Christianity tended to focus almost exclusively on what have come to be known as African Independent Churches. Very few anthropological studies have looked at similar processes within mission churches. Through an ethnographic study of localizing processes in a Charismatic movement in Cameroon and Paris, the book critically explores the dialectics between Pentecostalization and Africanization within contemporary African Catholicism. It appears that both processes pursue, although for different purposes, the missionary policy of dismantling local cultures and religious practices and discourses of Africanization, dissect them in search of authentic African values. Charismatic ritual, on the other hand, features the dramatization of the defeat of local deities and spirits by Christianity.

The Globalisation of Charismatic Christianity Simon Coleman, 2000-10-02. This 2000 book analyses the revival of charismatic Protestant Christianity as an example of globalization. Simon Coleman shows that along with many social movements, these religious conservatives are negotiating their own interpretations of global and postmodern processes. They are constructing an evangelical arena of action and meaning within the liminal chaotic space of the global. The book examines globalization not only as a social process but also as an embodied practice involving forms of language and ritualized movement. Charismatic Christianity is presented through its material culture, art, architecture, and consumer products as well as its rhetoric and theology. The book provides an account of the incorporation of electronic media such as television videos and the Internet into Christian worship. Issues relating to the conduct of fieldwork in contexts of globalization are raised in an account which is also a major ethnography of a Faith ministry.

The Virgin of El Barrio Kristy Nabhan-Warren, 2005-05-01. In 1998, a Mexican American woman named Estela Ruiz began seeing visions of the Virgin Mary in south Phoenix. The apparitions and messages spurred the creation of Mary's Ministries, a Catholic evangelizing group, and its sister organization ESPIRITU, which focuses on community-based initiatives and social justice for Latinos. Based on ten years of participant observation and in-depth interviews, *The Virgin of El Barrio* traces the spiritual transformation of Ruiz, the development of the community that has sprung up around her, and the international expansion of their message. Their organizations blend popular and official Catholicism as well as evangelical Protestant styles of praise and worship, shedding light on Catholic responses to the tensions between popular and official piety and the needs of Mexican Americans.

Developments in Sociology Robert Burgess, Anne Murcott, 2014-06-11. Appropriate as a supplemental text to courses in Sociology, providing an overview grounded in research. *Developments in Sociology* focuses on the major areas of theoretical, methodological, and substantive developments in sociology. Each author takes a field of study in which they are an acknowledged expert and highlights the way in which the subject has developed over the last fifty years.

The Ultimate Evidence Larry Vern Newman, 2009-01-01 It is quite an assertion to claim that one is filled with the Spirit of God What does a person offer as proof that this is actually true Pentecostals at the turn of the twentieth century read the Bible debated the issue and then proposed an evidence they thought the scriptures indicated was the primary verification of Spirit baptism It was determined that the evidence to prove one had been baptized with the Holy Spirit was that the person had spoken in an unknown language as prompted by the Holy Spirit The primary evidence of Spirit baptism it was concluded was the expression of a charism It was charismatic In *The Ultimate Evidence* Larry Newman argues that the initial evidence doctrine as it stands is inadequate and needs to be revisited and adjusted Without discrediting or devaluing speaking in tongues Newman points the reader to the ultimate evidence of Spirit baptism the more excellent way Gathering from historical cultural and biblical sources Dr Newman argues that the biblical evidential paradigm is ethical and issues forth from the agape of the Cross It is the ethical dimension of the Christian life that is primary In 1 Cor 13 1 Paul wrote If I speak in the tongues of men and of angels but have not love I am only a resounding gong or a clanging cymbal

Cultural Wars in American Politics Rhys H. Williams, That contemporary American politics is divided into two differing ideological moral and lifestyle groups a divide so severe as to constitute a cultural war is a widely held popular belief The most systematic academic version of the culture wars claim has appeared in two influential books by sociologist James Davison Hunter the earlier dating from 1991 Hunter s formulation of the myth serves the contributors to this volume as a point of departure They add more measured analyses to the rhetorical overstatement in Hunter s claim assessing its accuracy with a broad range of evidence based on individual attitudes subcultural values political party dynamics and culture wide ideological currents On every level of analysis the contributors find that Hunter s bipolar axis obscures the variety of ways in which culture actually functions in current politics That variety receives the nuanced treatment it deserves in this collection Examining the full range of sources of cultural politics and offering competing models for understanding the current ideological landscape this volume will be useful in a variety of classroom and seminar settings from political sociology and social movements to contemporary American culture and the sociology of religion

Main Street Mystics Margaret M. Poloma, 2003 On January

20 1994 the worshippers at the Toronto Airport Vineyard Church began to feel the Holy Spirit move them They began to laugh uncontrollably collapse to the floor stagger as if drunk But what was truly startling in this occurrence now commonly known as the Toronto Blessing is that these manifestations keep appearing at the Toronto church and have sparked a worldwide charismatic revival Visitors from around the world have come and started revivals in their home churches upon return In Main Street Mystics Margaret Poloma explains what is happening with this contemporary charismatic revival without explaining it away From her unique position as both a scholar and a pilgrim Poloma offers an intimate account of the movement while always attempting to understand it through the lenses of social science She looks at Pentecostalism as a form of mysticism but a mysticism that engages Pentecostals and charismatics in the everyday world With its broad overview and up close portraits Main Street Mystics is essential for anyone wanting to understand the ever renewing movement of Pentecostalism

Foundational Social Ritual Practices of Parish Life Michael J. McCallion, 2022-01-12 This book highlights for professional parish ministers the vital importance of the foundational or pre communal aspects that make a parish community healthy and strong It provides not a sociology of the parish but a sociology of the first ingredients that go into making a parish community It is not therefore a book explaining or analyzing the organizational dimensions or social structures that make up a parish such as the roles and statuses needed for a parish to function Rather the book examines the formation of relationships in the first place within the context of a parish and how such relationships might be maintained over time Upward social mobility is a deterrent to forming such relationships while social ritual practices such as eating together are a means for establishing and sustaining parish relationships The book is theoretically grounded in the work of Emile Durkheim who discusses in minute detail the ingredients of social solidarity and community life in his classic work The Elementary Forms of Religious Life

Lived Religion Meredith B McGuire, 2008-08-22 How can we grasp the complex religious lives of individuals such as Peter an ordained Protestant minister who has little attachment to any church but centers his highly committed religious practice on peace and justice activism Or Hannah a devout Jew whose rich spiritual life revolves around her women s spirituality group and the daily practice of meditative dance Or Laura who identifies as Catholic but rarely attends Mass and engages daily in Buddhist style meditation at her home altar arranged with symbols of Mexican American popular religion Diverse religious practices such as these have long baffled scholars whose research often starts with the assumption that individuals commit or refuse to commit to an entire institutionally framed package of beliefs and practices Meredith McGuire points the way forward toward a new way of understanding religion She argues that scholars must study religion not as it is defined by religious organizations but as it is actually lived in people s everyday lives Drawing on her own extensive fieldwork as well as recent work by others McGuire explores the many seemingly mundane ways that individuals practice their religions and develop their spiritual lives By examining the many eclectic and creative practices of body mind emotion and spirit that have been invisible to researchers she offers a fuller and more nuanced

understanding of contemporary religion *In gods we trust* Thomas Robbins, **Latina Realities** Oliva Espin, 2018-02-20 This book emphasizes psychology's role as a means of human welfare focusing on the complexities of the psychological development of immigrant women Latinas and other women of color and issues relevant to providing psychological services to them **Fundamentalisms Observed** American Academy of Arts and Sciences, 1994-07 The Fundamentalism Project vol 1 **Singing the Congregation** Monique M. Ingalls, 2018-11-29 Contemporary worship music shapes the way evangelical Christians understand worship itself Author Monique M Ingalls argues that participatory worship music performances have brought into being new religious social constellations or modes of congregating Through exploration of five of these modes concert conference church public and networked congregations Singing the Congregation reinvigorates the analytic categories of congregation and congregational music Drawing from theoretical models in ethnomusicology and congregational studies Singing the Congregation reconceives the congregation as a fluid contingent social constellation that is actively performed into being through communal practice in this case the musically structured participatory activity known as worship Congregational music making is thereby recast as a practice capable of weaving together a religious community both inside and outside local institutional churches Congregational music making is not only a means of expressing local concerns and constituting the local religious community it is also a powerful way to identify with far flung individuals institutions and networks that comprise this global religious community The interactions among the congregations reveal widespread conflicts over religious authority carrying far ranging implications for how evangelicals position themselves relative to other groups in North America and beyond **Body, Meaning, Healing** T. Csordas, 2002-09-05 Exactly where is the common ground between religion and medicine in phenomena described as religious healing In what sense is the human body a cultural phenomenon and not merely a biological entity Drawing on over twenty years of research on topics ranging from Navajo and Catholic Charismatic ritual healing to the cultural and religious implications of virtual reality in biomedical technology Body Meaning Healing sensitively examines these questions about human experience and the meaning of being human In recognizing the way that the meaningfulness of our existence as bodily beings is sometimes created in the encounter between suffering and the sacred these penetrating ethnographic studies elaborate an experimental understanding of the therapeutic process and trace the outlines of a cultural phenomenology grounded in embodiment

Work, Family and Religion in Contemporary Society Nancy Tatom Ammerman, Wade Clark Roof, 2014-02-04 Until recently religious institutions have been organized to suit the traditional American family where the wife stayed at home caring for children Today churches and synagogues are beginning to adapt to the reality of the American family dual career marriages high levels of divorce interfaith marriages partnerships that may not be marriages Religious organizations must serve families that don't fall into the Ozzie and Harriet mold The first group of papers in this edited volume documents changing trends in the connection between religion work and the family In the second part of the book we see how changing

families and flexible congregations are experimenting with new forms of religious life *Research in the Social Scientific Study of Religion, Volume 6* ,2021-11-15 The purpose of this book is to provide an outlet for original research articles examining the role and value of religious and spiritual constructs across the social sciences The aim of the series is to include an international and interfaith voice to this research dialogue An effort is made to be interdisciplinary and academically eclectic The articles in each volume represent a wide array of perspectives and research projects Most of the articles report the findings of quantitative or qualitative investigations but some deal with methodology theory or applications of social science studies in the field of religion and some are applied demonstrating the relevance of the social sciences to religious organizations and their clergy The value of the volume is that it gives to researchers in this area a broad perspective on the issues and methods of religious research across a spectrum of academic disciplines The aim of the book is to stimulate a creative integrative dialogue that will enhance interdisciplinary research
