People Parish:

A People's Church Jeremy Morris, 2022-04-07 A masterly vivid and original sketch not just of the history but of the culture or cultures of the Church of England across nearly five centuries Rowan Williams poet and former Archbishop of Canterbury It is hard to comprehend the last 500 years of England's history without understanding the Church of England From its roots in Catholicism through to the present day this is the extraordinary history of a familiar but much misunderstood institution The Church has frequently been divided between high and low Evangelical and Anglo Catholic For its first 150 years people sacrificed their lives to defend it the Anglican Church is and has always been defined by its complicated relationship to the state and power As Jeremy Morris shows the story of the Church central to British life has never been straightforward Weaving social political and religious context together with the significance of its music and architecture A People's Church skilfully illuminates a complex and pre eminent institution **The Living Church**, 1955

English Parish Drama Alexandra F. Johnston, Wim N. M. Hüskén, 1996 This collection of essays presents the multiplicity of dramatic and paradramatic activity that flourished in medieval and early modern England at the parish level The evidence here adduced is largely from churchwardens accounts and from the records of the ecclesiastical courts The book contains ten articles that consider the various money making ventures undertaken by English parishes for the support of the church The authors study subjects ranging from paradramatic activities such as rushbearing dancing and bull and bear baiting through more hybrid and problematical events such as the king games and Robin Hood gatherings and plays to what can be considered true drama with sets props texts and actors All the contributors are editors in the Records of Early English Drama project and bring to their material the insights of scholars working with original material in what are still only partially charted waters Ludus intends to introduce those interested in literature in the performing arts or in history to the various aspects of theatre and drama from the Middle Ages and the Early Renaissance It publishes books on closely defined topics mostly seen from a comparative point of view **Good News Parish Leadership** Michael L. Papesh, 2008 For many

Catholics today the leaders described above don't exist For just as many parish leadership does not equal good news But Father Michael Papesh believes it certainly CAN and here he offers guidelines tools and ideas for making it happen By sharing pastoral leadership and structuring power distribution he says a parish can enjoy be mirror proclaim and bring to the world the transforming goodness of God And thus he offers a whole system model for pastoral leadership that is theologically grounded in the hospitality of God as revealed through the ministry of Jesus What Parish Are You From? Eileen M. McMahon, 2021-12-14 For Irish Americans as well as for Chicago's other ethnic groups the local parish once formed the nucleus of daily life Focusing on the parish of St Sabina's in the southwest Chicago neighborhood of Auburn Gresham Eileen McMahon takes a penetrating look at the response of Catholic ethnics to life in twentieth century America She reveals the role the parish church played in achieving a cohesive and vital ethnic neighborhood and shows how ethno religious

distinctions gave way to racial differences as a central point of identity and conflict For most of this century the parish served as an important mechanism for helping Irish Catholics cope with a dominant Protestant American culture Anti Catholicism in the society at large contributed to dependency on parishes and to a desire for separateness from the American mainstream As much as Catholics may have wanted to insulate themselves in their parish communities however Chicago demographics and the fluid nature of the larger society made this ultimately impossible Despite efforts at integration attempted by St Sabina s liberal clergy white parishioners viewed black migration into their neighborhood as a threat to their way of life and resisted it even as they relocated to the suburbs The transition from white to black neighborhoods and parishes is a major theme of twentieth century urban history The experience of St Sabina s which changed from a predominantly Irish parish to a vibrant African American Catholic community provides insights into this social trend and suggests how the interplay between faith and ethnicity contributes to a resistance to change
