance, and public accountability are crucial to current political debate. But there are other important issues. The problems of paying for the retirement of the baby boom generation has exposed profound differences in the advanced economies in terms of their financial institutions and infrastructure. Pension security has been re-conceptualised in part as an issue of global finance and international comparative advantage, bringing with it a re-

definition of risk and pension security This book examines how major continental European and Anglo American countries are dealing with these pressures to what extent these responses are beginning to redraw the boundaries between public and private responsibility for pension security and what the implications of public private partnerships are for the financial organisation and infrastructure of European and global financial markets and the nation based welfare state The contributors all involved in policy development in their respective countries assess the comparative strengths and weaknesses of recent pension initiatives in the light of continuing fiscal constraints and current market instabilities Using a tight comparative framework the book questions assumed divisions between states and markets as new divisions between public and private spheres of pension responsibility require new regulatory machinery to guarantee future security This book provides a vital reference point in understanding pension security in the 21st century for academics and postgraduates in the social sciences economics and finance geography politics and social policy policy makers in OECD countries and industry professionals

Ibss: Economics: 2001 Compiled by the British Library of Political and Economic Science, 2002-12 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences *Federal Evaluations* , Contains an inventory of evaluation reports produced by and for selected Federal agencies including GAO evaluation reports that relate to the programs of those agencies *Social Security Bulletin* , 1996 *Global population aging - health care, social and economic consequences, volume II* Mihajlo Jakovljevic, Seiritsu Ogura, 2023-05-11 **Pensions at a Glance 2015 OECD and G20 indicators** OECD, 2015-12-01 The 10 year anniversary edition of Pensions at a Glance highlights the pension reforms undertaken by OECD and G20 countries over the last two years Two special chapters provide deeper analysis of first tier pension schemes and of the impact of short or interrupted careers due to late entry *How Unified Is the European Union?* Sverker Gustavsson, Lars Oxelheim, Lars Pehrson, 2009-06-12 World politics has been surprised recently by two sudden developments The first took place around the beginning of 2007 when the question of global warming rose abruptly to the top of the agenda after having been a factor in the background The second occurred in the autumn of 2008 when the rules for a global economy started inspiring great anxiety after having been regarded as a source of stability These two shifts took place independently but their consequences will require common management The regulatory structure underlying the world's economic legal and political systems needs to be revised This presents the EU with the greatest challenge it has ever faced The point is that this global challenge comes on top of the problems already posed by markets welfare states security energy and movements of population The additional challenge is furthermore of such a kind that a deeper discussion of the very structure of the Union is difficult to avoid **Nonfinancial Defined Contribution Pension Schemes in a Changing Pension World** Robert Holzmann, Edward Palmer, David Robalino, 2012-11-01 Nonfinancial Defined Contribution NDC schemes are now in their teens The new pension concept was born in the early 1990s implemented from the mid 1990s in

Italy Latvia Poland and Sweden legislated most recently in Norway and Egypt and serves as inspiration for other reform countries This innovative unfunded individual account scheme created high hopes at a time when the world seemed to have been locked into a stalemate between piecemeal reforms of ailing traditional defined benefit schemes and introducing pre funded financial account schemes The experiences and conceptual issues of NDC in its childhood were reviewed in a prior anthology Holzmann and Palmer 2006 This new anthology published in 2 volumes serves to review its adolescence and with the aim of contributing to a successful adulthood Volume 1 on Progress Lessons Implementation includes a detailed analysis of the experience and the key policy lessons in the old and new pilot countries and the implementation of NDCs elements in other reform countries This volume 2 on Gender Politics Financial Stability includes deeper and new analyses of these issues that found little or no attention in the 2006 publication The gender perspective includes 5 chapters with perhaps the most complete discussion on gender and pension issues available to date The financial stability perspective addresses in 6 chapters critical micro and macroeconomic aspects such as the balancing mechanism the use of a reserve fund the handling of legacy costs and technicalities related to the management of the longevity risk when designing annuities While the 2 volumes address many issues it also opens a number of new questions for which good answers are not yet readily available
