Gerard Mannion, Lewis S. Mudge

Pope Or Gospel The Crisis Of Faith In The Protestant Churches:

The Pope Gerhard Cardinal Muller, Gerhard Ludwig Müller, 2021-10-22 This book offers an introduction to the theological and historical aspects of the papacy an office and institution that is unique in this world Throughout its history up to our present time the Petrine ministry is both fascinating and challenging to people both inside and outside the Catholic Church Gerhard Cardinal Muller speaks from a particular and personal viewpoint including his experience of working closely with the pope every day as Prefect of the Congregation for the Doctrine of the Faith He addresses in particular those dimensions of the papal office which are crucial for understanding more deeply the pope as a visible principle of the church's unity 500 years after the Protestant reformation the book offers insights into the ecumenical controversies about the papacy throughout the centuries in their historical context The book also exposes prejudices and clichés and points to the authentic foundation of the Petrine ministry

The Dynamics and Contradictions of Evangelisation in Africa Peter Acho Awoh, 2011 This book critically discusses missionary Christianity and colonization in Africa as twin enterprises with a common ambition While the colonialist set out to invest capital and reap profit the missionary desire was to tend and turn African souls from damnation It was this desire that drove the missionaries into the interior propelled by the belief that no land was too remote to escape their attention and vigilance It equally kept missionary zeal buoyant The clarification of the concept of salvation within the Roman Catholic Church during the Vatican II Council set in motion the current lethargy that has in some places crippled the mission itself In retrospect one can begin to wonder why Africans became Christians What reasons motivated the early adherents to cling to this foreign religion Were there some internal deficiencies in African traditional religions which the Africans hoped to remedy by joining the new religion Or was it just part of the wholesale flirting with whatever was foreign and perceived to be modern What baits were used by the missionaries to entice Africans Christianity posed a danger to many of the time honoured answers to African problems These were the values Africans converting to Christianity were expected to abandon Why have Christians continually returned to their abandoned roots in time of crisis This moving well argued richly documented and empirically substantiated study concludes by cautioning against the stubborn drive at radical conversion to Christianity with scant regard to the imperatives of enculturation

Yves Congar's Vision of the Church in a World of Unbelief Gabriel Flynn, 2017-03-02 Yves Congar 1904 1995 was one of the chief architects of a remarkable renewal in Roman Catholic ecclesiology in the twentieth century His vision for ecclesial renewal led to a profound transformation of the Roman Catholic Church its relationship with other churches and the world This book considers the contribution made by Congar to that transformation Situating Congar's ecclesiology in the context of his whole theology the book presents for the first time a comprehensive study of two related aspects of Congar's thought unbelief and the notion of total ecclesiology Dr Flynn shows how unbelief provides the common inspiration for Congar's thought on the Church and constitutes the *raison d'être* for his entire programme of ecclesial reform at the Second Vatican Council This study

demonstrates how Congar's total ecclesiology contributes to the restoration of unity and helps to redress unbelief. Congar's vision for the future and his programme for ecclesial renewal centering on a church committed both to the preservation of its heritage and an openness to true reform is shown to be still pertinent to the churches in the third millennium a point accented by Pierre Marie Gy OP in his Preface to the work **Catholic Education** Joseph Domfeh Boateng, 2019-07-24 As an evangelizing arm of the church Catholic education plays an indispensable role in introducing young people to rudimentary elements of the Catholic faith as well as creating human and social capital In spite of the numerous contributions Catholic education has made in the area of socio economic development many people don't understand what Catholic education is nor appreciate its contribution in the character formation and overall enhancement of human capital This book is written to explain what Catholic education is its mission its identity and its challenges The audience the book seeks to serve includes diocesan policymakers and those in charge of in service training and formation programs aimed at enhancing the effectiveness of leadership practice in Catholic schools This book is also a useful resource for Catholic school leaders and administrators It is a must read for students undertaking graduate studies in Catholic school leadership and new emerging leaders and administrators in Catholic education **The Development of Moral Theology** Charles E. Curran, 2013-11-08 Charles Curran in his newest book *The Development of Moral Theology Five Strands* brings a unique historical and critical analysis to the five strands that differentiate Catholic moral theology from other approaches to Christian ethics sin and the manuals of moral theology the teaching of Thomas Aquinas and later Thomists natural law the role of authoritative church teaching in moral areas and Vatican II Significant changes have occurred over the course of these historical developments In addition pluralism and diversity exist even today as illustrated for example in the theory of natural law proposed by Cardinal Ratzinger In light of these realities Curran proposes his understanding of how the strands should influence moral theology today A concluding chapter highlights the need for a truly theological approach and calls for a significant change in the way that the papal teaching office functions today and its understanding of natural law In a work useful to anyone who studies Catholic moral theology *The Development of Moral Theology* underscores in the light of the historical development of these strands the importance of a truly theological and critical approach to moral theology that has significant ramifications for the life of the Catholic church **Popes, Councils, and Theology** Owen F. Cummings, 2021-06-15 Do you wish to understand something of the contemporary Catholic Church If you do then this book is for you It offers a careful overview of the history of the church from the mid nineteenth century with Pope Pius IX until the present day with Pope Francis It deals with two major councils of the church Vatican I 1869-70 and Vatican II 1962-65 Furthermore it provides a detailed and accurate summary of the major theological movements in the church during this period *A History of the Christian Church* Charles Hardwick, 1874 **Christianity, Empire and the Spirit** Néstor Medina, 2018-05-29 In *Christianity Empire and The Spirit* Néstor Medina uncovers the cultural processes that play a crucial role in influencing how people understand reality express the

Christian faith and think about God He uses decolonial thinking Latina o theology and Pentecostal theology to show how the cultural dimension is a central feature in the biblical text was the force that coopted Christianity from the imperial era of Constantine onwards and undergirded Western European colonialism and the missionary project He engages with Protestant and Catholic articulations on culture and demonstrates how most theologians perpetuate Eurocentric frames for considering the relation between Christianity and the cultural dimension Alternatively he offers a theological proposal that recognizes the Spirit at work in the phenomena of cultures Global Christianity Frans Jozef Servaas Wijsen,Robert J. Schreiter,2007 In 2002 Philip Jenkins wrote *The Next Christendom* Over the past half century the centre of gravity of the Christian world has moved decisively to the global South says Jenkins Within a few decades European and Euro American Christians will have become a small fragment of world Christianity By that time Christianity in Europe and North America will to a large extent consist of Southern derived immigrant communities Southern churches will fulfil neither the Liberation Dream nor the Conservative Dream of the North but will seek their own solutions to their particular problems Jenkins book evoked strong reactions a bit to his own surprise as the book contained little new In the United States of America the prospect of a more biblical Christianity caused reactions of alarm in liberal circles In contrast conservatives were delighted by the same prospect In Europe the book landed in the middle of the debate on Europe as an exceptional case It was detested by those who stick to the theory of ongoing and irreversible secularisation and welcomed by those who see a resurgence of religion also in Europe In the present volume scholars of religion and theologians assess the global trends in World Christianity as described in Philip Jenkins book It is the outcome of an international conference on Southern Christianity and its relation to Christianity in the North held in the Conference Centre of Radboud University Nijmegen the Netherlands *The Routledge Companion to the Christian Church* Gerard Mannion,Lewis S. Mudge,2007-12-12 Written by an international team of distinguished scholars this comprehensive book introduces students to the fundamental historical systematic moral and ecclesiological aspects of the study of the church as well as serving as a resource for scholars engaging in ecclesiological debates on a wide variety of issues
