Popular Culture Schooling And Everyday Life:

Popular Culture Henry A. Giroux, Roger Simon, 1989-07-28 Illuminating one of the most pervasive issues of our time Popular Culture is the first book to link the importance and implications of popular culture with pedagogical practice It shows how cultural forms such as Hollywood films pop music soap operas and televangelism are organized by gender age class race and ethnicity thus providing the contradictory text that both enables and disables emancipatory interest so fundamental to the formation of self and society What emerges is a redefinition of the very notion of popular culture

Tooning In Cameron White, Trenia Walker, 2008 A collection of eloquent essays Tooning In critically examines and interprets the concept of popular culture Many interesting works have addressed this subject but few have provided a critical perspective regarding the possibilities of popular culture as a tool for teaching and learning White and Walker suggest that popular culture is a vital aspect of contemporary life and can be wielded as a tool for efficacy and empowerment particularly among youth The book addresses such important questions as What is the role of popular culture in students lives What are the possibilities for popular culture in schooling and education What are the differences between traditional and transformative approaches to popular culture With essays specifically devoted to film music television games and other alternative popular culture texts Tooning In invites readers to re examine the fundamental aspects of popular culture as a societal force

Popular Culture, Piracy, and Outlaw Pedagogy Elizabeth Alford Pollock, 2014-05-05 Popular Culture Piracy and Outlaw Pedagogy explores the relationship between power and resistance by critiquing the popular cultural image of the pirate represented in Pirates of the Caribbean Of particular interest is the reliance on modernism s binary good evil Sparrow Jones how the films distinguish the two concepts characters via corruption and what we may learn from this structure which I argue supports neoliberal ideologies of indifference towards the piratical Other What became evident in my research is how the erasure of corruption via imperial and colonial codifications within seventeenth century systems of culture class hierarchies and language succeeded in its re presentation of the pirate and members of a colonized India as corrupt individuals with empire emerging from the struggle as exempt from that corruption This erasure is evidenced in Western portrayals of Somali pirates as corrupt Beings without any acknowledgement of transnational corporations role in provoking pirate resurgence in that region This forces one to re examine who the pirate is in this situation Erasure is also evidenced in current interpretations of both Bush s No Child Left Behind and Obama s Race to the Top initiative While NCLB created conditions through which corruption occurred I demonstrate how Race to the Top erases that corruption from the institution of education by placing it solely into the hands of teachers thus providing the institution a free pass to engage in any behavior it deems fit What pirates teach us then are potential ways to thwart the erasure process by engaging a pedagogy of passion purpose radical love and loyalty to the people involved in the educational process

Pop Culture and Power Dawn H. Currie, Deirdre M. Kelly, 2022-03-01 Literacy education has historically characterized mass media as manipulative towards

young people who as a result are in need of close reading skills By contrast *Pop Culture and Power* treats literacy as a dynamic practice shaped by its social and cultural context It develops a framework to analyse power in its various manifestations arguing that power works through popular culture not as everyday media *Pop Culture and Power* thus explores media engagement as an opportunity to promote social change Seeing pop culture as a teaching opportunity rather than as a threat Dawn H Currie and Deirdre M Kelly worked with K 12 educators to investigate how pop culture can support teaching for social justice Currie and Kelly began the research for this project with a teacher education seminar in media analysis where participants designed classroom activities using board games popular film music videos and advertisements These activities were later piloted in participants classrooms enabling the authors to identify and address practical issues encountered by student learners Case studies describe the design implementation and retrospective assessment of activities engaging learners in media analysis and production Following the case studies the authors consider how their approach can foster ethical practices when engaging in the digital environment *Pop Culture and Power* offers theoretically informed yet practical tools that can help educators prepare youth for engagement in our increasingly complex world of mediated meaning making

Handbook of Research in the Social Foundations of Education Steven Tozer, Bernardo P. Gallegos, Annette Henry, Mary Bushnell Greiner, Paula Groves Price, 2011-07-05 Parts one and two of this volume present the theoretical lenses used to study the social contexts of education These include long established foundations disciplines such as sociology of education and philosophy of education as well as newer theoretical perspectives such as critical race theory feminist educational theory and cultural studies in education Parts three four and five demonstrate how these theoretical lenses are used to examine such phenomena as globalization media popular culture technology youth culture and schooling This groundbreaking volume helps readers understand the history evolution and significance of this wide ranging often misunderstood and increasingly important field of study This book is appropriate as a reference volume not only for scholars in the social foundations of education but also for scholars interested in the cultural contexts of teaching and learning formal and informal It is also appropriate as a textbook for graduate level courses in Social Foundations of Education School and Society Educational Policy Studies Cultural Studies in Education and Curriculum and Instruction

Pop Culture in Language Education Valentin Werner, Friederike Tegge, 2020-11-23 *Pop Culture in Language Education* provides comprehensive insight on how studies of pop culture can inform language teaching and learning The volume offers a state of the art overview of empirically informed cutting edge research that tackles both theoretical concerns and practical implications The book focuses on how a diverse array of pop culture artifacts such as pop and rap music movies and TV series comics and cartoons fan fiction and video games can be exploited for the development of language skills It establishes the study of pop culture and its language as a serious subfield within language education and applied linguistics and explores how studies of pop culture its language and its non linguistic affordances can inform language education at various levels of

proficiency and with various learner populations Presenting a broad range of quantitative and qualitative research approaches including case studies on how pop culture has been used successfully in language education in and beyond the classroom this book will be of great interest for academics researchers and students in the field of language education applied linguistics psycholinguistics and sociolinguistics as well as for language teachers and materials developers

Education in an Age of Nihilism Nigel Blake,Paul Smeyers,Richard Smith,Paul Standish,2012-12-06 This book addresses concerns about educational and moral standards in a world increasingly characterised by nihilism On the one hand there is widespread anxiety that standards are falling on the other new machinery of accountability and inspection to show that they are not The authors in this book state that we cannot avoid nihilism if we are simply laissez faire about values neither can we reduce them to standards of performance nor must we return to traditional values They state that we need to create a new set of values based on a critical assessment of contemporary practice in the light of a number of philosophical texts that address the question of nihilism including the work of Nietzsche

The New Henry Giroux Reader Henry A. Giroux,2018-11-30 The New Henry Giroux Reader presents Henry Giroux s evolving body of work The book articulates a crucial shift in his analyses after the September 11th 2001 terrorist attack when his writing took on more expansive articulations of power politics and pedagogy that addressed education and culture in forms that could no longer be contained via isolated reviews of media schooling or pedagogical practice Instead Giroux locates these discourses as a constellation of neoliberal influences on cultural practices with education as the engine of their reproduction and their cessation The New Henry Giroux Reader also takes up Giroux s proclivity for using metaphors

articulating death as the inevitable effect of neoliberalism and its invasion of cultural policy. Zombies, entropy, and violence permeate his work, coalescing around the central notion that market ideologies are anathema to human life. His early pieces signal an unnatural state of affairs seeping through the fabric of social life, and his work in cultural studies and public pedagogy signals the escalation of this unease across educative spaces. The next sections take up the fallout of 9/11 as an eruption of these horrific practices into all facets of human life within traditional understandings of education and culture's broader pedagogical imperatives. The book concludes with Giroux's writings on education's vitalist capacity, demonstrating an unerring capacity for hope in the face of abject horror. Perfect for courses such as History and Philosophy of Education, Political and Social Foundations of Education, Policy Issues in American Education, African American Education, Social Justice Research in Education, Marginality and the Politics of Resistance, Equity and Anti Oppression, Cultural Studies, and Public Pedagogy.
