Redefining Black Film Mark A. Reid, 1993-02-23 Can films about black characters produced by white filmmakers be considered black films In answering this question Mark Reid reassesses black film history carefully distinguishing between films controlled by blacks and films that utilize black talent but are controlled by whites Previous black film criticism has buried the true black film industry Reid says by concentrating on films that are about but not by blacks Reid s discussion of black independent films defined as films that focus on the black community and that are written directed produced and distributed by blacks ranges from the earliest black involvement at the turn of the century up through the civil rights movement of the Sixties and the recent resurgence of feminism in black cultural production His critical assessment of work by some black filmmakers such as Spike Lee notes how these films avoid dramatizations of sexism homophobia and classism within the black community In the area of black commercial film controlled by whites Reid considers three genres African American comedy black family film and black action film He points out that even when these films use black writers and directors a black perspective rarely surfaces Reid s innovative critical approach which transcends the black image language of earlier studies and at the same time redefines black film makes an important contribution to film history Certain to attract film scholars this work will also appeal to anyone interested in African American and Women s Studies *LIFE* ,1969-08-22

Birth of an Industry Nicholas Sammond, 2015-08-27 In Birth of an Industry Nicholas Sammond describes how popular early American cartoon characters were derived from blackface minstrelsy He charts the industrialization of animation in the early twentieth century its representation in the cartoons themselves and how important blackface minstrels were to that performance standing in for the frustrations of animation workers Cherished cartoon characters such as Mickey Mouse and Felix the Cat were conceived and developed using blackface minstrelsy's visual and performative conventions these characters are not like minstrels they are minstrels They play out the social cultural political and racial anxieties and desires that link race to the laboring body just as live minstrel show performers did Carefully examining how early animation helped to naturalize virulent racial formations Sammond explores how cartoons used laughter and sentimentality to make those stereotypes seem not only less cruel but actually pleasurable Although the visible links between cartoon characters and the minstrel stage faded long ago Sammond shows how important those links are to thinking about animation then and now and about how cartoons continue to help to illuminate the central place of race in American cultural and social life
