How to Write

the History of the New World Jorge Cañizares-Esguerra, 2001 An Economist Book of the Year 2001 In the 18th century a debate ensued over the French naturalist Buffon's contention that the New World was in fact geologically new. Historians, naturalists, and philosophers clashed over Buffon's view. This book maintains that the dispute was also a debate over historical authority upon whose sources and facts should naturalists and historians reconstruct the history of the New World and its people. In addressing this question, the author offers a strikingly novel interpretation of the Enlightenment.
