## **People Apart A Political History Of The Jews In Europe 1789 1939:**

*A People Apart* David Vital, 1999 This history of the Jews in Europe examines the role played by the Jews themselves across the whole of Europe during the century and a half leading up to the birth of the nation of Israel and the state sponsored genocide of the Holocaust

**A People Apart** David Vital, 1999 The twentieth century has seen both the greatest triumph of Jewish history and its greatest tragedy the birth of the nation of Israel and the state sponsored genocide of the Holocaust *A People Apart* is the first study to examine the role played by the Jews themselves across the whole of Europe during the century and a half leading up to these events David Vital explores the Jews troubled relationship with Europe documenting the struggles of this nation without a territory to establish a place for itself within an increasingly polarized and nationalist continent He examines the clash within the Jewish community between politically neutral traditionalists and a new group of activists whose unprecedented demands for national and political self determination were stimulated both by increasing civil emancipation and the mounting effort to drive the Jews out of Europe altogether Controversially Professor Vital concludes that the history of the Jewish people was indeed in crucial respects although certainly not all of their own making at times by their own autonomous action and choice at others by inaction and default This powerful and stimulating new analysis represents a watershed in our understanding of the history of the Jews in Europe

*Zionism* Milton Viorst, 2016-07-19 From serving as the Middle East correspondent for *The New Yorker* to penning articles for the *New York Times* Milton Viorst has dedicated his career to studying the Middle East Now in this new book Viorst examines the evolution of Zionism from its roots by serving as a cultural refuge for Europe's Jews to the cover it provides today for Israel's exercise of control over millions of Arabs in occupied territories Beginning with the shattering of the traditional Jewish society during the Enlightenment Viorst covers the recent history of the Jews from the spread of Jewish Emancipation during the French Revolution Era to the rise of the exclusionary anti-Semitism that overwhelmed Europe in the late nineteenth century Viorst examines how Zionism was born and follows its development through the lives and ideas of its dominant leaders who all held only one tenet in common that Jews for the first time in two millennia must determine their own destiny to save themselves But in regards to creating a Jewish state with a military that dominates the region Viorst argues that Israel has squandered the goodwill it enjoyed at its founding and thus the country has put its own future on very uncertain footing With the expertise and knowledge garnered from decades of studying this contentious region Milton Viorst deftly exposes the risks that Israel faces today

during the nineteenth century led to conflict between tradition and modernity creating a chasm that few believed could be bridged. Unsurprisingly, the emergence of modern traditionalism was fraught with obstacles. The essays published in this collection eloquently depict the passion underlying the disparate views, the particular areas of vexing confrontation and the hurdles faced by champions of tradition. The author identifies and analyzes the many areas of sociological and religious tension that divided the competing factions, including synagogue innovation, circumcision, intermarriage, military service, and many others. With compelling writing and clear, articulate style, this illuminating work provides keen insight into the history and development of the various streams of Judaism and the issues that continue to divide them in contemporary times.

**Historicizing Anti-Semitism—Proceedings of the International Conference on the Post-September 11th New Ethnic/Racial Configurations in Europe and the United States: The Case of Anti-Semitism** *Maison des Sciences de l'Homme (MSH) Paris, June 29-30, 2007* Mohammad H. Tamdgidi, Lewis R. Gordon, Ramón Grosfoguel, Eric

Mielants, 2009-03-01. The articles collected in this Spring 2009 VII 2 issue of *Human Architecture Journal of the Sociology of Self Knowledge* entitled *Historicizing Anti-Semitism* were part of an international conference entitled *The Post September 11 New Ethnic/Racial Configurations in Europe and the United States: The Case of Anti-Semitism* organized by Lewis Gordon and Ramón Grosfoguel at the *Maison des Sciences de l'Homme MSH* in Paris on June 29-30, 2007. Part of a series inaugurated by a discussion on Islamophobia, they brought a majority Jewish group of scholars together in the hope of bringing to the forum a critical exchange and conversation among the participants. The articles gathered here do not represent a unified voice but those often unheard in discussions of anti-Semitism. The focus on anti-Semitism in this collection raises the question of how ancient and Medieval versions of anti-Jewish practices should be interpreted, especially since even the term *Semite* came about as an effort in eighteenth-century French and German scholarship to organize Arabic, Aramaic, and Hebrew under a single linguistic nomenclature which was crystallized in the nineteenth century in the work of the French scholar Ernest Renan. Contributors include Lewis R. Gordon also as journal issue guest editor, Ramón Grosfoguel also as journal issue guest editor, Eric Mielants also as journal issue guest editor, David Ost, James Cohen, Santiago E. Slabodsky, Rabson Wuriga, Walter Mignolo, Ramón Grosfoguel, Marc H. Ellis, Etienne Balibar, Ivan Davidson Kalmar, Martine Chard, Hutchinson, Michael L. Wy, Jean Paul Rocchi, and Mohammad H. **Crossovers** Shlomo Sharan, 2018-02-06. *Crossovers* compares Jewish anti-Zionism and Palestinian anti-Semitism from political and philosophical points of view. The authors' goal is to expose what is unique about these phenomena and what they share so that both ideologies and their practical impact can be better understood. The authors identify a symbiotic relationship between anti-Semitic Palestinian doctrines and those Jews who are

anti Zionists There has been a great deal of research on these as separate phenomena but there has thus far been no research that has noted their similarities Palestinian anti Semitism and Jewish anti Zionism may stem from different sources but they have similar consequences Palestinian views derive from religious Islamic as well as nationalist Arab roots while the views of anti Zionist Jews grew out of an ideological Marxist Trotskyite background But both share a common goal the destruction of the Jewish Zionist nation and a common strategy to achieve a bi national state as a first stage in the march to this goal Jewish history is replete with examples of how Jews have ignored repeated threats and acts of violence against them That characteristic of Jews reflects their Messianic belief but it lacks a basis in history That belief has resisted change even in the face of threats that were obvious and that have endangered Jewish lives in the past Contemporary anti Zionists share this optimistic outlook Paradoxically while the Jewish Zionist State of Israel contends in public that another Holocaust will not happen and is patently impossible the lesson of recent Jewish history is that a Holocaust can happen again This work is unrelenting in its criticisms and tough minded in its assessments of the future It merits careful serious reading Men and Ideas William Al-Sharif,2010-05-18 A collection of essays on al Hallaj Beethoven Daniel O Connell Samson Raphael Hirsch Sir James Frazer Nietzsche Okot p Bitek and Kwame Anthony Appiah **Jewish Art in America** Matthew Baigell,2007 Is there a Jewish art Is there a single Jewish experience Matthew Baigell the acknowledged American expert on Jewish art offers the first book ever on the history of Jewish American art from the early settlements to the present Albion and Jerusalem Michael Clark,2009-03-05 Lionel de Rothschild s hard fought entry into Parliament in 1858 marked the emancipation of Jews in Britain the symbolic conclusion of Jews campaign for equal rights and their inclusion as citizens after centuries of discrimination Jewish life entered a new phase the post emancipation era But what did this mean for the Jewish community and their interactions with wider society And how did Britain s state and society react to its newest citizens Emancipation was ambiguous Acceptance carried expectations as well as opportunities Integrating into British society required changes to traditional Jewish identity just as it also widened conceptions of Britishness Many Jews willingly embraced their environment and fashioned a unique Jewish existence mixing in all levels of society experiencing economic success and organising and translating its faith along Anglican grounds However unlike many other European Jews Anglo Jews stayed loyal to their faith Conversion and outmarriage remained rare and connections were maintained with foreign kin The community was even willing at times to place its Jewish and English identity in conflict as happened during the 1876 8 Eastern Crisis which provoked the first episode of modern antisemitism in Britain The nature of Jewish existence in Britain was unclear and developing in the post emancipation era Focusing upon inter linked case studies of Anglo Jewry s political activity internal government and religious development Michael Clark explores the dilemmas of identity and inter faith relations that confronted the minority in late nineteenth century Britain This was a crucial period in which the Anglo Jewish community shaped the basis of its modern existence whilst the British state explored the limits of its toleration **Dictionary of**

**Examining Genocides** Michael P. Jasinski, 2017-05-31 Mass killing through genocide haunts humanity as one of the most horrific forms of warfare Scholars seek to understand what causes such violence but it is still difficult to predict the onset of genocide Why does violence sometime stop short of the genocide threshold whilst others cross the threshold Why do some genocides escalate to the point of triggering the state's collapse Finally why are some groups targeted and others spared Examining Genocide considers these questions by interrogating the interaction of three sets of conditions These are a societal crisis that creates a need for mass mobilization to heal the fractured public and address its material concerns the stereotype associated with an eligible target for scapegoating and the leadership preferences and skills of the chief executive of an authoritarian or poorly institutionalized state in question Exploring case studies that cover various levels and instances of genocide this book offers new insights to this highly researched field for scholars and students alike

**Abba Eban** Asaf Siniver, 2015-11-03 Based on interviews with dozens of people and research in more than twenty archival collections this clear-eyed biography deserves to be called definitive Kirkus Reviews starred review Born in South Africa educated in England and ultimately a major figure in Israeli history Abba Eban was a skilled debater a master of multiple languages and a passionate defender of the Jewish state But his diplomatic presence was in many ways a contradiction unlike any the world has seen since While he was celebrated internationally for his exceptional wit and his moderate reasoned worldview these same qualities painted him as elitist and foreign in his home country The disparity in perception of Eban at home and abroad was such that both his critics and his friends agreed that he would have been a wonderful prime minister in any country but Israel In Abba Eban Asaf Siniver paints a nuanced and complete portrait of one of the most complex figures in twentieth century foreign affairs We see Eban growing up and coming into his own as part of the Cambridge Union and watch him steadily become known as The Voice of Israel Siniver draws on a vast amount of interviews writings and other newly available material to show that in his unceasing quest for stability and peace for Israel Eban's primary opposition often came from the homeland he was fighting for no matter how many allies he gained abroad the man never understood his own domestic politics well enough to be as effective in his pursuits as he hoped The first examination of Eban in nearly forty years this is a fascinating look at a life that still offers a valuable perspective on Israel today Siniver's principal achievement is his artful documentation of the tension between Eban the intellectual and Eban the politician Such lofty thoughts do not distract Mr Siniver from listing the indiscretions and dishonesty to which Eban in his politician's guise occasionally succumbed The Wall Street Journal Siniver's level-headed account looks at the history of Israel through the life of the country's eloquent defender The New York Times Book Review Editor's Choice **Nationalism**

**Civil Society, Post-Colonialism and Transnational Solidarity** Marie-Violaine Louvet, 2016-06-28 Civil Society Post Colonialism and Transnational Solidarity originates from Louvet s observation of the strong commitment of a layer of Irish civil society from the man on the street to political parties associations and trade unions to the defence of one antagonist or the other in the Israeli Palestinian conflict beginning with the Six Day War in 1967 and increasingly so after the Lebanon Wars at the start of the 1980s and the Second Intifada 2000 2005 This book observes how this phenomenon is particularly striking in Northern Ireland where Israeli and Palestinian flags have been flown by Unionists and Nationalists as signs of solidarity and identification Louvet sheds light on the dynamics and strategies at play in the Middle East conflict in Northern Ireland but also in the Republic of Ireland a country considered to be widely sympathetic to the Palestinian cause With an overarching perspective highlighting the influence of Irish colonial history over the motives and discourse of the different levels of mobilization in civil society this book shows the global movement towards the fragmentation and specialization of transnational solidarity actions in Ireland
