Portrait In Progress:

American Progress Richard Miller Devens, 1892 *Current History*, 1927 *The Gallery of Portraits (Vol. 1-7)* Arthur Thomas Malkin, 2023-11-16 Arthur Thomas Malkin's monumental work *The Gallery of Portraits Volumes 1-7* stands as a testament to the biographical tradition of 19th century literature meticulously chronicling the lives and contributions of significant historical and contemporary figures. With an engaging prose style that combines vivid imagery and comprehensive detail, Malkin invites readers into the intimate landscapes of his subjects' lives, discussing their influence on society, culture, and the arts. The structure of the work, comprising multiple volumes, allows for a nuanced exploration of personal anecdotes and historical contexts, highlighting the interconnectedness of individual lives and global events during a period of profound change in England and beyond. Malkin, an accomplished scholar and a keen observer of human character, draws upon his extensive education and intellectual curiosity to breathe life into the narratives of his portraits. His background in the arts and history likely informed his approach as he sought to illuminate the complexities and subtleties of notable figures, from politicians to artists. Malkin's ability to weave intricate details into broader societal frameworks reflects his commitment to both the individual and the collective story of humanity. For those who appreciate well-researched biographies enriched with eloquent prose, *The Gallery of Portraits* offers a captivating journey through time, elevating the study of biography to an art form. This work is highly recommended for historians, literary enthusiasts, and anyone intrigued by the tapestry of human experience.

Current History and Forum ..., 1929 **Process Photograph**, 1895 *Portraiture and Politics in Revolutionary France* Amy Freund, 2015-06-13 *Portraiture and Politics in Revolutionary France* challenges widely held assumptions about both the genre of portraiture and the political and cultural role of images in France at the beginning of the nineteenth century. After 1789, portraiture came to dominate French visual culture because it addressed the central challenge of the Revolution: how to turn subjects into citizens. Revolutionary portraits allowed sitters and artists to appropriate the means of representation, both aesthetic and political, and articulate new forms of selfhood and citizenship, often in astonishingly creative ways. The triumph of revolutionary portraiture also marks a turning point in the history of art when seriousness of purpose and aesthetic ambition passed from the formulation of historical narratives to the depiction of contemporary individuals. This shift had major consequences for the course of modern art production and its engagement with the political and the contingent.
