People Who Run Europe:

People Who Run Europe Edward C. Page, 1996-12-26 In the minds of many Brussels is very closely associated with bureaucracy Yet we know little about the character of the European Union's bureaucracy Professor Page draws upon a wide range of empirical sources to present a picture of the administrative system of the EU He discusses the complexities of its internal organization and goes on to explore the people who work in it As a multinational organization its procedures for appointment and promotion reflect in part the need to maintain a professional career civil service and in part the desire to secure a fair mix of nationalities among top officials *People who Run Europe* looks at the distinctive features of the administrative system which these two principles help to produce as well as at the nature of the people their backgrounds careers and skills who are attracted to it The author also examines the role of top officials in the decision making process above all in their dealings with politicians and interest groups

Running across Europe Jeroen Scheerder, Koen Breedveld, Julie Borgers, 2015-01-15 Analysing in depth data from 11 European countries this collection explores the rise of the European running market the reasons and motives for running and the most important players in the field The volume sets out policy challenges and marketing possibilities and addresses issues of participation cost and health

Citizenship and Identity in Europe Leslie Holmes, Philomena Murray, 2018-12-17 Published in 1999 Issues of citizenship and identity have rapidly moved up the European and social science agendas in recent years This book explores the reason for this It focuses on the dilemmas of citizenship and identity in the uncertain and unpredictable atmosphere of fin de siècle Europe In the course of eight essays it explores the general theoretical issues of citizenship and identity and the relationship between these in contemporary Europe the various aspects of European Union citizenship two chapters democracy and multiculturalism in Western Europe pluralism and citizenship with particular reference to gender in West European politics the various implications for gender politics of divorce in Western Europe exclusion and inclusion in central and Eastern Europe and the extent to which the idea of a Yugoslav national identity has been a failure *Citizenship and Identity in Europe* will appeal both to informed generalists and to students and scholars of Europe who seek analyses of these issues in Eastern central and Western Europe from a wide range of perspectives At a time when the future of Europe is looking more uncertain than it has for decades this book is both timely and thought provoking

How Europe Underdeveloped Africa Walter Rodney, **Italy in the European Union** Sergio Fabbrini, Simona Piattoni, 2007-11-28 Based on an analytical evaluation of both the weaknesses and strengths of the Italian political system *Italy in the European Union* is the first book to offer a detailed and comprehensive description of Italy's contribution to European Union policy making The contributors to this volume systematically explore the role played by Italian institutional and noninstitutional actors in several decision making processes They show how Italian institutional actors define and promote national policy preferences that are compatible with those of the other European member states However the book functions on two levels it is both a nuanced picture of Italy's role in the

EU and a study of the EU as it has been transformed by subsequent waves of enlargement In a compound polity of twenty seven member states the formation of stable hegemonic coalitions is implausible the concept of national interest which still informs much of the literature on the EU is logically and empirically unusable in many EU policy realms Combining empirical investigation and theoretical analysis this book is indispensable for scholars students and practitioners who study or observe Italian politics It is also necessary for those who want to understand the transformation of European politics and the European Union s increasing development as a compound polity Contributions by Marco Brunazzo Maurizio Carbone Sabrina Cavatorto Vincent Della Sala Alessia Don Sergio Fabbrini Paolo Foradori Giorgio Giraudi Renata Lizzi Simona Piattoni Paolo Rosa Stefano Sacchi Alberta M Sbragia Daniela Sicurelli and Luca Verzichelli *Territorial Cohesion in Rural Europe* Andrew Copus, Philomena de Lima, 2014-08-13 This book reflects on how the economies social characteristics ways of life and global relationships of rural areas of Europe have changed in recent years This reveals a need to refresh the concepts we use to understand measure and describe rural communities and their development potential This book argues that Europe has outgrown many of the stereotypes usually associated with it with substantial implications for European Rural Policy Rural structural change and its evolving geography are portrayed through regional typologies and the concept of the New Rural Economy Demographic change migration business networks and agricultural restructuring are each explored in greater detail Implications for equality and social exclusion and recent developments in the field of governance are also considered Despite being a subject of active debate interventions in the fields of rural and regional development have failed to adapt to changing realities and have become increasingly polarized This book argues that rural regional policy needs to evolve in order to address the current complex reality partially reformulating territorial or place based approaches and the New Rural Paradigm following a set of principles termed Rural Cohesion Policy **Congressional Record** United States. Congress, 1971 *Inside European Identities* Sharon Macdonald, 2020-08-27 Following recent events in Eastern Europe questions surrounding European identity seem more pressing than ever This volume explores through a series of ethnographic case studies the construction and experience of identities in Western Europe All of the case studies are based on fieldwork and in geographical scope range from Wales to the Basque country from Corsica to the Lake District The peoples they look at are similarly diverse nationalists and members of the Communist party rural and urban populations The essays illustrate the ways in which detailed ethnographic case studies can illuminate how identities are lived by ordinary people *The City Grump Rides Out* The City Grump, 2019-02-12 The City Grump Rides Out is a collection of clever acerbic and at times downright hilarious commentaries on the business and political landscape of the United Kingdom Through his colourful and observant prose the City Grump roots out some of the absurdities perpetrated by the leaders and institutions of the country For the past nine years the City Grump has been turning his fire on those he believes we would be better off without in his regular column for Real Business Now he compiles these popular articles covering contemporary finance

politics Europe and society in a topical book for equally grumpy readers with a cover illustrated by Britain's most famous living cartoonist Gerald Scarfe But the Grump who trod the Square Mile for three decades as a successful fund manager is not solely negative Through his debut book he raises a glass to small business whose entrepreneurs are the foundation of the UK Leaders beware **Trans-Atlantic, from Office of Labor Advisors**, 1948 *Project Management T-kit* Dirk de Vilder, Council of Europe. Directorate of Youth and Sport, 2004-01-01 T Kits Training kits are a product of the Partnership Agreement on European Youth Worker Training run by the CoE and the European Communities Commission

Rediscovering Europe Mark Leonard, 1998 **EuroTragedy** Ashoka Mody, 2018-05-01 Blending economic analysis with political drama EuroTragedy chosen by both Foreign Affairs and The Financial Times as one of the best books of 2018 is a groundbreaking account of the euro's history and tragic consequences In this vivid and compelling chronicle Ashoka Mody describes how the euro improbably emerged through a narrow historical window as a flawed compromise wrapped in a false pro European rhetoric of peace and unity Drawing on his frontline experience as an official with the IMF Mody situates the tragedy in a fast paced global context and guides the reader through the forced and unforced errors Eurozone authorities committed during their long financial crisis The decision to switch from national currencies to the euro unfolded as both economic and political tragedy It weakened the growth potential of member states which made financially vulnerable Europeans more anxious It deepened perceptions of unfairness and widened the division between nations Now the burden falls on younger Europeans a generation with a discouragingly bleak future A compassionate view of European possibilities EuroTragedy makes clear that the euro's structural flaws will continue to haunt the continent Instead of centralizing authority to prop up an ossified pro Europeanist model it is time to loosen ties that bind too tightly so that a liberal order can once more flourish Now updated to cover the most momentous events since original publication this will remain the authoritative book on the crisis **Youth and community empowerment in Europe** Peter Evans, Angelika Krüger, 2013 Spanning eight European countries the Youth Empowerment Partnership Programme YEPP aims to enable young people in disadvantaged communities by involving them in new decision making processes that span the public private and independent sectors Youth Community and Empowerment in Europe explains the theory behind this unique collaborative program funded by a consortium of European and American foundations Tracing the program's development and outcomes across its ten years of existence the authors extract lessons that can improve future policy and evaluation strategies
