Gorman, 1996 Since the late nineteenth century American intellectuals have consistently criticized the mass arts charging that entertainments ranging from popular theater motion pictures and dance halls to hit records romance novels and television are harmful to **The Cultural Front** Michael Denning, 1998 As garment workers

longshoremen autoworkers sharecroppers and clerks took to the streets striking and organizing unions in the midst of the Depression artists writers and filmmakers joined the insurgent social movement by creating a cultural front Disney cartoonists walked picket lines and Billie Holiday and Strange Fruit at the left wing cabaret Caf Society Duke Ellington produced a radical musical *Jump for Joy* New York garment workers staged the legendary Broadway revue *Pins and Needles* and Orson Welles and his Mercury players took their labor operas and anti fascist Shakespeare to Hollywood and made *Citizen Kane* A major reassessment of US cultural history The Cultural Front is a vivid mural of this extraordinary upheaval which reshaped American culture in the twentieth century American Culture, American Tastes Michael

Kammen, 2012-10-03 Americans have a long history of public arguments about taste the uses of leisure and what is culturally appropriate in a democracy that has a strong work ethic Michael Kammen surveys these debates as well as our changing taste preferences especially in the past century and the shifting perceptions that have accompanied them Professor Kammen shows how the post traditional popular culture that flourished after the 1880s became full blown mass culture after World War II in an era of unprecedented affluence and travel He charts the influence of advertising and opinion polling the development of standardized products shopping centers and mass marketing the separation of youth and adult culture the gradual repudiation of the genteel tradition and the commercialization of organized entertainment He stresses the significance of television in the shaping of mass culture and of consumerism in its reconfiguration over the past two decades Focusing on our own time Kammen discusses the use of the fluid nature of cultural taste to enlarge audiences and increase revenues and reveals how the public role of intellectuals and cultural critics has declined as the power of corporate sponsors and promoters has risen As a result of this diminution of cultural authority he says definitive pronouncements have been replaced by divergent points of view and there is as well a tendency to blur fact and fiction reality and illusion An important commentary on the often conflicting ways Americans have understood defined and talked about their changing culture in the
