Life is A Choice Belay Gaga, 2022-02-28 From birth until our very last breath we are faced with things that could change the course of our lives forever Those things could be opportunities events or choices that one makes but once we pass away we leave a legacy behind us for other people to see and admire what we once were We either leave such an impressive exemplary life behind that people look up to us as an example and respect us and try to follow in our footsteps Or we lead such a tragic and morbid life that people use it as a cautionary tale The choice is in each once hand

From Chance to Choice Allen Buchanan, Dan W. Brock, 2000 This book written by four internationally renowned bioethicists and first published in 2000 was the first systematic treatment of the fundamental ethical issues underlying the application of genetic technologies to human beings Probing the implications of the remarkable advances in genetics the authors ask how should these affect our understanding of distributive justice equality of opportunity the rights and obligations as parents the meaning of disability and the role of the concept of human nature in ethical theory and practice The book offers a historical context to contemporary debate over the use of these technologies by examining the eugenics movement of the late nineteenth and early twentieth centuries The questions raised in this book will be of interest to any reflective reader concerned about science and society and the rapid development of biotechnology as well as to professionals

Weight of Whiteness Alison Bailey,2021-02-23 Check your privilege is not a request for a simple favor It asks white people to consider the painful dimensions of what they have been socialized to ignore Alison Bailey s The Weight of Whiteness A Feminist Engagement with Privilege Race and Ignorance examines how whiteness misshapes our humanity measuring the weight of whiteness in terms of its costs and losses to collective humanity People of color feel the weight of whiteness daily The resistant habits of whiteness and its attendant privileges however make it difficult for white people to feel the damage White people are more comfortable thinking about white supremacy in terms of what privilege does for them rather than feeling what it does to them The first half of the book focuses on the overexposed side of white privilege the side that works to make the invisible and intangible structures of power more visible and tangible Bailey discusses the importance of understanding privileges intersectionally the ignorance preserving habits of white talk and how privilege and ignorance circulate in educational settings The second part invites white readers to explore the underexposed side of white dominance the weightless side that they would rather not feel The final chapters are powerfully autobiographical Bailey engages readers with a deeply personal account of what it means to hold space with the painful weight of whiteness in her own life She also offers a moving account of medicinal genealogies which helps to engage the weight she inherits from her settler colonial ancestors The book illustrates how the gravitational pull of white ignorance and comfort are stronger than the clean pain required for collective liberation The stakes are high Failure to hold the weight of whiteness ensures that white people will continue to blow the weight of historical trauma through communities of color Other People's Stories Amy

Shuman,2010-10-01 In Other People s Stories Amy Shuman examines the social relations embedded in stories and the complex ethical and social tensions that surround their telling Drawing on innovative research and contemporary theory she describes what happens when one person s story becomes another person s source of inspiration or when entitlement and empathy collide The resulting analyses are wonderfully diverse integrating narrative studies sociolinguistics communications folklore and ethnographic studies to examine the everyday conversational stories told by cultural groups including Latinas Jews African Americans Italians and Puerto Ricans Shuman offers a nuanced and clear theoretical perspective derived from the Frankfurt school life history research disability research feminist studies trauma studies and cultural studies Without compromising complexity she makes narrative inquiry accessible to a broad population The Senate and the People of

Canada James T. McHugh,2017-09-20 The Senate of Canada is the upper house of its parliamentary system It is an appointed

legislative chamber that has been frequently derided for its apparent lack of effective activity its failure to represent Canada's federal system and the perceived lack of accountability among its members Reform of the Senate persists as one of the most contentious issues in the country Typical reform proposals begin with the assumption that it must become an elected body that primarily represents Canada's provinces and can serve as an effective check on the federal government and the House of Commons This book challenges those assumptions through a thorough analysis that places the Senate within the context of other parliamentary upper houses It presents a hypothetical constitutional amendment and a proposal for non constitutional reform that are based upon alternative models derived from that broader context The book ultimately recommends a Senate that remains unelected but with a more expansive appointment process that more appropriately reflects the optimal role of a parliamentary upper house as well as the diversity regional aspirations and political principles of Canadian democracy

Language Choice and Identity Politics in Taiwan Jennifer M. Wei, 2008-01-01 Jennifer M Wei argues that construction and perceptions of language and identity parallel sociopolitical transformations and language and identity crises arise during power transitions Under these premises language and identity are never well defined or well bounded Instead they are best viewed as political symbols subject to manipulation and exploitation during socio historical upheavals A choice of language from phonological shibboleth Mandarin or Taiwanese to choice of official language cuts to the heart of contested cultural notions of self and other with profound implications for nationalism national unity and ethno linguistic purism Wei further argues that because of the Chinese Diaspora and Taiwan's connections to China and the United States arguments and sentiments over language choice and identity have consequences for Taiwan's international and transnational status They are symbolic acts of imagining Taiwan's past as she looks forward to the future

Robillard, 2018-12-07 We Find Ourselves in Other People's Stories On Narrative Collapse and a Lifetime Search for Story is a collection of five essays that dissolves the boundary between personal writing and academic writing a longstanding binary construct in the discipline of composition and writing studies in order to examine the rhetorical effects of narrative collapse on the stories we tell about ourselves and others Taken together the essays theorize the relationships between language and violence between narrative and dementia between genre and certainty and between writing and life
