Heritage Comics Auctions, 2005 Larry Jacobs Catalog #816 Ivy Press, 2005-03 Expanding Adaptation Networks Kate Newell, 2017-05-22 This book addresses print based modes of adaptation that have not conventionally been theorized as adaptations such as novelization illustration literary maps pop up books and ekphrasis It discusses a broad range of image and word based adaptations of popular literary works among them The Wizard of Oz Alice in Wonderland Daisy Miller The Strange Case of Dr Jekyll and Mr Hyde Moby Dick and Adventures of Huckleberry Finn The study reveals that commercial and franchise works and ephemera play a key role in establishing a work's iconography Newell argues that the cultural knowledge and memory of a work is constructed through reiterative processes and proposes a network based model of adaptation to explain this Whereas most adaptation studies prioritize film and television this book's focus on print invites new entry points for the study of adaptation Pop-up and Movable Books Ann Rothwell Montanaro, 1993 For historians of printing and book design students of children's literature and book collectors this record of 19th and 20th century English language books containing movable illustrations identifies indexes and describes some 1 600 titles The volume is arranged alphabetically by title and has three separate indexes sorted by publication date personal names of contributors and series titles Annotation copyright by Book News Inc Portland OR **Playing with the Book** Hannah Field, 2019-07-02 A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull pages that could fold out pop up scenes and even mechanical toys mounted on pages Analyzing books for young children published between 1835 and 1914 Playing with the Book studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is particularly in relation to children's literature and child readers Novelty books promised or threatened to make reading a physical as well as intellectual activity requiring the child to pull a tab or lift a flap to continue the story These books changed the relationship between pictures words and format in both productive and troubling ways Hannah Field considers these aspects of children's reading through case studies of different formats of

novelty and movable books and intensive examination of editions that have survived from the nineteenth century She discovers that children ripped tore and colored in their novelty books despite these books explicit instructions against such behaviors Richly illustrated with images of these ingenious constructions Playing with the Book argues that novelty books construct a process of reading that involves touch as well as sight thus reconfiguring our understanding of the phenomenology of reading
