Johnson,2018-05-10 A central

question in Christian ethics is the relationship between the moral principles we should follow within the Christian community and the ethics followed in the secular societies in which we live Our dilemma is that we have received a revelation of God s moral will in the Bible and in creation which must shape the identity of believers over against unbelieving cultures while our neighbors follow the ethics of other world views which concern us deeply Remember the Holocaust where the ethics of a secular ideology wreaked destruction in an entire society How should we as Christians whom God has called to a distinct identity participate in the moral considerations that will shape our cultures and communicate some of our convictions in a way that brings moral light into our worlds Johnson offers the insight gained by 20 years of teaching ethics in secular universities in Europe and North America First he addresses questions of sex marriage and family then questions of work and economics and finally theological and philosophical foundations

God and the Philosophy of Explanation James W. Peterson,2010-08 The purpose of this book is simple It is to tell the truth about GOD Learning the truth about GOD is the result of Mr Peterson s discovery of the meaning and purpose of his life It was discovered as a direct result of his need to learn it following his daughter s death in August of 1980 He discovered that the purpose and course of his life is determined in the same manner as yours It matters not who you are or what your particular circumstance is It doesn t matter if you have lost a child to death It doesn t even matter if you have children It matters not if you are a murderer or a saint gay or straight male or female first world citizen or jungle savage plant or animal The purpose for living is the same for all living things A rather intriguing claim isn t it If one has experienced the death of a child Mr Peterson s experience is not different from one s own in any important way But the story of how he came about his particular experience probably is Mr Peterson says that his friends comprise a very special society of humans they are parents of children who died before they did it is not supposed to happen that way But because they did lose a child to death he says they are experts in the field of pain and grieving They are not proud of the knowledge they have gained but they realize they have gained knowledge of what life is and how it actually operates that can be achieved in no other way They have experienced the very worst pain a human being can experience and remain alive Mr Peterson uses his unique experience to guide his readers through a complex series of intellectual challenges with the ease of a master sculptor
