## **People From The Sea:**

*The People of the Sea* Paul D'Arcy, 2006-03-31 Oceania is characterized by thousands of islands and archipelagoes amidst the vast expanse of the Pacific. Although it is one of the few truly oceanic habitats occupied permanently by humankind, surprisingly little research has been done on the maritime dimension of Pacific history. *The People of the Sea* attempts to fill this gap by combining neglected historical and scientific material to provide the first synthetic study of ocean people interaction in the region from 1770 to 1870. It emphasizes Pacific Islanders' varied and evolving relationships with the sea during a crucial transitional era following sustained European contact. Countering the dominant paradigms of recent Pacific Islands historiography which tend to limit understanding of the sea's importance, this volume emphasizes the flux in the maritime environment and how it instilled an expectation and openness toward outside influences and the rapidity with which cultural change could occur in relations between various Islander groups. The author constructs an extended and detailed conceptual framework to examine the ways in which the sea has framed and shaped Islander societies. He looks closely at Islanders' diverse responses to their ocean environment, including the sea in daily life, sea travel, and its infrastructure, maritime boundaries, protecting and contesting marine tenure, attitudes to unheralded seaborne arrivals, and conceptions of the world beyond the horizon and the willingness to voyage. He concludes by using this framework to reconsider the influence of the sea on historical processes in Oceania from 1770 to the present and discusses the implications of his findings for Pacific studies.

**International Law and the Protection of People at Sea** Irini Papanicolopulu, 2018 From the actions of Somali pirates to the fate of asylum seekers in the Mediterranean, the rights of those at sea is of vital importance. The first book to comprehensively analyse the legal status of seafarers and sea travellers, Papanicolopulu's timely text provides a compelling argument for the responsibility of the state to protect those at sea.

Sea People: The Greatest Untold Battles of the World Karthik Raghuram, 2022-10-20 Mithra and his wife came to the Mediterranean region from a faraway nation full of dreams as a lower class fisher. But regrettably, the highest authority in the land decided to ruin his family because of his strong morals and intellect. Mithra didn't see it as his problem; rather, he took a broad view of it and realized that the absolute cause of his anguish and the misery of those around him was the power of authority. Since people grant authority, people may also exercise that authority. He collected an army of common folk who rebelled against the stifling power of government and went to war with every monarchy in existence at the time. In the conflict, through his strong principles and integrity, Mithra demonstrates why he is the world's best leader. They overcame town after village, city after city, and kingdom after kingdom until they achieved their main objective of establishing a society in which every individual is valued for the life he leads. They simply vanished without a trace from the world's view after achieving the wonderful win. The conflicts between these people and the kings are what bring about the collapse of bronze age civilizations. In the name of the Sea People, these people dreaded and remembered.

Sea Peoples of Northern Levant? Aegean-Style Pottery from Early Iron Age Tell Tayinat Brian Janeway,2018-07-17 Did an invasion of the Sea Peoples cause the collapse of the Late Bronze Age palace based economies of the Levant as well as of the Hittite Empire Renewed excavations at Tell Tayinat in southeast Turkey are shedding new light on the critical transitional phase of the Late Bronze Early Iron Age ca 1200 1000 B C a period that in the Northern Levant has until recently been considered a Dark Age due in large part to the few extant textual sources relating to its history However recently discovered epigraphic data from both the site and the surrounding region suggest the formation of an Early Iron Age kingdom that fused Hieroglyphic Luwian monumental script with a strong component of Aegeanizing cultural elements The capital of this putative erstwhile kingdom appears to have been located at Tell Tayinat in the Amuq Valley More specifically this formal stylistic analysis examines a distinctive painted pottery known as Late Helladic IIIC found at the site of Tayinat during several seasons of excavation The assemblage includes examples of Aegean style bowls kraters and amphorae bearing an array of distinctive decorative features A key objective of the study distinguishes Aegean stylistic characteristics both in form and in painted motifs from those inspired by the indigenous culture Drawing on a wide range of parallels from Philistia through the Levant Anatolia the Aegean Sea the Greek Mainland and Cyprus this research begins to fill a longstanding lacuna in the Amuq Valley and attempts to correlate with major historical and cultural trends in the Northern Levant and beyond In *Sea Peoples of the Northern Levant* Janeway ably navigates the complex context within which these data must be historically and archaeologically situated and provides a first look at the Aegeanizing ceramics

from the Tell Tayinat assemblage that is both comprehensive and invaluable For researchers and scholars working within the complex material and historical tapestry of the Late Bronze Early Iron Age transition in the eastern Mediterranean this volume is highly recommended Jeffrey P Emanuel Harvard University in American Journal of Archaeology 123 3 2019
