Mab and the Biosphere (MAB) Programme

Meeting of the Bureau of the MAB International Co-ordinating Council

**UNESCO HQ (Room XVI, Bevin Building)
27-29 October 1997**

MAB AND THE WORLD SCIENCE CONFERENCE

Plans are taking shape for a "World Conference on Science for the 21st Century, a New Commitment", envisaged as a joint meeting of UNESCO and ICSU, to be organized in co-operation with the relevant intergovernmental organizations of the United Nations system, the International Social Science Council (ISSC), the Third World Academy of Sciences (TWAS), and other partners. Following discussions and recommendations of the International Scientific Advisory Board at its first meeting at UNESCO House in January 1997, plans have continued to take shape for the conference which is intended to give a needed and timely impetus to science and international scientific co-operation at the service of society. It has been proposed that the Conference meet for four days in June 1999, with a summary of the Conference's goals, structure, partnership and preparatory process set out in an information document prepared for the General Conference (document 29 C/INF/10, available).

In this context, the MAB Programme could take the opportunity to encourage the convening of a UNESCO International Meeting on the economic valuation of natural resources and ecosystem services with emphasis on societal and ethical dimension. This meeting could be entitled "Biosphere and Society" (Seville +5).
