Native American History Hourly History, 2019-08-05 *Native American History* Until surprisingly recently most history books noted that America was discovered in 1492 by Christopher Columbus The truth was that by the time that Columbus arrived in America people had been living there for more than 12 000 years During this time the indigenous people of North America lived without contact with other continents Different groups developed separate and distinct ways of life cultures and societies but all shared one common characteristic they relied on the land to provide them with food and they developed a series of religions that while separate shared a respect for nature and imbued many animals and natural features with spiritual characteristics These beliefs combined with the fact that most of these societies were relatively primitive compared to those emerging in other parts of the world meant that the Native Americans were able to live in harmony with the natural world These people had sophisticated and complex belief systems but they built no cities no wheeled vehicles and developed nothing beyond the most basic written language Although many millions of people lived in North America their impact on the landscape and the natural systems was minimal Then abruptly white settlers arrived bringing with them new technologies and weapons new religions and an indifference towards nature They also brought with them diseases to which the Native Americans had never before been exposed Within two hundred years the Native American population dwindled to a fraction of what it had been the survivors were herded onto reservations on which they could not follow their traditional ways of life and where they were

denied the most basic human rights Inside you will read about The Emergence of Native American Peoples and Cultures Life before the White Men European Settlers Arrive Early Wars in America American Expansion Ghost Dancing and the Wounded Knee Massacre And much more Only in the twentieth century did the population of Native American people begin to recover and only then did the general population of America begin to regard these cultured and sophisticated people as anything but savages This is the story of the gradual rise sudden destruction and slow recovery of the native people of North America

A New Order of the Ages Collin Robert Bowling,2011 For millennia the human race has been controlled and manipulated by forces beyond our own dimension or awareness A carefully managed human extra dimensional breeding program has produced a hybrid slave race that isn't aware of its true origins or fate Few know that these shadow puppeteers are actually in control or that they even exist They are not human but then again neither are we As the epic battle of consciousness expands into the outer dimensions we know that one thing is for certain When the Liberty Bell rings once again their empire will be reduced to a heap of ashes There will be an army of forces backed by the highest of forces in the heavens which will conduct this re awakening of the masses This story recounts the takeover of planet Earth by the Snake of Zion and shares everything you need to know to be truly free The battleground is within each of us and our captors are but a reflection of humanity Unless we change ourselves how will the reflection be changed Hopefully after this enduring encounter deep into the rabbit hole you will realize how this reality has been manipulated by forces in the fourth dimension In order to succeed we must propel ourselves through the heart chakra and into the fifth dimension where the beloved Terra will find the peace and dignity that she deserves The fate of the world hangs in the balance All we have to do now is make a choice
