Pursuit Of Certainty:

The Pursuit of Certainty. David Hume, Jeremy Bentham, John Stuart Mill, Beatrice Webb. [With Portraits.]. Shirley Robin Letwin,1965 **The Pursuit of Certainty** Shirley Robin Letwin,1965 The Pursuit of Certainty Shirley Robin Letwin,1993 Towards New Ways of Terminology Description Rita Temmerman,2000-01-01 This title questions the validity of traditional terminology theory The author s findings are that the traditional approach impedes a pragmatic and realistic description of a large number of categories of terms **The pursuit of certainty** David Hume,1965 *The Place of the Explained Verdict in the English Criminal Justice System: Decision-making and Criminal Trials* Bethel G. A. Erastus-Obilo,2008-10-30 Lay participation in the criminal justice process in the form of a jury is a celebrated phenomenon throughout the common law jurisdictions While not claiming credit for its origin England as the latent cradle of the modern jury disseminated this mode *Pursuit of Certainty* Letwin,1965-01 *Reason Curve, Jury Competence, and the English Criminal Justice System* Bethel Erastus-Obilo,2009 Reason Curve Jury Competence and the English Criminal Justice System a cross jurisdictional and cross disciplinary book seeks to stimulate discussion and extend the debate in the area of criminal trials in light of the absence of an articulated explanation for a verdict The book traces the history and development of the jury from the Carolingian kings its advancement in the English Courts following papal intervention the impact of the Magna Carta to its general use current curtailment in England and Wales and re emergence in Continental Europe Central to the book s submission is the dictum that the jurors franchise to deliver a cryptic verdict is a matter between them and their conscience In light of human and civil rights movements the book advances arguments that a cryptic verdict may offend the principle of fair trials in criminal justice This is amplified by the presence of a developing and significant body of law that demands that decisions by public officers be accompanied by articulated pronouncements regarding the basis for their decision While the book does not contend with the sanctity of jury deliberations and recognizes the difficulties associated with reason articulation by lay assessors it argues that the jury continuum provides a fertile ground not only for articulating a verdict in light of human experiences but also for generating the reason curve which provides legitimacy for that verdict Furthermore the reason curve argues that it is entirely possible for the jury to articulate its reasons provided the Criminal Justice System makes provisions not just to expect an explained verdict from the jury but also provides it with the necessary facilities needed for compliance Exploring research and sources in the fields of law and psychology in Europe the USA and other jurisdictions around the world this book is written for an international audience as a catalyst for the student of legal jurisprudence who has interests in the concepts of reason accountability transparency and human rights in the criminal justice system It is also written for the cognitive and behavioral psychologist with an interest in lay decision making in criminal trials In the large legal jurisdictions of the USA and Canada the right to a jury trial is enshrined in state articles As such there is less tinkering with the institution In England and Wales where Parliament is supreme and the constitution is

unwritten no such right exists Consequently the government enjoys tremendous leeway in tinkering with the right to jury trial Whether or not the institution can evolve to deliver a 21st Century approach is a matter for full debate research and the march of time

Christian Conversion Walter E. Conn, 2006-07-01 Walter Conn has provided us with something we have needed for a long time a scholarly study of Christian conversion that draws synthetically from present day psychology philosophy and theology and uses these insights to analyze actual Christian religious experience And in doing that Conn has produced what is probably the best treatment to date of foundational moral theology To follow Conn through the pages of this volume is to become acquainted with most of today's important reflection on human moral and personal development But one emerges with much more than relevant information about what is being said Conn's own view of conversion goes beyond the thinkers from whom he draws and provides a basic challenge to and enrichment of our understanding of faith and morality Bernard Cooke Holy Cross College Walter E Conn is Professor of Theology and Religious Studies at Villanova University He is also the editor of Horizons journal of the College Theology Society

Social Work and Child Abuse Dave Merrick, 2006-09-08 While social work practice with child abuse is a well documented topic this revised edition of Social Work and Child Abuse actually challenges and changes the focus of existing literature Instead of concerning itself with the ways in which the task of preventing and detecting child abuse can be more effectively undertaken it presents a critical analysis of the task itself There has been much new guidance and regulation since the first edition of Social Work and Child Abuse was published in 1996 making this a timely new edition With a brand new introduction and conclusion this fully revised text discusses the implications of the Victoria Climbié Inquiry the Laming Report the Green Paper Every Child Matters and the 2004 Children Act the 1989 Children Act and the conflicting duties of the social worker to prevent and intervene in child abuse and also to promote the family the emergence of official discourses of prevention treatment and punishment the 1975 Children Act and the role of moral panic Concluding with a call for the full implementation of the UN Convention on the Rights of the Child to

strengthen the child protection system by giving children and young people a much stronger voice this book is essential reading for all professionals in social and probation work and for students in social work social policy and criminology

Learning, Teaching and Education Research in the 21st Century Joanna Swann,2011-12-15 Learning Teaching and Education Research in the 21st Century draws on Karl Popper s evolutionary epistemology and challenges widespread assumptions about learning teaching and research that are embedded in the practices of many teachers and in the design of most education institutions worldwide Joanna Swann argues that to promote the growth of learning we need to encourage children and adolescents to exercise and develop creativity and criticality and that we need to provide and maintain environments in which they can safely engage in self initiated and self directed exploratory activity In accessible and engaging language the author presents philosophical arguments that support the defence and development of non authoritarian approaches to learning and teaching that can be used by individuals and groups working in or outside state funded schools In particular she provides tried and tested guidelines for student initiated curricula and a problem based methodology for professional development and action research

 Stanislava Nedeva,2024-03-14 This rigorous book explores the opposing investor state relationship and argues that a stable
 investment environment is achieved when the rights of both parties are recognised and balanced Stanislava Nedeva
 examines how both certainty and predictability can be achieved in oil and gas investment agreements and identifies the ways
 in which political risks to contractual stability and indirect expropriation can be mitigated **The Future of Religion** Ralph
 H. Johnson,Paul Rennick,2020-05-15 Religion evokes strong emotions and raises hard questions This volume addresses many
 of the contentious elements that religion provokes and challenges some of the easy answers contemporary society has
 produced The frequent and often facile dictum about the separation of church and state when examined closely may prove to
 contribute to the erosion of some of our most cherished human values rather than to their preservation The science versus
 religion dichotomy is dogma for many yet the empiricism that is the hallmark of scientific method and knowledge can be
 singularly absent from positions that claim to be science The current spate of attacks against God and religion that are now
 commonplace when critically scrutinized often fail to provide compelling arguments or even to be as objective as their
 authors claim These and other explorations are the focus of this book From the Forward in which Charles Kimball challenges
 the West to re evaluate its perspective and understanding of the East particularly Islam to the Afterword in which theologian
 Gregory Baum chronicles the extraordinary reversal of sociology s estimation of religion the invitation from this volume to all
 of us is to review our pieties and presuppositions as we reflect on the future of religion *The Ethics of Vulnerability* Erinn
 Gilson,2013-12-17 As concerns about violence war terrorism sexuality and embodiment have garnered attention in
 philosophy the concept of vulnerability has become a shared reference point in these discussions As a fundamental part of
 the human condition vulnerability has significant ethical import how one responds to vulnerability matters whom one
 conceives as vulnerable and which criteria are used to make such demarcations matters how one deals with one s own

vulnerability matters and how one understands the meaning of vulnerability matters Yet the meaning of vulnerability is commonly taken for granted and it is assumed that vulnerability is almost exclusively negative equated with weakness dependency powerlessness deficiency and passivity This reductively negative view leads to problematic implications imperiling ethical responsiveness to vulnerability and so prevents the concept from possessing the normative value many theorists wish it to have When vulnerability is regarded as weakness and concomitantly invulnerability is prized attentiveness to one's own vulnerability and ethical response to vulnerable others remain out of reach goals Thus this book critiques the ideal of invulnerability analyzes the problems that arise from a negative view of vulnerability and articulates in its stead a non dualistic concept of vulnerability that can remedy these problems
