When God Wanted to Destroy the Chosen People Gili Kugler, 2019-06-04 According to narratives in the Bible the threats of the people's end come from various sources but the most significant threat comes as learned from the Pentateuch from God himself What is the theological meaning of this tradition In what circumstances did it evolve How did it stand alongside other theological and socio political concepts known to the ancient authors and their diverse audience The book employs a diachronic method that explores the stages of the tradition's formation and development revealing the authors' exegetical purposes and ploys and tracing the historical realities of their time The book proposes that the motif of the threat of destruction existed in various forms prior to the creation of the stories recorded in the final text of the Pentateuch The inclusion of the motif within specific literary contexts attenuated the concept of destruction by presenting it as a phenomenon of specific moments in the past Nevertheless the threat was resurrected repeatedly by various authors for use as a precedent or a justification for present affliction

Great Minds Speak to You Tina Louise Spalding, 2013-09-26 Many in spirit look on these times of difficulty abundance trouble and innovation and wish to share with you their experiences and ideas Some famous names and faces will come to mind as you read this book and you will glean some fine information about their own learning their own suffering and indeed their own experience in the life after this life for they all wish to tell you that there is no death as you perceive it to be They are all there in their astral forms enjoying their continued growth their continued expansion and their continued joy in living Their messages are as varied as their lives were and our purpose is this For you to understand your true nature your true potential you must let go of your fear of death for it makes you afraid to live It causes you to rush and panic to

become scared and to become paralyzed If you truly understood that you are eternal beings forgiven for all your errors and blamed for nothing that you would call a sin you would open your hearts and minds to so much more and enjoy yourselves so much more You would not suffer so at the loss of your loved ones and you would work less and achieve more for when you are in fear and grief you are not yourselves and cannot achieve the goals that you have set for yourselves before you decided to be born onto this plane you call life Read this with an open mind and heart and hear what these beings have to say You have revered and reviled them in life now let them complete their stories in what you call death for that is the complete story is it not Ananda *Jefferson County, Pennsylvania her pioneers and people, 1800-1915* W.J. complex economies spread across North America So when Europeans showed up in the sixteenth century they encountered societies they did not understand those having developed differently from their own and whose power they often underestimated For centuries afterward Indigenous people maintained an upper hand and used Europeans in pursuit of their own interests In Native Nations we see how Mohawks closely controlled trade with the Dutch and influenced global markets and how Quapaws manipulated French colonists Power dynamics shifted after the American Revolution but Indigenous people continued to command much of the continent s land and resources Shawnee brothers Tecumseh and Tenskwatawa forged new alliances and encouraged a controversial new definition of Native identity to attempt to wall off U S ambitions The Cherokees created institutions to assert their sovereignty on the global stage and the Kiowas used their power in the west to regulate the passage of white settlers across their territory In this important addition to the growing tradition of North American history centered on Indigenous nations Kathleen DuVal shows how the definitions of power and means of exerting it shifted over time but the sovereignty and influence of Native peoples remained a constant and will continue far into the future An essential American history The Wall Street Journal

Autobiography as Indigenous Intellectual Tradition Deanna Reder, 2022-05-03 Autobiography as Indigenous Intellectual Tradition critiques ways of approaching Indigenous texts that are informed by the Western academic tradition and offers instead a new way of theorizing Indigenous literature based on the Indigenous practice of life writing Since the 1970s non Indigenous scholars have perpetrated the notion that Indigenous people were disinclined to talk about their lives and underscored the assumption that autobiography is a European invention Deanna Reder challenges such long held assumptions by calling attention to longstanding autobiographical practices that are engrained in Cree and M tis or n hiyawak culture and examining a series of examples of Indigenous life writing Blended with family stories and drawing on original historical research Reder examines censored and suppressed writing by n hiyawak intellectuals such as Maria Campbell Edward Ahenakew and James Brady Grounded in n hiyawak ontologies and epistemologies that consider life stories to be an intergenerational conduit to pass on knowledge about a shared world this study encourages a widespread re evaluation of past and present engagement with Indigenous storytelling forms across scholarly disciplines *Reference and Information Services* Kay Ann Cassell, Uma Hiremath, 2013 Search skills of today bear little resemblance to searches through print publications Reference service has become much more complex than in the past and is in a constant state of flux Learning the skill sets of a worthy reference librarian can be challenging unending rewarding and yes fun *Intermediate Care of Older People* Siân Wade, 2006-02-22 Intermediate care has become a buzzword within health and social care over the last few years Seen as the panacea for a number of woes particularly for older people intermediate care has been held up as a way forward within contemporary health and social care This text explores in detail what is understood by the concept of intermediate care and in particular ways in which the needs of older people can be best met by this new range of services Initial discussion centres on the concept of intermediate care and the motives for its development This is followed by a summary of the range of intermediate care services that have been developed with a discussion of some of the confusion that surrounds the concept The debate then moves on to centre on older people discussing first why older people have come to be

perceived as one of the main client groups that may benefit from intermediate care and then how intermediate care could be developed to better serve their needs An overview of ageing and the uniqueness of older people is then provided followed by an exploration of some of the challenges faced by older people within society and how this has extended into the delivery of health and social care
