*The History of Four-Footed Beasts and Serpents and Insects* Edward Topsell, 2013-11-05 First Published in 1967 This is volume one of three of *The History of Four-footed Beasts*, taken principally from the *Historiae Animalium* of Conrad Gesner. During the first decade of the seventeenth century when Topsell prepared his translation, zoology had just become a science. It has a unique place. It was the first major book on animals printed in Great Britain in English and it appeared at the last moment in history when all zoological knowledge since antiquity could be summarized sympathetically before it was rendered a curiosity by the many new discoveries soon to come.

**The Ascension in Karl Barth** Andrew Burgess, 2017-07-05 This book explores the doctrine of ascension and Barth's ascension thought in particular. First it examines the doctrine of Jesus Christ's ascension into heaven, presenting a sustained discussion of Karl Barth's approach to this doctrine and the significance of the doctrine within his theology as a whole. Secondly, through examining Barth's ascension thought and dialoguing with three other theologians, Torrance Farrow and Jenson, a clearer understanding of Barth and his theology is achieved. The treatment of issues related to Christ's ascension across a broader protestant perspective increases the relevance and usefulness of this unique study. Andrew Burgess presents the doctrine of the ascension as an important and undervalued doctrine and encourages Christians to see how like Barth they might benefit in their ability to think coherently about the present age and about Jesus in relation to this age, enabling further thought about the work of the Holy Spirit, the church, and Christian ethics.
