Reis, Susan Sprecher, 2009-03-15 Library Journal Best Reference 2009. An excellent gateway to further examination of any of the subdisciplines of relationship science or as a research tool in its own right. Library Journal Relationships are fundamental to nearly all domains of human activity from birth to death. When people participate in healthy, satisfying relationships, they live, work, and learn more effectively. When relationships are distressed or dysfunctional, people are less happy, less healthy, and less productive. Few aspects of human experience have as broad or as deep effects on our lives. The *Encyclopedia of Human Relationships* offers an interdisciplinary view of all types of human associations: friends, lovers, spouses, roommates, coworkers, teammates, parents and children, cousins, siblings, acquaintances, neighbors, business associates, and so forth. Although each of these connections is unique in some respect, they share a common core of principles and processes. These three volumes provide a state-of-the-art review of the extensive theories, concepts, and empirical findings about human relationships. Key Features: Compiles leading-edge information about how people think, feel, and act toward each other. Presents the best in the field: authors who have contributed significant scientific knowledge about personal relationships over the past several decades. Offers a diverse approach to relationship science with contributions from psychology, sociology, communication, family studies, anthropology, physiology, neuroscience, history, economics, and legal studies. Key Themes: Cognitive Processes in Relationships; Communication Processes; Creating and Maintaining Closeness; Dating, Courtship, and Marriage; The Dark Side of Relationships; Emotion Processes in Relationships; Family, Friendship, and Caregiving in Adulthood; Health and the Biology of Relationships; Methods for Studying Relationships; Personality and Individual Differences; Prevention and Repair of Relationship Problems; Psychological Processes; Sexuality; Social Context of Relationships; Social Relations in Childhood and Adolescence; Theoretical Approaches to Studying Relationships; Types of Relationships. Our relationships influence virtually all aspects of our everyday existence and are of deep interest to students, researchers, academics, and laypeople alike. This Encyclopedia is an invaluable addition to any academic or public library. **Passion Pursuit** Linda Dillow, Dr. Juli

Slattery, 2013-07-22 A Bible study about sex for women. Now that's different. This new study, *Passion Pursuit: What Kind of Love Are You Making?* lets God's Word speak about sex as being holy and erotic, blessed by God and satisfying far beyond

what the world can even imagine Picture that as a headline on the cover of Cosmopolitan By using scripture throughout the Bible Passion Pursuit not only urges women to pursue passion but details how God has given them permission to do so Though there is fun to be had along the way in this study it hits hard on the questions women have but are hesitant to ask like What does God say is okay and not okay in the bedroom I m 54 years old how can my husband still be attracted to me Why did God make men and women so different This audaciously bold study combines the psychological expertise of Dr Juli Slattery formerly of Focus on the Family along with moving stories from trusted Bible teacher and best selling author Linda Dillow The groups who have already done this study have seen their marriages come alive whether they ve been married four months or forty years be next PLUS Check out the Passion Pursuit DVD for even more great teaching from Lisa Dillow and Dr Slattery It s the perfect resource for individuals or small groups **In Pursuit of Intimacy** Emily Keiter,2003

Cognition in Close Relationships Garth J.O. Fletcher, Frank D. Fincham, 2013-05-13 The past decade has witnessed an explosion of interest and research on close relationships and social cognition In both areas numerous handbooks textbooks and journal articles have been published However it is the editors impression that although cognitive theories and concepts have filtered through to research dealing with close relationships much of this research reflects a relatively untutored understanding of the theoretical and empirical work in social cognition Conversely the research literature that provides a more sophisticated perspective on the role of cognition in close relationships typically reveals a relatively limited knowledge of the literature on close relationships As researchers who have worked in both social cognitive processes and close relationships Fletcher and Fincham are convinced that each field has much to offer the other In fact their book is based on two important postulates first that a social cognitive framework offers a valuable resource for developing our understanding of close relationships and second that studying cognition within close relationships has the potential to inform our understanding of basic social cognitive processes *Motivational Science* Edward Tory Higgins, Arie W. Kruglanski, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company **Reconstructing Political Theory** Mary Lyndon Shanley, Uma Narayan, 1997 In this volume a companion to Feminist Interpretations and Political Theory Penn State 1991 edited by Mary Lyndon Shanley and Carole Pateman leading feminist theorists rethink the traditional concepts of political theory and expand the range of problems and concerns regarded as central to the analysis of political life Written by well known scholars in philosophy political science sociology and law the book provides a rich interdisciplinary account of key issues in political thought While some of the chapters discuss traditional concepts such as rights power freedom and citizenship others argue that topics less frequently discussed in political theory such as the family childhood dependency compassion and suffering are just as significant for an understanding of political life The Introduction shows how such diverse topics can be linked together and how feminist political theory can be elaborated systematically if it takes notions of independence and dependency public and private and power and empowerment as central to its agenda **Motivation and**

Self-Regulation Across the Life Span Jutta Heckhausen, Carol S. Dweck, 1998-10-28 A group of internationally renowned scholars discuss their research on motivation
