Popular Fiction By Women 1660 1730 An Anthology:

Popular Fiction by Women, 1660-1730 Paula R. Backscheider, John J. Richetti, 1996 Though strikingly varied in narrative format and purpose ranging as they do from the erotic and sensational to the sentimental and pious they offer a distinct fictional approach to the moral and social issues of the age from a female standpoint **English Women's Poetry, 1649-1714** Carol Barash, 1996 **Popular Fiction by Women 1660-1730** Benjamin-Cummings Publishing Company, 1998-02-01 **Romance for Sale in Early Modern England** Steve Mentz, 2017-09-29 The major claim made by this study is that early modern English prose fiction self consciously invented a new form of literary culture in which professional writers created books to be printed and sold to anonymous readers It further claims that this period s narrative innovations emerged not solely from changes in early modern culture like print and the book market but also from the rediscovery of a forgotten late classical text from North Africa Heliodorus s Aethiopian History In making these claims Steve Mentz provides a comprehensive historicist and formalist account of prose romance the most important genre of Elizabethan fiction He explores how authors and publishers of prose fiction in late sixteenth century England produced books that combined traditional narrative forms with a dynamic new understanding of the relationship between text and audience Though prose fiction would not dominate English literary culture until the eighteenth century Mentz demonstrates that the form began to invent itself as a distinct literary kind in England nearly two centuries earlier Examining the divergent but interlocking careers of Robert Greene Sir Philip Sidney Thomas Lodge and Thomas Nashe Mentz traces how through differing commitments to print culture and their respective engagements with Heliodoran romance these authors helped make the genre of prose fiction culturally and economically viable in England Mentz explores how the advent of print and the book market changed literary discourse influencing new conceptions of what he calls middlebrow narrative and new habits of reading and writing This study draws together three important strains of current scholarly inquiry the history of the book and print culture the study of popular fiction and the re examination of genre and influence It also connects early modern fiction with longer histories of prose fiction and the rise of the modern novel **The History of British Women's Writing, 1690 - 1750** R. Ballaster, 2010-09-10 This volume charts the most significant changes for a literary history of women in a period that saw the beginnings of a discourse of enlightened feminism It reveals that women engaged in forms old and new seeking to shape and transform the culture of letters rather than simply reflect or respond to the work of their male contemporaries **The History of Miss Betsy Thoughtless** Eliza Haywood, 1998-05-25 Prolific even by eighteenth century standards Eliza Haywood was the author of more than eighty titles including short fiction novels periodicals plays poetry and a political pamphlet for which she was briefly jailed From her early successes most notably Love in Excess to later novels such as Betsy Thoughtless her best known work she remained widely read yet sneered at as a stupid infamous scribbling woman by the likes of Swift and Pope Betsy Thoughtless is the story of the slow metamorphosis of the heroine from thoughtless coquette to

thoughtful wife Ironically the most decisive moment in this development may be when Betsy decides to leave her emotionally abusive and financially punishing husband it is only after experiencing independence that she returns to her marriage and to what becomes her husband's deathbed Betsy Thoughtless may be the first real novel of female development in English In this edition the text is accompanied by appendices including writings from the period that shed light on Haywood's life and work and on her relationship with contemporaries such as Henry Fielding

The English Novel, 1700-1740 Robert Letellier, 2003-02-28 The English novel written between 1700 and 1740 remains a comparatively neglected area In addition to Daniel Defoe whose Robinson Crusoe and Moll Flanders are landmarks in the history of English fiction many other authors were at work These included such women as Penelope Aubin Jane Barker Mary Davys and Eliza Haywood who made a considerable contribution to widening the range of emotional responses in fiction These authors and many others continued writing in the genres inherited from the previous century such as criminal biographies the Utopian novel the science fictional voyage and the epistolary novel This annotated bibliography includes entries for these works and for critical materials pertinent to them The volume first seeks to establish the existing studies of the era along with anthologies It then provides entries for a wide ranging selection of works which cover fictional theoretical historical political and cultural topics to provide a comprehensive background to the unfolding and understanding of prose fiction in the early 18th century This is followed by an alphabetical listing of novels their editions and any critical material available on each The next section provides a chronological record of significant and enduring works of fiction composed or translated in this period The volume concludes with extensive indexes
