Population And Development In Bihar:

Population and Development in Bihar U. P. Sinha, R. K. Sinha, 1994 Papers presented at a seminar organized by the International Institute for Population Sciences Bombay *Regional Development: Theory and Practice* Baleshwar Thakur, H. S. Sharma, Suresh Misra, S. Chattopadhyay, Surendra Singh, 2017-01-01 The Five Volume Series on Regional Development Theory and Practice is a festschrift dedicated to Professor R P Misra a distinguished scholar widely recognized as one of the pioneers who initiated and promoted Regional Planning studies in India This five volume series with over one hundred research papers on different aspects of regional development is a fitting tribute to the scholar who spent much of his life time thinking researching and writing about development in general and regional development in particular These five volumes each dealing with a specific aspect of regional development Vol 1 Concept of Regional Development Vol 2 Measuring Development Vol 3 Development Patterns and Structures Vol 4 Development Policies and Vol 5 Development Challenges Each of the five volumes begins with an introduction which is unique in the sense that this is not merely an introduction to the contributions contained in the volume but also talks of the theory of regional development contemporary development in the discipline and the contrarian views expressed by various academics and policy makers Another significant aspect of these introductions is the global view and a comparative scenario of the developed developing and under developed economies of the world that the editors have kept in view in a debate seeking an universal theory of regional development Regions are specifics and often unique and regional development implies focusing on the assets of the territory its potential and constraints *Dynamics of Urban Development in Less Developed States of India* Dr. Abhay Krishna Singh, 2016-12-12 This book is an endeavor to look into the various aspects of urbanisation and its dynamics The work offers policy alternatives for the sustainable Urban Planning and Development in less developed States of India **Challenges in Rural Development** H. K. Sinha, 1998 Papers presented at a seminar during 1994 at Patna India Urban and Regional Development in India Baleshwar Thakur, 2005 Festschrift volume to Lakshmi Niwas Ram b 1937 geographer from Bihar India contributed articles **Indian Economy & Social Development** YCT Expert Team, 2021 22 All IAS PCS Indian Economy Social Development Chapter wise Solved Papers Inclusive Growth and Development in India Y. Tsujita, 2014-08-22 India is one of the fastest growing countries in the world However high economic growth is accompanied by social stratification and widening economic disparity between states This book illustrates some important aspects of underdevelopment and the process by which the underclass is left behind by focusing on the country s most neglected regions **Gandhian Perspectives on Population and Development** A. K. Sharma, 1996 **Sustainable Urbanization in India** Jenia Mukherjee, 2017-10-06 This comprehensive volume contributes to the existing and emerging body of literature on contemporary urbanization and the interactions between cities and the environment The volume is contextualized against latest theories debates and discussions on sustainable urbanization the post 2015 development agenda of the United Nations

and India's official launching of the smart city agenda. Reflecting on three major components of urban sustainability—investments and infrastructures, waste management and urban ecologies, and environmentalisms—it moves beyond the bi-centric approach of only looking into the differences between the developed and the developing world and reflects on cities across India using polycentric methods and approaches. The Indian urban scenario is extremely complex and diverse, and solutions laid out in official and non-official documents tend to miss these complexities. This volume includes innovative research across different parts of India, identifying city-specific sources of unsustainability and challenges along with strategies and potentials that would make the process of urban transition both sustainable and equitable. Complex explorations of non-linear, bottom-up, multisectoral, process-based local urban contexts across north, south, east, and west Indian cities in this volume critique a general acceptance of the universalized concept of sustainable urbanization and suggest ways that might be important for transcending inclusive theories to form practical, policy-based recommendations and actions.
