studies and memoirs Most important to celebrate the 30th Anniversary of South Vietnam's conquest the leaders in Hanoi released several compendiums of formerly highly classified cables and memorandum between the Politburo and its military commanders in the south This treasure trove of primary source materials provides the most complete insight into North Vietnamese decision making ever compiled While South Vietnamese deliberations remain less clear enough material exists to provide a decent overview Ultimately whatever errors occurred on the American and South Vietnamese side the simple fact remains that the country was conquered by a North Vietnamese military invasion despite written pledges by Hanoi's leadership against such action Hanoi's momentous choice to destroy the Paris Peace Accords and militarily end the war sent a generation of South Vietnamese into exile and exacerbated a societal trauma in America over our long Vietnam involvement that reverberates to this day How that transpired deserves deeper scrutiny

Maoism In India Arun Srivastava, 2015-01-01 Maoism in India is an attempt to study and analyse the movement already a number of left intellectuals and scholars have studied the movement and written about it my attempt has been to find out the difference between the naxalite and cpi maoist movements is there any difference as such though the naxalite movement took birth in naxalbari in 1967 it is still striving to find a sustainable support base the naxalite movement got its name from naxalbari village where the first major uprising took place also through the merger of the people's war and the maoist communist centre mcc communist party of India maoist was formed in 2004 which aims to overthrow the government of India through people's war why an organization which was perceived as the forum of the deprived and alienated sections of the population was described as the single biggest internal security challenge usually people confuse themselves over maoists and naxalities and cannot exactly trace the difference between the two terminologies media simply adds to the confusion the communist party of India maoist aims to overthrow the government of India through people's war i also tried to find out the reasons which made the maoists in recent times to focus more on arms intervention than taking to organizing mass resistance movement

The People in Arms Daniel Moran, Arthur Waldron, 2003

The People in Arms first published in 2002 is concerned with the mass mobilization of society for war. It takes as its starting point the French levée en masse of 1793 which replaced former theories and regulations concerning the obligation of military service with a universal concept more encompassing in its moral claims than any that had prevailed under the Ancien Régime. The levée en masse has accordingly gone down in history as a spontaneous free expression of the French people's ideals and enthusiasm. It also became a crucial source for one of the most powerful organizing myths of modern politics that compulsory mass social mobilizations merely express and give effective form to the wishes or higher values of society and its members. The aim of the papers presented here is to analyse and compare episodes in which this distinctive ideological configuration has played a leading role. *United States Army Reserve Mobilization for the Korean War* Kathryn Roe Coker, 2013

American Foreign Policy, Current Documents, 1968 *Comintern Army* R. Dan Richardson, 2021-05-11 When Spain exploded into civil war in July 1936 a conflict whose roots were deep in the Spanish past became the arena for the violent political passions that divided Europe north of the Pyrenees. Germany, Italy and the Soviet Union intervened actively in the war using Spain as a testing ground for their military equipment and techniques and their political ideologies. In this first in depth study of the politics of the International Brigades in the Spanish Civil War R. Dan Richardson views the Brigades in the wider context of both the complex political military alignments of Loyalist Spain and the broader Soviet Comintern strategy during the Popular Front era. While not denying the generous impulse that led many young men the world over to enlist in the cause of the Spanish Republic he sees the Brigades primarily as instruments of communist policy. He argues that the directing force behind the enlistment, training and deployment of the Brigades was the international communist organization a compelling example of how the ends of propaganda and politics took precedence over military objectives. Using a wide array of sources in English, Spanish, French, Italian and German and a thorough analysis of the Brigades' own voluminous literary output Richardson clearly shows that the Brigades were a significant political, ideological and propaganda instrument which was used effectively by the Comintern for its own purposes not only in Spain but on the larger world stage.
