Port Arthur A Historical Narrative:

Port Arthur, a Historical Narrative Aleksandr Stepanov, 1947 **Tombs and Transnational History in Greater China** Gotelind Müller, 2022-08-09 This collection of case studies is concerned with tombs that testify to transnational history. Special attention is given to tombs of Westerners and Russians still extant in Greater China but also to those of some noted Chinese who were involved in transnational history during the 20th century. Tombs have a special potential to cast familiar things in a new light. They also provide the possibility to counter check received narratives which might have been tailored along certain vested interests and circulated with specific target groups in mind. Gotelind Müller is Professor of Chinese Studies at the University of Heidelberg. Port Arthur Aleksandr Stepanov, 1947 *Historical Fiction Chronologically and Historically Related* James Ross Kaye, 1920 *A Socialist Realist History?* Kristina Jõekalda, Krista Kodres, Michaela Marek, 2019-06-17 How did the Eastern European and Soviet states write their respective histories of art and architecture during 1940s 1960s? The articles address both the Stalinist period and the Khrushchev Thaw when the Marxist Leninist discourse on art history was invented and refined. Although this discourse was inevitably Sovietized in a process dictated from Moscow a variety of distinct interpretations emerged from across the Soviet bloc in the light of local traditions, cultural politics and decisions of individual authors. Even if the new official discourse often left space open for national concerns it also gave rise to a countermovement in response to the aggressive ideologization of art and the preeminence assigned to Socialist Realist aesthetics. *Cultural Landscapes* Richard W. Longstreth, 2008 Preservation has traditionally focused on saving prominent buildings of historical or architectural significance. Preserving cultural landscapes, the combined fabric of the natural and man made environments, is a relatively new and often misunderstood idea among preservationists but it is of increasing importance. The essays collected in this volume are case studies that include the Little Tokyo neighborhood in Los Angeles, the Cross Bronx Expressway and a rural island in Puget Sound. They underscore how this approach can be fruitfully applied. Together they make clear that a cultural landscape perspective can be an essential underpinning for all historic preservation projects. With a keen historical lens, Coltman combines meticulous research with a gripping literary style, weaving together personal accounts and broader

socio political contexts The book adeptly explores the motivations of the Boxers the response of foreign powers and the resulting chaos painting a multifaceted picture of resistance against imperialism and cultural encroachment Robert Coltman a renowned historian with a profound interest in early 20th century conflicts draws upon his extensive background in Sino Western relations to illuminate the struggles faced by the Chinese populace during this period His scholarly endeavors have long been rooted in uncovering marginalized voices in historical narratives which shapes his empathetic portrayal of the Boxers fight for nationalism and sovereignty against foreign dominance I highly recommend Beleaguered in Peking not only to academics and students of history but also to general readers intrigued by the collision of cultures Coltman s engaging prose and detailed examination make this work an essential addition to any library providing insights into a pivotal moment in history that continues to resonate in contemporary discussions on colonialism and resistance

Our Library Library Association (Portland, Or.), Library Association of Portland, 1907 History and Myth in Pictorial Narratives of the Russian 'Patriotic War', 1812-1914 Andrew M. Nedd, 2024-07-08 This book reveals that the visual narrative of the events of the Russian campaign of 1812 was inextricably linked to Russia s search for national identity and helped to form competing definitions of Russianness No pre revolutionary military event was more celebrated in Russian literature and art than the Patriotic War of 1812 during which Napoleon advanced his Grand Arm e into Russia only to retreat months later in defeat as his army faced starvation and capture during the brutal winter The works of art that retold the story of 1812 extolled virtues that were represented as inherently Russian courage resourcefulness and unity Furthermore these values were increasingly contrasted with those of the foreign invader from the west While the emphasis is largely on academic painting this book also explores popular media and memorialization in order to reveal the role that images played in the process of constructing identities in nineteenth century Russia
