

DEVELOPMENT IN AN ERA OF DEMOGRAPHIC CHANGE

WORLD BANK GROUP

1

Global demographic change is pronounced: the working-age share has peaked, the overall population is growing much more slowly and is aging at record speed.

2

Underneath global trends lies stark diversity, with countries facing different opportunities to capture demographic dividends.

Population Policies and Economic Development ,1975 **Population Policies and Economic Development** World Bank Staff,1974 *Environmental Problems in Third World Cities* Jorge E. Hardoy,Diana Mitlin,David Satterthwaite,2024-02-02 Describes and analyses the environmental problems of Third World cities showing how they affect human health and the local ecology The authors show how readily available practical solutions are if the political means can be found **World Development Report 2013** World Bank,2012-10-15 Jobs provide higher earnings and better benefits as countries grow but they are also a driver of development Poverty falls as people work their way out of hardship and as jobs empowering women lead to greater investments in children Efficiency increases as workers get better at what they do as more productive jobs appear and less productive ones disappear Societies flourish as jobs bring together people from different ethnic and social backgrounds and provide alternatives to conflict Jobs are thus more than a byproduct of economic growth They are transformational they are what we earn what we do and even who we are High unemployment and unmet job expectations among youth are the most immediate concerns But in many developing countries where farming and self employment are prevalent and safety nets are modest are best unemployment rates can be low In these countries growth is seldom jobless Most of their poor work long hours but simply cannot make ends meet And the violation of basic rights is not uncommon Therefore the number of jobs is not all that matters jobs with high development payoffs are needed Confronted with these challenges policy makers ask difficult questions Should countries build their development strategies around growth or should they focus on jobs Can entrepreneurship be fostered especially among the many microenterprises in developing countries or are entrepreneurs born Are greater investments in education and training a prerequisite for employability or can skills be built through jobs In times of major crises and structural shifts should jobs not just workers be protected And is there a risk that policies supporting job creation in one country will come at the expense of jobs in other countries The World Development Report 2013 Jobs offers answers to these and other difficult questions by looking at jobs as drivers of development not as derived labor demand and by considering all types of jobs not just formal wage employment The Report provides a framework that cuts across sectors and shows that the best policy responses vary across countries depending on their levels of development endowments demography and institutions Policy fundamentals matter in all cases as they enable a vibrant private sector the source of most jobs in the world Labor policies can help as well even if they are less critical than is often assumed Development policies from making smallholder farming viable to fostering functional cities to engaging in global markets hold the key to success Population and Development ,1994-01-01 This report was prepared for the International Conference on Population and Development held in Cairo Egypt in September 1994 The study explains why slowing population growth is still a high priority for the poorest countries how population policy can be integrated with social policies how population programs can provide the poor with appropriate services why country specific strategies are

needed and what other demographic issues are becoming more significant Chapters are also included on population trends in developing countries demand and supply factors in fertility transitions integrated approaches to reproductive health and implications for the World Bank Excerpt Resources in Education ,2000 *American Book Publishing Record Cumulative, 1950-1977* R.R.
