Popstrology Ian van Tuyl, 2008-12-01 Which force was more likely to have penetrated your essence and shaped your destiny if you were born in February of 1964 the orbital shufflings of Mars and Jupiter or the explosive rise of the stars called the Beatles By linking your personality and potential to the star who ruled the pop universe at the moment of your birth Popstrology offers an entirely new approach to illuminating your spirit and your soul Could the roots of your chronic restlessness lie in the fact that you are a Commodore born in the Year of Debby Boone Could your crippling sexual inhibition result from being a Pat Boone born in the Year of Elvis Presley Yes they could Could Britney Spears have been born under the influence of anything other than Olivia Newton John's Physical No she couldn't Fresh funny and remarkably persuasive this groundbreaking book reveals the powers hidden in a galaxy of stars we all can name and in so doing gives us the right sign for modern times Ian Van Tuyl is a Double Monkee and the author of the original Princeton Review Guide to the Best U S Law Schools

Middle Voice Markus Steinbach, 2002-01-01 This book offers a completely new analysis of the syntax and semantics of transitive reflexive sentences in German which is embedded in the major phenomenon of the middle voice in Indo-European languages It integrates the interpretation of non-argument reflexives into a modified version of recent theories of binding The ambiguity of the reflexive pronoun is derived at the interface between syntax and semantics and does not rely on additional lexical or syntactic rules of argument suppression and argument promotion This shift towards the semantic interpretation of syntactic arguments enables the author to offer a unified analysis of the middle the anticausative and the reflexive interpretations Furthermore the crucial distinction between structural and oblique case forms is discussed and it is illustrated how specific properties of middle constructions such as adverbial modification or subject responsibility can be related to the generic interpretation of middle constructions

Local Music Scenes and Globalization Thomas Burkhalter, 2014-04-16 This book offers the first in-depth study of experimental and popular music scenes in Beirut looking at musicians working towards a new understanding of musical creativity and music culture in a country that is dominated by mass-mediated pop music and propaganda Burkhalter studies the generation of musicians born at the beginning of the Civil War in the Lebanese capital an urban and cosmopolitan center with a long tradition of cultural activities and exchanges with the Arab world Europe the US and the former Soviet Union These Lebanese rappers rockers death metal jazz and electro

acoustic musicians and free improvisers choose local and transnational forms to express their connection to the broader musical cultural social and political environment Burkhalter explores how these musicians organize their own small concerts for insider audiences set up music labels and network with like minded musicians in Europe the US and the Arab world Several key tracks are analyzed with methods from ethnomusicology and popular music studies and contextualized through interviews with the musicians Discussing key references from belly dance culture 1960s psychedelic rock in Beirut 1970s the noises of the Lebanese Civil war 1975 1990 and transnational Pop Avant Gardes and World Music 2 0 networks this book contributes to the study of localization and globalization processes in music in an increasingly digitalized and transnational world At the core this music from Beirut challenges ethnocentric perceptions of locality in music It attacks both Orientalist readings of the Arab world the Middle East and Lebanon and the focus on musical difference in Euro American music and culture markets On theoretical grounds this music is a small but passionate attempt to re shape the world into a place where modernity is not euro modernity or euro american modernity but where possible new configurations of modernity exist next to each other
