*Elasticity and Toughness* Feng Wei, 2021-12-30 This book examines minban teacher policies and their implementation in China between 1949 and 2000 when rural areas were in severe shortage of qualified teachers During this period of time minban teachers made great contributions to education doing the same work as state employed school teachers while receiving much lower salaries due to non official status With solid fieldwork on oral history of minban teachers and policy actors and deep examination of a wealth of policy documents in private and governmental archives the author records the life history of minban teachers the process of minban teacher policies and the interaction between policies and individual strategies in M county pseudonym located in northern Jiangsu province of China The book reveals many interesting and sometimes surprising findings about the characteristics of educational policy implementation in China While China's minban teacher policies have come to an end rural education continues to be a major concern of policymakers and researchers alike The book is an important piece of scholarship for the readers interested in rural education in China and in how state society and culture interact to influence teacher policies and management in the Chinese context

Lee, 2003-08-29 What brought about a financial crisis in the miracle economies of Asia What went wrong with financial reform in Asia What can the developing countries of the world learn from the reform experiences in Asia Financial Liberalization and the Economic Crisis in Asia analyses how financial liberalization was undertaken in eight Asian countries and how it might be linked to the subsequent crises The country studies focus on China India Indonesia Japan Malaysia the Philippines South Korea and

Thailand     *A Study on Child Development in Contemporary China* Xiuping Wang, 2023-05-23 This book is devoted to the description and analysis of child population rights to survival and development culture and policies that Chinese government made in contemporary China The book pursues three major objectives firstly to objectively describe child development in contemporary China secondly to analyze characteristics of child development in contemporary China and thirdly to review all types of policies Chinese government has made on children survival protection and development which played important roles on promoting child development     *Europa World Year* Taylor & Francis Group, 2004     *China's Population* Gabe T. Wang, 2019-01-15 Published in 1999 this text sets out to provide an historical present and futuristic understanding of China's enormous population problems It sets out to provide a fundamental understanding of China through an understanding of its population problems and the efforts to control them With the world's largest population China has a dynamic economy and is emerging as a world power This book aims to provide a comprehensive discussion on issues relating to China's population in English based on historical and macro level analysis of Chinese society     **The People's Own Landscape** Scott Moranda, 2014-01-21 East Germany's Socialist Unity Party aimed to placate a public well aware of the higher standards of living enjoyed elsewhere by encouraging them to participate in outdoor activities and take vacations in the countryside Scott Moranda considers East Germany's rural landscapes from the perspective of both technical experts landscape architects biologists and physicians who hoped to dictate how vacationers interacted with nature and the vacationers themselves whose outdoor experience shaped their understanding of environmental change As authorities eliminated traditional tourist and nature conservation organizations dissident conservationists demanded better protection of natural spaces At the same time many East Germans shared their government's expectations for economic development that had real consequences for the land By the 1980s environmentalists saw themselves as outsiders struggling against the state and a public that had embraced mainstream ideas about limitless economic growth and material pleasures     **Resources in Education**, 1999-04

**China's Military Power** Roger Cliff, 2015-09-15 This book provides a comprehensive assessment of China's military capabilities in 2000 and 2010 with projections for 2020 Recognizing that military power encompasses more than weaponry it develops an original empirical framework for measuring militaries that also includes doctrine training and organizational structure     *The People's Republic of China After 50 Years* Richard Louis Edmonds, 2000-03-09 Leading scholars in various fields give their views of development in the People's Republic of China since 1949 with emphasis on recent decades After a broad overview of progress and setbacks specific topics covered include national political reform the Chinese Communist Party in power the economy rural reform urban systems the environment foreign relations the People's Liberation Army the legal system social welfare reform intellectuals art and literature Overall the volume presents a picture of the PRC that is not as healthy as optimists maintain nor in such a disastrous state as many pessimists have put forward Increasingly external developments will be shaping the pace of change in the People's Republic The ability of the government to continue to

respond in a measured fashion to change will be necessary if the PRC is to thrive in the twenty first century     The Market in Chinese Social Policy L. Wong,N. Flynn,2001-05-23 The introduction of market reforms has radically transformed China Marketizing Social Policy in China examines the impact of a shift to market principles in the critical sector of social policy The authors demonstrate how social policy reform has been driven by economic transformation as profound structural change produced inevitable knock on effects in people s livelihood Marketization in social policy in turn creates new needs and raises issues that challenge commonly accepted notions of public private responsibilities in a society undergoing rapid and deep social change     *Markets Over Mao* Nicholas R Lardy,2014-09-10 China s transition to a market economy has propelled its remarkable economic growth since the late 1970s In this book Nicholas R Lardy one of the world s foremost experts on the Chinese economy traces the increasing role of market forces and refutes the widely advanced argument that Chinese economic progress rests on the government s control of the economy s commanding heights In another challenge to conventional wisdom Lardy finds little evidence that the decade of the leadership of former President Hu Jintao and Premier Wen Jiabao 2003-13 dramatically increased the role and importance of state owned firms as many people argue This book offers powerfully persuasive evidence that the major sources of China s growth in the future will be similarly market rather than state driven with private firms providing the major source of economic growth the sole source of job creation and the major contributor to China s still growing role as a global trader Lardy does however call on China to deregulate and increase competition in those portions of the economy where state firms remain protected especially in energy and finance

*Law of the Sea in East Asia* Keyuan Zou,2013-04-03 Law of the Sea in East Asia selects the most prominent maritime legal issues that have emerged since the post LOS Convention era for a detailed discussion and assessment The current marine legal order in East Asia is based on the 1982 United Nations Convention on the Law of the Sea LOS Convention and accordingly coastal states in the region are obliged to cooperate amongst themselves to exercise their rights and perform their duties Keyuan a respected expert in the fields of international and Chinese law explores issues concerning compliance with the law of the sea territorial disputes and maritime boundary delimitation fishery management safety of navigation and maritime security and neglected issues in the law of the sea This is the first book to examine maritime laws in East Asia and as such will appeal to academics of law and Asian studies lawyers and policy makers     People Weekly Yearbook Eric Levin,1997

**Foreign Policy of the New Taiwan** Jie Chen,2002-01-01 The title of this book does not do it justice for the book ranges far beyond Taiwan s diplomacy in Southeast Asia The most authoritative book published to date on Taiwan s foreign policy 1949 to 2000 it covers Taiwan s foreign relations and diplomacy with Western developed states the states of Africa and Latin America Japan the People s Republic of China and the countries of Southeast Asia Based on Chinese and English sources as well as personal interviews and correspondence Chen Jie presents a wide ranging comprehensive view of Taiwan s efforts to gain greater international recognition Combining impressive scholarship with interesting analysis Chen

**Engineering Stability** Xiaojun Yan,2024-11-19 While the processes of founding a new state or constructing a new political order after a transition have been well studied there has been much less attention to how regimes that survive major political crises purposefully reinvent a postcrisis state to respond to updated concepts new circumstances changed social demands and a realigned elite consensus In *Engineering Stability* Yan Xiaojun examines the Chinese Communist Party s efforts to reassert control and restore order on university campuses in the post Tiananmen era Since prominent national universities serve the nation state as training grounds for the country s future political economic and cultural elites public life on university campuses has immediate political relevance Drawing on rich materials gathered from in depth field research in China during the Xi Jinping era *Engineering Stability* invites scholars of comparative politics state theory contentious politics and political development to rethink and reimagine how what Yan calls a compromised autocratic state is rebuilt within and from itself after overcoming a traumatic moment of vulnerability The book further details the four types of infrastructure institutional significative regulatory and incentivizing that state rebuilders need to overhaul and looks into the campaign of state rebuilding in post Tiananmen Chinese universities and its implications for our understanding of politics in general **Mediation** Carrie Menkel-Meadow,2018-05-08 This title was first published in 2001 This volume of essays explores the theoretical and jurisprudential bases of mediated forms of dispute resolution from legal anthropological sociological psychological and political sources It also presents ongoing disputes about the field itself including its threat to
