Van de Ven, 2004-08-26 In a world of organizations that are in constant change scholars have long sought to understand and explain how they change This book introduces research methods that are specifically designed to support the development and evaluation of organizational process theories The authors are a group of highly regarded experts who have been doing collaborative research on change and development for many years

Samantaray, 2017-05-31 **The Strategic Management of Intellectual Capital and Organizational Knowledge** Chun Wei Choo, Nick Bontis, 2002-04-04 This book is the first to present a review and synthesis of the research in knowledge management and strategy management The readings in this book will help readers get an understanding of the best methods to create and apply knowledge in order to sustain superior organizational performance **Strategizing, Disequilibrium, and Profit** John Alwyn Mathews, 2006 This book outlines a conceptual framework within which strategizing by firms takes place in the same conditions of turbulence that are found in the real economy The framework accommodates strategizing around issues of

innovation networks formation entrepreneurship extension of value chains and other phenomena that do not fit easily into conventional equilibrium based settings **Population-Level Learning and Industry Change** ,1999-09-23 Looks at the noble tradition of giving advice on strategic management and organizational learning by exploring some elements of fundamental knowledge that might inform such advice **Learning by Example** David Strang,2016-06-28 In business as in other aspects of life we learn and grow from the examples set by others Imitation can lead to innovation But in order to grow innovatively how do businesses decide what firms to imitate And how do they choose what practices to follow Learning by Example takes an unprecedented look at the benchmarking initiative of a major financial institution David Strang closely follows twenty one teams of managers sent out to observe the practices of other companies in order to develop recommendations for change in their own organization Through extensive interviews surveys and archival materials Strang reveals that benchmarking promotes a distinctive managerial regime with potential benefits and pitfalls He explores the organizations treated as models of best practice the networks that surround a bank and form its reference group the ways managers craft calls for change and the programs implemented in the wake of vicarious learning Strang finds that imitation does not occur through mindless conformity Instead managers act creatively combining what they see in external site visits with their bank s strategic objectives interpreted in light of their understanding of rational and progressive management Learning by Example opens the black box of interorganizational diffusion to show how managers interpret advocate and implement innovations **The Entrepreneurship Dynamic** Claudia Bird Schoonhoven,Elaine Romanelli,2001 New organizations do not emerge full blown from the idiosyncratic minds of individual entrepreneurs Their ideas for new organizations their ability to acquire capital and other essential resources and their likelihood of survival as entrepreneurs derive from the contexts in which they live and work The Entrepreneurship Dynamic explores the conditions that prompt the founding of large numbers of new organizations or entirely new industries and the effects on existing industries economies and societies
