People Studying People The Human Element In Field Work:

People Studying People Robert A. Georges, Michael O. Jones, 1980-03-13 Non Aboriginal material **People Studying People** Laurence Pringle, 1972 **People Studying People** Robert A. Georges, Michael Owen Jones, 1980 The authors of this book demonstrate that fieldwork is first and foremost a human pursuit They draw upon published and unpublished accounts of fieldworkers personal experiences to develop the thesis that an appreciation of fieldwork as a unique mode of inquiry depends upon an understanding of the role the human element plays in it They analyze the processes involved when people study people firsthand focusing upon the recurrent human problems that arise and must be solved The human processes and problems they argue are common to all fieldwork regardless of the disciplinary backgrounds or the specific interests of individual researchers *Analyzing Social Settings* John Lofland, David Snow, Leon Anderson, Lyn H. Lofland, 2022-12-05 This book instructs the reader how to do a social science fieldstudy a research genre often labeled ethnography qualitative research and or naturalistic research While field researchers across the social sciences may prefer one label over another their studies are generally alike in featuring direct qualitative observation of natural situations or settings primarily using the techniques of participant observation and or intensive interviewing High quality social science fieldstudies are contingent on the successful completion of the interconnected tasks of gathering focusing and analyzing data as well as writing up the results The fourth edition of this classic work is a must for social researchers The authors make learning how to do qualitative observation and analysis clear and engaging Their book provides an educational and entertaining road map for pursuing high quality fieldstudies in social science research *Selected Readings in the Anthropology of Religion* Stephen D. Glazier, Charles A. Flowerday, 2003-12-30 Brings together in one volume a number of key theoretical and methodological advances in the anthropological study of religion Chapters cover important topics not ordinarily included in books dealing with the anthropology of religion e g bipedalism the study of alcohol film and video images notions of religious agency In addition this collection is intended to build bridges between anthropologists of religion and religious studies scholars Over the last four decades anthropologists have grappled with the dialectical relationship between the examination of cultures from the emic or insider perspective and the etic or outsider perspective Nowhere is this creative tension more evident than in the anthropological study of religion In this volume anthropologists and religious studies scholars come to terms not only with a landscape that has shifted fundamentally but a landscape that is still shifting Essays in this collection raise new and important issues for the anthropological study of religion in new and important ways In intensely personal essays a number of contributors address two fundamental concerns in the study of religion 1 how should anthropologists deal with the beliefs and practices of others and 2 how should anthropologists deal with their own religious backgrounds and beliefs as these may affect their understanding of the beliefs and practices of others A partial resolution to both questions is necessary before the anthropological study of religion can advance to a higher level **Folk**

Shadows in the Field Gregory F. Barz, Timothy J. Cooley, 2008-09-09 Ethnomusicological fieldwork has significantly changed since the end of the the 20th century Ethnomusicology is in a critical moment that requires new perspectives on fieldwork perspectives that are not addressed in the standard guides to ethnomusicological or anthropological method The focus in ethnomusicological writing and teaching has traditionally centered around analyses and ethnographic representations of musical cultures rather than on the personal world of understanding experience knowing and doing fieldwork Shadows in the Field deliberately shifts the focus of ethnomusicology and of ethnography in general from representation text to experience fieldwork The new fieldwork moves beyond mere data collection and has become a defining characteristic of ethnomusicology that engages the scholar in meaningful human contexts In this new edition of Shadows in the Field renowned ethnomusicologists explore the roles they themselves act out while performing fieldwork and pose significant questions for the field What are the new directions in ethnomusicological fieldwork Where does fieldwork of the past fit into these theories And above all what do we see when we acknowledge the shadows we cast in the field The second edition of Shadows in the Field includes updates of all existing chapters a new preface by Bruno Nettl and seven new chapters addressing critical issues and concerns that have become increasingly relevant since the first edition

Morals Michel Anteby,2024-05-31 Corporate accountability is never far from the front page and as one of the world s most elite business schools Harvard Business School trains many of the future leaders of Fortune 500 companies But how does HBS formally and informally ensure faculty and students embrace proper business standards Relying on his first hand experience as a Harvard Business School faculty member Michel Anteby takes readers inside HBS in order to draw vivid parallels between the socialization of faculty and of students In an era when many organizations are focused on principles of responsibility Harvard Business School has long tried to promote better business standards Anteby s rich account reveals the surprising role of silence and ambiguity in HBS s process of codifying morals and business values As Anteby describes at HBS specifics are often left unspoken for example teaching notes given to faculty provide much guidance on how to teach but are largely silent on what to teach Manufacturing Morals demonstrates how faculty and students are exposed to a system that operates on open ended directives that require significant decision making on the part of those involved with little overt guidance from the hierarchy Anteby suggests that this model which tolerates moral complexity is perhaps one of the few that can adapt and endure over time Manufacturing Morals is a perceptive must read for anyone looking for insight into the moral decision making of today s business leaders and those influenced by and working for them Culture and Media Rayson K.
